

OUR POLICY

To promote service to the Christian revelation of God, loyalty to the Australian Constitutional Monarchy, and maximum co-operation between subjects of the Crown Commonwealth of Nations.

To defend the free Society and its institutions — private property, consumer control of production through genuine competitive enterprise, and limited, decentralised government.

To promote financial policies which will reduce taxation, eliminate debt, and make possible material security for all with greater leisure time for cultural activities.

To oppose all forms of monopoly, either described as public or private.

To encourage all electors always to record a responsible vote in all elections.

To support all policies genuinely concerned with conserving and protecting natural resources, including the soil, and an environment reflecting natural (God's) laws, against policies of rape and waste.

To oppose all policies eroding national sovereignty, and to promote a closer relationship between the peoples of the Crown Commonwealth and those of the United States of America, who share a common Heritage.

THE AUSTRALIAN LEAGUE OF RIGHTS

THE LEAGUE'S FREEDOM PROGRAM

No political movement can exist in a moral vacuum, and Australians have traditionally accepted that it was the Christian Faith that generated our rich cultural heritage .

The League of Rights seeks to help create a body of dedicated men and women who serve, not for their own material gain, but encourages and equips individuals to independently exercise their own initiative in the service of freedom.

FREEDOM FORUMS

The Australian League of Rights is a Christian-based service movement, that unreservedly accepts the Christian Law of Love. It does not seek political power, but is a type of political watchdog, equipped to warn the individual about Threats to Rights and Freedoms, Irrespective of the Label.

In the past year, in addition to the familiar *On Target* and *New Times Survey* publications, books and DVD's we provide, we have become proficient in conducting 'freedom forums'. The filmed 'forums' are then uploaded for viewing via our internet channels.

Long time supporters Betty Luks and Wallace Klinck, who have a wealth of knowledge and understanding on 'Douglas Social Credit: The Policy of Freedom', have recorded many valuable lessons. Other forum topics include 'Family, Health, Community and Local Government'.

We are pleased to have recently added the animated puppets 'Betty & BahArnie' to the mix.

A recent forum conducted in Naracoorte, SA on 'Responsible Vote, Responsible Voter, Responsible Politician' showed what is possible within a vibrant and dynamic democracy.

Democracy in the unarguable sense of the word means the rule of the people - that is, a system in which the people are truly in charge of their daily lives and can influence the course of their own historical fate. There is nothing of the sort in Russia today - Isayevich (Aleksandr) Solzhenitsyn

The development of these forums is specifically tailored towards empowering 'individuals and communities' - for them to be equipped to independently exercise their own initiative in the service of freedom.

Responsible Voter, Responsible Vote, Responsible Politician

Australia can only ever be a vibrant and dynamic democracy while there are sufficient 'individuals and communities' robustly engaging and holding to account the 'bureaucracy' and 'politicians, secure within their political parties'.

This responsibility is unavoidable if we are to remain a free and vibrant people and not allow the Left-Right dialectical conflict to lead us towards a totalitarian dictatorship **.

You see, the Vote does not end on election day, it continues all year round. Power must reside with the individual. As Solzhenitsyn said in 1997, which is equally as valid today:

"We will influence the course of our own historical fate"

Our staff are able to provide indepth training for you to regularly hold your own 'freedom forum'.
Contact our Heritage Bookshop for training.

Those who participate will appreciate the empowering and uplifting 'skills' brought about by the Responsible Voter pursuing a Responsible Vote, to hold to account the Responsible Politician - in pursuit of the **Policy of Freedom**.
