WISHING A HOLY EASTER TO ALL SUPPORTERS

THOUGHT OF THE WEEK: “I have the keys of death and Hades. Death has its gates (*Psalm* 9.13; 107.18; *Isaiah* 38.10); and Christ has the keys of these gates. There were those who took this claim—and there still are those who do so—as a reference to the descent into hell (1 *Peter* 3.18-20). There was a conception in the ancient Church that when Jesus descended into Hades, the region of the dead, He unlocked the doors and brought out from thence Abraham and all God's faithful people who had lived and died in the generations before. But we may take it in an even wider sense than that; for we who are Christians believe that Jesus Christ has authority over death, that He has abolished death and that He has brought life and immortality to light through His glorious gospel (2 *Timothy* 1.10), that because He lives we shall live also (*John* 14.19), and that, therefore, for us and for those whom we love the bitterness of death is for ever past.”

– *The Revelation of John Vol. 1.* By William Barclay p.65 (1959).

MEDICAL MARTIAL LAW? By Mrs Vera West

It gets more oppressive by the day. Now there is medical martial law in New York, and what happens in Zoo York, soon gets replicated across the decaying West:

<https://www.naturalnews.com/2019-03-26-medical-martial-law-rolled-out-in-new-york-unvaccinated-citizens-banned.html>

“Health Freedom Alert: Medical martial law has been rolled out in Rockland County, New York, where unvaccinated citizens are now barred from all public places — including schools, sidewalks, malls, churches and public transportation — all under the absurd quack science fraud that claims measles is only spread by unvaccinated people. In truth, the measles vaccine spreads the measles through “viral shedding” and improperly weakened viral strains. If the measles vaccine really worked, why would vaccinated people have anything to fear from the unvaccinated, anyway?”

“Effective at the stroke of midnight, Wednesday, anyone who is under 18 years of age and unvaccinated against the measles will be barred from public places until this declaration expires in 30 days or until they receive the MMR vaccination,” reports NBC New York. County officials told NBC New York that they would “not chase people down,” yet are threatening six months of jail for anyone found to be in violation of the tyrannical declaration.

This declaration of medical martial law would ban unvaccinated people from public transit and voting locations. With Democrats now pushing to lower the voting age to 16, this medical police state declaration would bar unvaccinated youth from being able to vote unless they are vaccinated. They are also being denied access to public education, public transit and entering all government buildings.

Notably, the government can mandate new vaccines at any time, then claim those new vaccines must also be injected into everyone at gunpoint, then banning those who don't comply from leaving their own homes. Effectively, this new mandate makes people prisoners in their own homes unless they obey the government's insane, anti-science vaccination mandates rooted in Big Pharma corruption and the routine bribery of doctors and public health officials.

With this declaration of medical martial law in New York, measles has become the latest mass hysteria media fraud, following in the footsteps of the now-implosion Russia collusion hoax. As always, the media is lying to everyone, and government bureaucrats are going along with the lie to terrorize their own citizens into compliance.

(continued next page)

(continued from previous page)

Vaccine compliance will now be enforced essentially at gunpoint in Rockland County, with those who violate the medical martial law being subject to arrest and six months in prison. No doubt the government there will soon announce “snitch rewards” for citizens who call the police on unvaccinated residents, turning them in for food stamps or whatever else the government is giving away to those who service as the “vaccine secret police” snitch brigade. It’s also clear that citizens will soon be required to carry “vaccine ID cards” to prove

their compliance with ever-expanding government mandates that now threaten the health and safety of tens of millions of children in the USA alone. “Show me your vaccine papers” is the new mantra, and this pilot program in Rockland will be rolled out across the entire country unless there is strong push back.

Now, we here do not necessarily agree with all the claims made above, but what freedom lover could not be alarmed at the prospects of medicine being practised at gun point? Whatever happened to the maxim of: above all, do no harm? ***

HERE IS ANARCHO-TYRANNY IN ACTION By Charles Taylor

Here is an example of lawlessness, the anarcho-tyrannical end of the rule of law, so that the feral can terrorise local populations:

<https://www.naturalnews.com/2019-04-02-left-wing-cities-going-lawless-as-boston-orders-police-to-stop-arresting-criminals.html>

“Leftist policies are reaching new levels of insanity in Massachusetts, as Suffolk County DA Rachael Rollins pushes her highly contested “no-prosecute” list into action. The “list” gives a green light to a number of arrest-worthy offenses — including trespassing, shoplifting, disorderly conduct, and “wanton or malicious destruction of property.” In other words, local law enforcement is being directed by the district attorney to stand idly by while miscreants steal and destroy property. The directive from Rollins also orders police to refuse to cooperate with ICE in the arresting of illegal immigrants at the courthouse — no matter the severity of their crimes. What could go wrong? It is no surprise this new “policy,” also known as the “Rollins Memo” has been met with substantial scrutiny. While Rollins may say her memo is about

creating an “equal” justice system, the victims of these now-permissible crimes aren’t likely to feel they are being treated equally. But of course, that’s really the goal here, isn’t it? No one cares about the shopkeepers and homeowners that are victimized. Under far-left dogma, criminals are the true victims, we’re just too “hateful” to see it. This is doublethink at its finest. As Gateway Pundit contends, the Rollins Memo serves to hamper law enforcement and aid criminals. In addition to issuing the controversial “no-prosecute” list, the memo orders local law enforcement to refuse working with ICE on the arrest of illegal immigrants — and it also compels judges to issue lighter sentences for illegal aliens so they don’t get deported.”

The game plan of the Left is to disarm the local population, everywhere in the West, close down law enforcement, but re-direct what resources remain to controlling the thought of locals by thought police, and letting the criminals roam free. Some Democrats want the jails emptied. ***

WHAT IS JACINDA GOING TO DO ABOUT GUNS AND GANGS? By John Steele

The New Zealand prime minister will probably be given the Nobel Peace Prize, just like Obama was given it for something, I am not sure what. But, now that some of the emotion is dying down, we need to know what she is going to do about the gangs of New Zealand, who basically run the place, and who will not give up their guns:

<https://www.economist.com/the-economist-explains/2018/02/14/why-new-zealand-has-so-many-gang-members>

“Mongrel Mob leader Sonny Fatu is making it clear his gang will not be surrendering their guns as mandated by the New Zealand government. On March 20, 2019, *Breitbart News* reported New Zealand Prime Minister Jacinda Ardern’s announcement that “military-style” semiautomatic rifles, “high-capacity” magazines, and certain gun parts were being banned. While making the announcement, Ardern encouraged New Zealand gun owners to go ahead and hand over their firearms. Mongrel Mob leader Fatu told Stuff, “Will gangs get

rid of their weapons? No. Because of who we are, we can’t guarantee our own safety.” Fatu added, “The attacks between our organisations are gang-on-gang, they do not involve the non-gang members. Although there may be peripheral damage and violence that occasionally spills out into the public eye, it is absolutely and without intention for any harm to be caused to non-gang members.” He referenced the March 15, 2019, Mosque attacks in New Zealand, saying, “It’s not in our culture to inflict harm on innocent people like what happened in Christchurch.” Black Power member Denis O’Reilly echoed Fatu’s sentiment when asked if his gang would hand over their guns. O’Reilly said, “Of course not. Why the hell would you be talking about handing back guns when you’re talking about progressing your family and moving from pathology to potential. Where on earth would discussions about guns come up in that?”

PROPOSED AMENDMENT TO THE LOCAL GOVERNMENT ACT (SA & TAS)

A review of all things to do with Local Government in SA is under way. Readers will be aware of the campaign by Ken Grundy to have the Act amended to delete the provision for non-Australians to vote in Council elections. All Councils in SA have received a letter requesting the matter be discussed by Councillors with view to getting Council to promote the amendment. The peak body of Councils, the Local Government Assoc. (LGA) of SA will consider any proposals from Councils before it makes a submission to the Parliament. Another avenue accepting submissions is the Office of Local Government which is a State Government office (not a peak body) worthy of receiving submissions from individual citizens.

The third way to make your views known is to contact your local MP. In addition to that Member, is any Member of the Legislative Council. Remember that these people represent the whole State, so you can contact any or all of them (names and addresses below). The important details concerning non-Australian citizens being able to apply for a Council vote were published in **OT Vol 55 No. 07**.

Briefly, our traditional Australian system of electing sports club committees; Boards of Directors; Members of State and Federal Parliament rests with the members of the club etc. No other person is entitled to vote. If they are keen to vote - they are welcome to become a member first. Local Government should not differ in this principle. Non-Australians should become Aussies before being granted a vote.

You can help by:

Writing a very brief letter. Just say, you seek an amendment to the Local Government Act deleting

reference to non-Australians being eligible to vote in Local Government elections. Send it to your Local MP and as many Legislative Councillors as you can, especially minor party and Independent people (they will have more influence on this matter).

Send the same letter to your Council asking them to make their submission and include your wish.

Send the same letter to the Office of Local Government. Level 3; 77 Grenfell St; Adelaide SA 5000

Send it to the LGA, 148 Frome St; Adelaide SA 5000, as a last preference because they will be looking to represent submissions from Councils.

Don't delay. This matter will be coming to a head by late April so please make the effort ASAP.

List of Legislative Councillors for SA:

All may be addressed to Parliament House, Adelaide. SA 5000

Your Local State MP (depends on your electorate).

Send to several Legislative Councillors, especially the Independent and Minor Party people as their vote may be crucial.

Legislative Councillors:

LIB: John Dawkins; JingLee; Michelle Lensink; Rob Lucas; Andrew McLachlan; David Ridgway; Terry Stephens; Stephen Wade; Dennis Hood

ALP: Emily Bourke; Justin Hanson; Ian Hunter; Kyam Maher; Tung No; Irene Pnevmatikos; Clare Scriven; Russell Wortley

SA Best: Connie Bonaros; Frank Pangallo

Greens: Mark Parnell; Tammy Franks

Advance SA: John Darley

Any questions to Ken Grundy 0458 624 701

CYCLISTISM; A DEGRADING FORM OF RACISM! Peter West

I am always on the lookout for new exotic forms of racism/discrimination to add to my anti-racism collection, just as some people used to collect butterflies:

<https://www.breitbart.com/sports/2019/03/29/>

[auatralian-researchers-claim-term-cyclist-dehumanizing-cyclists/](#)

“Australian Researchers have produced a study that has led them to believe the word “cyclists” should be banned, because it “dehumanizes” people who ride bikes. Researchers at Queensland University of Technology and Monash University claim to have found a link between the word “cyclists” and a tendency for motorists to “dehumanize” bikers, according to the *Daily Mail*. Queensland University Professor Narelle Haworth claimed the study found 55 percent of non-cyclists surveyed in Victoria, NSW, and Queensland felt that cyclists were “not completely human.” With those results in hand, Haworth is

advocating for an end to the use of the word “cyclists.” Haworth, who is also Director of the Centre for Accident Research and Road Safety in Queensland, insisted that the elimination of the word would help bike rider safety. “If we used the term people on bikes, instead of cyclists, we’re giving a term that is more human-like and less like a species,” Haworth told *Daily Mail*. “We need to spread the idea that those people [cyclists] could be any of us. There is need to grow a culture of mutual respect for people on bikes,” Hayworth added. The study also reportedly found that one in ten drivers would purposefully block bike riders and admitted to cutting off bikers in the past. Others admitted to yelling at bikers and even throwing things at them. The professor insisted that eliminating the word would take some of the sting out of the negativity between bike riders and motorists! ***

EDITOR'S LETTER to B.B.

We are very grateful for your contributions to the banking debate. Let's look at the "Australian News" www.cecaust.com.au you so kindly posted to us. It proposes: "The five-point program for Australia to survive the new (planned?) global crash:

1. Glass-Steagall banking separation (again?—ed);
2. A National Bank (truly ours?—ed);
3. Immediate moratorium on home and farm foreclosures (and no sales to overseas concerns?—ed);
4. Nation-building infrastructure and science-driver projects to revive the productive economy;
5. **International** cooperation for a new financial architecture and world economic development.

Australia once had a bank that was truly the People's Bank – Commonwealth Bank. Australia had no debt exiting from WW I and managed great projects for the people (while it took Britain almost 100 years to repay WW I debt). The Bank only lasted in its' pristine

THE MATHEMATICAL ABILITIES OF BEES By Brian Simpson

What a pity it is that colony collapse disorder is set to eliminate the world's bee populations, producing a massive human food crisis. Bees, after all, are smart fellows, better at mathematics than some students.

<https://www.nationalgeographic.com/science/2019/01/>

[flowers-can-hear-bees-and-make-their-nectar-sweeter/](#)

"Bees aren't the stripey idiots we all thought – as scientists have shown that they can add and subtract, doing simple sums with 75% accuracy. The unbelievable breakthrough came after scientists taught bees to recognise colours as plus or minus symbols – and then watched, buzzing, as they did sums. The find could have wider implications on our understanding of animal bee-hive-iour (sorry), the scientists believe. The 14 bees taking part in the study were trained to enter a Y-shaped maze consisting of a tunnel with two alternative exits. At the entrance the bees were shown a display of varied shaped "elements" – a square, diamond, circle or triangle – coloured either yellow or blue. The number of elements – from one to five – was randomly altered throughout the trials. Each colour represented a different mathematical operation – blue for "add one" and yellow for "subtract one". Once inside the maze the bees entered a "decision chamber" where they had to choose whether to take the left or right fork of the "Y". More shapes presented at the mouth of each fork represented the correct and incorrect answer to the problem. If two blue shapes were displayed at the entrance, for instance, the "correct" arm of the "Y" was the one marked by three symbols. In this case, the bees had to work out that two plus one equals three. If the bees were initially greeted by two yellow shapes, it meant they had to fly into the arm marked by one symbol

form till 1923 when the Internationalists started to meddle in our affairs. Their Grand Design is producing depressions, inflations, collapse and misery for the whole world because they know what they are doing and what sort of trickery will be accepted. The money is not their goal, they have plenty, it is the Power that is their goal. Ask yourself who owns the IMF, World Bank, media. Why should IMF make any demands on Australia?

Your best defence is to study the strategies you and your family and community need to adopt to protect yourself; study Douglas Social Credit; our library is full of material. It is only the political will that can turn the crisis into plenty – but are any of the parties with the people on that? They need to be enlightened or replaced. For money is a unit of value (similar to weights and measures) used to facilitate the exchange of tangible goods. It is nothing in itself, definitely its' not wealth; electronic banking is the proof. ***

(the correct answer to the sum two minus one). Right answers were rewarded with a tasty drink of sugar water, while making a mistake was "punished" with bitter quinine solution. Training took place over 100 trials, during which the bees made random choices until they learned how to crack the problem. It took up to seven hours for them to learn that blue meant "plus one" and yellow meant "minus one". Each bee was then given four tests involving two addition and two subtraction operations. The bees chose the correct option between 60% and 75% of the time, said the researchers writing in the journal *Science Advances*."

Computer models of honey bees have suggested that the hive itself is similar in operations to the human brain, indicating that there could be an emergent mind associated with the hive. ***
