## The Real Nature of the Opposing Forces

By Eric D. Butler

## INTRODUCTION.

The military conflict raging to-day has much more deeply seated causes than those which, appear on the surface. The military conflict is only one part of a much bigger conflict which is taking place on a world front. It is a final clash between two fundamentally different philosophies, and the importance of understanding the real nature of these two opposing forces cannot be over-estimated.

These two philosophies can rightly be termed the Christian philosophy and the Judaic philosophy. While the Judaic philosophy had its foundation in the Mosaic Law as taught in the Old Testament, the Christian philosophy is essentially a direct result of the New Testament. While the Christian philosophy, as expressed in the statement, "The Sabbath was made for man, and not man for the Sabbath," is essentially a plea for the fullest possible development of the individual i.e., "The Kingdom of God is within you," the Judaic philosophy postulates that the individual "doesn't know what is good for him;" and further, that he must suppress his individuality for some abstraction. The Old Testament taught that the individual must worship "The Law." To-day, he must worship "The State," and tomorrow, "The World-State."

## DEMOCRACY MUST BE DEFENDED.

Democracy, as a form of government, represents the nearest approach to the application of the Christian philosophy the world has yet seen. Real democracy is based on the idea that individuals in free association can get what they want; that the individual has the right to the fullest possible expression and development of his personality. It is particularly significant that the military clash to-day is between two groups of nations with entirely different systems of Government: "democracy" and "socialism." Nothing could be more dangerous in this critical stage of our struggle than to develop an undue mental cynicism towards the political and economic position in the British countries. In spite of the manner in which we have been subjected to tyrannies, like other countries - although to a lesser degree - we still possess the parliamentary system of democracy - the last great bulwark against complete world tyranny. The present military war is being used to remove that bulwark. We are fighting to preserve and extend democratic government.

## JUDAISED VALUES.

Reverting for a moment to the opposing doctrines of the Old and New Testaments, my study of British history leads me to the conclusion that the greatest tyranny to which the British people have been subjected has been the pumping into immature minds of lessons taken from the Old Testament, where morality reaches its highest point in "an eye for an eye, a tooth for a tooth," while wars are "righteous," and the individual is told that he can't do this and he can't do that.

Prior to the time that the Old Testament teaching became widespread among the English people, the greatest age of English culture produced some of the most illustrious men of literature the world has ever seen. Approximately fifty years after

# THE WAR BEHIND THE WAR

the death of Shakespeare, just after the appearance of the authorised version of the Bible, English drama had almost disappeared, and the downward trend of English culture had started.

Cromwell established his dictatorship and brought the Jews and their banking tyranny to England, with the result that English life became more and more Judaised. To-day, British culture faces a crisis which may obliterate it completely, and the attack is being launched both externally and internally. Who would seriously attempt to deny that International Jewry is the real enemy, and that International Finance and International Socialism are, in effect, synonymous terms. The entire philosophy of Socialism-whether it be the Russian system, the German system, the Italian system, or the type being foisted upon the British peoples through Planning, Boards, etc., is essentially Judaic, as witnessed by the leading part played or being played, by Jews in these various movements.

## **ANTI-SEMITISM OR ANTI-JUDAISM?**

I have often pointed out the important difference between anti-Semitism and anti-Judaism. Anti-Semitism, which is an attack upon Jews, and Jews as individuals, is part of International Jewry's campaign but it is not an attack upon the philosophy of International Jewry. Hitler, in fact, is one of the greatest exponents of the Judaic philosophy. He has even attempted to improve on it. Anti-Semitism in Germany has paved the way for the "persecution" of the Jews to all parts of the world, where they are rapidly entrenching themselves. One cannot condone the murderous tactics adopted against individual Jews in Germany. However, as one writer has said, "The Higher Command is concerned only with victory, not with the loss of a few troops."

I am convinced that the bringing of Hitler to power in Germany had a world-wide purpose behind it. Perhaps Douglas Reed, former foreign correspondent to the London "Times," sums the matter up in his latest book, "Nemesis?," which, significantly enough, was practically ignored by the press. Reed writes: ". . . The Jewish question has not been solved, any more than any other question save that of militarism and war, by these methods (Hitler's persecutions), and the sum effect of them has in practice been a world-wide publicity campaign in favour of the Jews, in which the things they have suffered have been exaggerated and the evils which they promoted have been forgotten."

## **WHO FINANCED HITLER?**

Those who have carefully studied Hitler's sensational rise to power are familiar with the part played by big financial interests of an international nature. Hitler is quoted as admitting this himself in "Hitler Speaks," by Hermann Rauschning, who knew Hitler intimately for the first two years of the Nazi regime, until, like many others, he clashed with the regime and left. In one conversation he quotes Hitler as saying: "Jews have been ready to help me in my political struggle. At the outset of our Movement some Jews actually gave me financial assistance. If I had but held

## THE WAR BEHIND THE WAR

---

out my little finger I should have had the whole lot of them crowding round me. They knew well enough there was a new thing on, with life in it"

Apart from the fact that Germany could never have obtained the raw materials to build her present war machine without the support of International Jewish Finance, centered in Wall St., New York,--even the daily press has admitted that America played a major part in arming Germany -there is considerable evidence indicating that Kuhn, Loeb and Co., was interested in bringing Hitler to power.

"Le Canard Enchaîné" for August, 1939, published the following interesting item: "In 1933 there appeared in Holland a book, written by a certain Sidney Warburg, which quickly disappeared from booksellers' windows. In it the author stated that in the preceding year, 1932, he had attended meetings in the United States of financial gentlemen who were seeking means of subsidising Hitler. It appears that among those present were Sir Henri Deterding, representatives of Morgan's Bank, Mr. Montagu Norman. (Governor of the Bank of England) and representatives of the Mendelssohn Bank."

Dr. Schacht's connection with both Wall Street and the Bank of England has been a feature of the intrigue by International Finance. In November, 1932, Goebbels wrote in his diary: "In a talk with Dr. Schacht I found that he absolutely supports our standpoint. He is one of the few who sides quite steadily with the Leader." Schacht certainly suffered a few setbacks when Hitler decided that the internal economy of Germany must be altered, even if the sacred precepts of "sound finance" were discarded. However, with the outbreak of war, and immediately after the visit of Mr. Sumner Welles from Washington, he was restored to favour, and according to reports, he has recently been in Wall St., negotiating some financial transactions. A military disaster for Hitler, without a substantial weakening of the British Empire, would be a disaster for Wall Street and International Jewry. Only by the use of tight methods can that military victory be achieved.

### **JEWS STILL IN GERMANY.**

Those who take all their views from the daily press seem to think that ;practically every Jew has been removed from Germany. They conjure up a mental picture of poor, poverty-stricken individuals leaving at the dead of night. If some left Germany like this I have yet to see them arrive in this country. Some people may be astounded to know that there are still 400,000 Jews inside Germany. This is admitted by the British Board of Jewish Deputies in a book they have recently published. As yet, most of the big Jewish bankers are still in Germany. From all the evidence available, it appears that Max Warburg, of M. M. Warburg and Company, is still in Hamburg. Also Bleichroeder's, Mendelssohn and Co., J. Dreifuss and Co., Arnold Bros., Simon Hirschland and L, Berends and Sons.

Apparently, with Hitler, there are Jews, and Jews. There is, for example, the much-quoted Professor Haushofer, whom Rauschnig, in his book, says has a big influence on Hitler's policies. Haushofer's wife is a full-blooded Jewess, and is reported to be a great friend of

# THE WAR BEHIND THE WAR

---

Hitler's. I quote Douglas Reed's "Nemesis?" on the same point: "But then again these racial babblings of Hitler are no more seriously meant than his anti-Bolshevist ravings or anything else he ever said; a Jewess, in the meaning of his own Anti-Jewish Act, was his intermediary in important international negotiations with foreign politicians. He presented her with his signed portrait, and even gave her a testimonial, through his aide-de-camp, to the effect that she had made the Munich Agreement possible."

One of the most outstanding features of the Nazi regime is the use of Jewish spies by the Gestapo. Articles dealing with this matter have recently appeared in several papers. Douglas Reed gives detailed evidence of this in his last book. Australians might ask a few pertinent questions concerning some of the so-called refugees coming into this country. The Government would be well advised to closely check up on all these "victims" of the Nazi regime. Mere sentiment must be swept aside in this hour of peril. Our feelings have been sufficiently worked on in the past.

## **HITLER IS PRO-JUDAIC.**

It is evident that Hitler's attack upon the Jews is just part of his struggle for world-domination. He is quoted by Rauschning as saying: "My Jews are a valuable hostage given to me by the democracies. Anti-Semitic propaganda in all countries is an almost indispensable medium for the extension of our political campaign." In answer to a question concerning the complete destruction of the Jew, Hitler said: "No. We should then have to invent him." This answer sums up Hitler's attitude to the Jews. Those who financed him to power certainly assessed his weaknesses in a very shrewd manner.

He says that he read the much-debated "Protocols of the Learned Elders of Zion." To quote: "I saw at once we must copy it-in our own way, of course." So we have Hitler, the great anti-Semite, aping the technique of his Jewish masters. I wonder if Hitler read in the "Protocols" the statement that even those who think they are fighting International Jewry will be allowed to believe this, while their very egotism will be exploited. Hitler fit this description very well.

All anti-Semitic movements are a great menace. Hitler's anti-Semitic, but strongly pro-Judaic, philosophy, has permeated all parts of the world, with the result that there is now an alarming swing to Communism, which, ironically enough, is also fostered by International Jewry. Those who cannot see this dangerous trend at the present time, with the danger of International Government-Federal Union in the background, have no conception of the tactics of International Finance.

## **THE BIGGER LIE.**

Hitler perfected the technique of the bigger and better lie, and has utilised it as a major weapon. Those who have read his book will remember his diatribe against what he calls Jewish Communism. A careful study of his informal talks, as related by Rauschning, indicates that most of this was like many other things; only for popular consumption.

In his talks with Rauschning, he not only admires the technique of Communism; he claims to be the executor of Marxism. He describes how he used the Communists in

## THE WAR BEHIND THE WAR

---

his movement for certain purposes. In fact, the remarkable thing about Hitler is the fact that he seems to have a great regard for all movements of a Judaic nature. For example, he is a great admirer of Frederick the Great, the Father of modern Prussianism. He has Frederick's portrait hanging over his desk in his study in Munich. Surely he must know that Frederick was supported by the powerful Jews on every side and that the funds for his Seven Years' War were furnished by a Jewish firm-Itzig, Ephraim and Co., of Berlin.

Hitler is endeavoring to carry out International Jewry's dream of world domination, by their tactics. In doing so he is camouflaging the real issue, and for that reason is the greatest menace to civilization at the present time. For that reason alone his downfall is of the greatest importance. This point cannot be sufficiently emphasised. Any suggestion that Hitler may be fighting our fight against International Finance is a dangerous delusion, and it is because I know that this delusion has been fostered in this and other British countries, that I have attempted to clarify this matter. We must realise that both the "Right" and the "Left" are a menace to our culture, freedom and civilisation. Real political and economic democracy will alone save us from them.

### **PROBLEM CONFRONTING BRITAIN.**

The problem, so far as the British people are concerned, has been very ably summed up by Cobbett in "Jews, and the Jews in England." He writes: "No exclusion of the Jews from the administrative or the cultural life of England, therefore, could be more than a piece of shallow, hysterical patriotism, if it did not contemplate and include the far more fundamental, but infinitely more difficult, task of freeing the country of its wrong values. And all bodies of Englishmen who seriously wish to recover English civilisation at this stage cannot be regarded as any more than emotional and hysterical flag-wavers if they do not see the compelling need of that infinitely difficult task - the task of accompanying any gesture of organized reform by a frontal attack upon the Judaized elements in their own kith and kin, and their own Judaized values."?

The following extract from Douglas Reed's latest book, "Nemesis?", is also worth quoting on this point: "Already, the state of England after the war that loomed ahead was full of menacing shadows, but there seemed as little hope of awakening public opinion to these dangers as there had been of awakening it to the oncoming peril of war itself. The things that were best in England were being buried under an imported, alien way of life and way of thinking that made itself ever more master of literature and the Press, the stage and the films, radio and the menu, art, parliamentary debates-everything.

"We were going to war again to keep England's shores inviolate and at the same time we were opening these shores to an alien influx the like of which they had never seen. Maddest of all, the craziest thing that I ever saw even in the madhouse 'Insanity Fair', we were about to give these newcomers preferential treatment in our own land over the country's own sons; they were to be put into posts liberated by the young men who went off to war, and at the price of 'joining up' themselves they could even acquire British citizenship-but the condition of that 'Joining up,' set

---

out in black and white, was that they never should be sent to the front. Their lives were to be preserved at all cost, so that they could live in peace and prosperity in England after the war . . . ."

### "THE PRICE OF SOCIALISM."

"Socialism," whatever form it takes, is not democracy, is opposed to the Christian ethic, and is the product of a Jewish philosophy. Engels, the Jew millionaire, amassed his huge fortune by the terrible exploitation of child labour in the Manchester district in England. With this fortune he helped finance Karl Marx (Mordecai), the Jewish prophet of collectivism. Russia to-day is run mainly by Jews, and the unrelenting policy of the controlling group is world revolution and "bolshevism."

There is also a Judaic policy, and that policy is not a new product of a comparatively recent period. It is a policy of world-domination, and has been consciously pursued at least since approximately 1789, at the time of the French Revolution. The part played by Jews in every revolution since that time makes astounding reading. The famous Jewish writer Erberlin, in his book, "Les Juifs d'aujourd'hui," openly proclaims this when he writes: "The more thorough a revolution is, the more liberty and equality are gained for the Jews. Each current of progress never fails to consolidate the position of the Jews."

"By 'their fruits ye shall know them.'" A brief glance at the history of the various examples of "Socialism" should convince even the most dubious of the real nature of the menace which threatens to overthrow civilisation. During the twenty years in Russia prior to 1938, over 20 million people were "liquidated" by various methods. Russia is to-day the Mecca of the socialists; yet, such a record of organised tyranny and murder the world has never seen. Of course, this programme was for the "benefit of the people." We also seem to be hearing that phrase quite a lot lately in this country. We must make "sacrifices"!

There is no need for me to deal with the bloodshed which took place in Germany during the early days of the National Socialist regime. Fascist Guild Socialism in Italy, with its glorification of the State and War, was introduced by the brutal castor-oil, methods, and a rather extensive secret police system. The Socialist Government in Spain led to a bloody revolution which cost nearly three-quarters of a million lives, while the Socialist Government of Bela Kuhn, in Hungary, drenched that country in blood.

Apart from the policy of violence which these regimes have followed, it has been accompanied by an organised attack upon religion with the exception of Italy, where a compromise has existed for some time. Now, these are rather unpleasant facts, but must be faced. As L. D. Byrne, technical adviser to the Government of Alberta, has said: "In these matters we have to get down to first principles, and the very basis of socialist philosophy attacks the principles by which democratic society and a Christian social order must stand or fall!:"

## **AN AMAZING LETTER.**

At long last it is being widely recognised that International Finance with its debt-structure and taxation-and Revolution, are only different methods of achieving the same objective. Even people whom I have never met before have cautiously expressed their fears on this point. Theodor Herzl, German-Jewish writer admitted' this strategy in "The Jewish State." He wrote: "When we sink, we become a revolutionary proletariat, the subordinate officers of all revolutionary parties; and, at the same time, when we rise, there rises also our terrible power of the purse." This is open enough, but I have come into possession of a statement which is worthy of being carefully studied. Prior to publishing his book, "The World Significance of the Russian Revolution," Mr. G. Pitt-Rivers sent the manuscript to Dr. Oscar Levy, well-known Jewish writer, who is highly regarded in English literary circles. Mr. Levy replied, inter alia, as follows:

"For Bolshevism is a religion and a faith. How could these half-converted believers ever dream to vanquish the Truthful and the Faithful of their own creed, these holy crusaders, who had gathered round the Red Standard of the Prophet, Karl Marx, and who fought under the daring guidance of these experienced officers of all latter-day revolutions --the Jews? . . . . To this question I have only one answer to give, and it is this: You are right. This reproach of yours, which I feel it for certain is at the bottom of your anti-Semitism, is only too well justified, and upon this common ground I am only too willing to shake hands with you and defend you against any accusation of promoting Race Hatred: If you are an (anti-Semite, I, the Semite, am an anti-Semite, too, and a much more fervent one than even you are.... We (Jews) have erred, my friend, we have most grievously erred.

And if there was truth in our error, 3,000, 2,000 nay, 100 years ago, there is now nothing but falsehood and madness, a madness that will produce an ever greater misery and an even wider anarchy. We who have promised to lead you to a New Heaven we have finally succeeded in landing you into a New Hell. . . . I look at this world, and I shudder at its ghastliness, I shudder all the more as I know the spiritual authors of all this ghastliness . . . . "

## **A PROPHECY WHICH IS COMING TRUE.**

Those who may be a little dubious concerning the suggestion that a conscious policy has been pursued by International Jewry since the French Revolution to achieve world domination through 'Socialism, whether it be imposed from above by Finance or by Revolution from beneath, would be well advised to give the following statement very thoughtful consideration. It was made by William Marr, a German revolutionary who fought for years against Christianity in Germany, and played a prominent part in the revolution. The result of the revolution was such that he wrote a book in 1889, "La Victoire du Jadaisme sur le Catholicisme," in which he said:

## THE WAR BEHIND THE WAR

---

"I declare aloud without the least intention of irony, the triumph of Judaism in world history; I publish the account of the lost battle, of the victory of the enemy who shows no pity to the conquered army . . .

"In this country of thinkers and philosophers, the emancipation of the Jews took place in 1848. From that date began the thirty years' warp which Judaism now openly carries on against us . . . At the present hour, Russia alone among all the States of Europe still offers resistance to the official recognition of the foreign invasion. It is the last rampart against which the Jews have dug their last sap, and to judge from the present trend of events, the capitulation of Russia is only a matter of time . . .

"In this immense Empire . . . Judaism will find the Archimedean fulcrum which will permit it to drag finally from its hinges the whole of Western Europe. The elastic spirit of intrigue will plunge Russia into a revolution the like of which the world has never seen . . .

"In Russia, Judaism occupies such a situation that it is still in dread of being driven back. When it has laid down Russia it will fear the attacks of no one; when it takes possession in Russia, of all the functions of the State, just as with us; then the Jews will officially set about the destruction, of society in Western Europe."

The entire diabolical plan is developing as Marx predicted, with the result that Judaized Russia holds one of the key positions in the present struggle. Although we have been told quite a lot about the British blockade of Germany, the following report from the Melbourne "Herald" of August 24th, 1940, indicates that Russia is utilising her key position to advantage in order to prolong the struggle: "Soviet 'Aiding' Nazis to Beat Blockade. Reviewing the first year of the Russo-German Non-Aggression Pact, 'Izvestia,' official organ of the Central Executive Committee of the U.S.S.R., says: 'Russia is helping Germany to beat the British blockade by supplying raw materials.'"

The Jewish control of the arm's ring in America, is well known, while the powerful Jewish International Banking Houses in Wall Street wield a tremendous power over the American Administration. However, it is quite obvious that the majority of American citizens are behind the British Empire, which they recognise as their first line of defence.

The following report from the Sydney "Daily Telegraph" of August 9th, 1940, makes further interesting reading:

"Sees America As Our Ruler. Leon 'Trotsky,' exiled Russian Communist leader, predicts that the United States will become 'the legitimate inheritor' of Canada, Australia and New Zealand.

" 'This would follow defeat of Britain by Germany,' he told newspaper men to-day at his fortress-like Mexican villa.

# THE WAR BEHIND THE WAR

---

" 'The United States has left the job of smashing England in the hands of Germany,' he said.

"Trotsky predicted that the United States, without entering the war, would emerge as the most imperialistic nation in the history of the world as a result of it."

## **CIVILIZATION'S LAST RETREAT.**

Since the last war, the British people in particular have been on the defensive, and gradually giving ground. The entire world is being bolshevized, and one of the leaders of Judaism makes no secret of the programme. Mr. A. Nossig, in "Integrates Judentum," writes: "Present-day world socialism forms *the* first stage in the accomplishment of the Mosaic doctrine, the beginning of the realisation of the future state of the world announced by our prophets. The salvation of Judaism demands, today that we acknowledge the programme of socialism, openly in the face of the world. The salvation of humanity for centuries to come depends upon the victory of this programme."

With the military war raging, the attack upon the British people and British institutions is being ruthlessly carried on. Here in Australia the position staggers from crisis to crisis. Finance is "sovietising" us from above. Any person who cannot see that this latest move by Finance is aimed at bringing about a state of affairs in this country where a few more liberties can be taken from the people, has very little of serious consequence to contribute to an examination of the situation.

Democracy means that power should reside with the electors, and further, and much more important, that they should be CONSCIOUS of that power. The conflict now raging goes much deeper than mere monetary reform; those who talk about monetary reform without showing the electors that they, as INDIVIDUALS, have supreme POWER, are doomed to be disappointed. A lot of nonsense was talked in this country, by people who should have known much better, about "monetary reform" in New Zealand. So far, the people have been beaten there. They thought that because a political party told them that it would give them monetary reform, they only had to sit down and wait for the results. They are still waiting, and while they have been waiting, the "sovietisation" of New Zealand has proceeded rapidly.

I have no faith in statements by Members of Parliament, Parties, passing of resolutions, or any other diversions which have not the conscious power of the electors behind them. Continuous and pressing action from the individual electors will alone beat the opposition we are fighting. The non-Party campaign for political and, economic democracy in which we are engaged, must be extended.

Surely civilization cannot retreat much further before the final stand is made? I believe that the British people are now showing signs of consolidating their position for a "counter-offensive." Now is the right time for every loyal Britisher to come right into the "firing line" and make a final stand. Unless that stand is made

# THE WAR BEHIND THE WAR

---

before long I am afraid that we may see a rout, with the final subjugation of civilization to the Judaic philosophy, and another retreat into the Dark Ages.

This is the fundamental issue which confronts every citizen of this and every other country today. No solution of our problems is possible until the background of the conflict is clearly understood.

## **POSTSCRIPT**

This lecture was first presented sometime in the 1940s and you can judge by events the accuracy of the comments which, in Australia today, could leave the utterer in trouble where it is a crime to speak the Truth.
