## EDITORIAL

### WALL STREET FINANCIERS MOBILISE AGAINST GOLDWATER

Led by Mr. Sidney Weinberg, the international financier, and similar individuals, Wall Street financial groups are actively organising to try to defeat Senator Barry Goldwater's bid for the American Presidency. This is a most significant development, and further confirms our view that the movement in the U.S.A. responsible for Goldwater being nominated as the Republican representative, is providing the international power manipulators with a potential threat, which they believe must be firmly met.

Senior member of the Wall Street financial cabal, Bernard Marines Baruch, has not yet made his views public. But if, as many Americans believe, Sidney Weinberg is Baruch's successor, there is little doubt that Baruch believes that Senator Goldwater is a menace. Thus once again there is clear evidence of the nexus between International Finance and International Revolution. Even if Senator Goldwater fails in his bid for the American Presidency this year, his challenge has brought out into the open for all to see, the basic cleavage in the U.S.A. The various international liberals and collectivists masquerading as Republicans have been forced to show their true colours by declaring for President Johnson, a ruthless politician who has had a long association with the forces responsible for the New Deal revolution and the drive towards the World State.

#### Democrats Support Goldwater

On the other hand, the stand by Goldwater and his supporters against the growing power of the Federal Government at the expense of the States, and their insistence that the so-called Civil Rights legislation drives another wedge into the Federal Constitution, has made it possible for large numbers of conservative Democrats to support a Republican candidate.

At the moment, of course, the Johnson forces are claiming that various polls reveal that President Johnson has a tremendous lead over Senator Goldwater. Before accepting the extravagant claims being made concerning the present electoral situation in the U.S.A., it is important to recall that the pollsters were badly astray in their predictions about the critical Californian Republican primaries. When Mr. Tom Dewey stood as the Republican representative against President Harry Truman, the pollsters claimed that Truman had no hope whatever. But Truman went ahead and won a decisive victory. Our information is that the present claims of the pollsters must be treated primarily as propaganda.

As Mr. Eric Butler recently pointed out in his cautious survey of the Goldwater challenge, much more important than Senator Goldwater is the grass-roots movement of which he is the current focal point. It was this movement, which defeated all the Rockefeller millions of dollars

thrown into the California campaign. Goldwater won because his supporters were genuinely dedicated. For the first time for over 30 years, the forces of Big Finance have found that there is a grass-roots movement, which can neither be bought nor intimidated. There was a completely new situation compared with 1952, when Bernard Baruch and his clique foisted Eisenhower on to the Republicans, destroying Senator Taft, another conservative who had little time for the "United" Nations, and who insisted that the Communist challenge must be firmly met.

#### Why Weinberg Opposes Goldwater

If the pollsters are correct, it is surprising that Sidney Weinberg and his friends are organising so feverishly. But they have suddenly realised that it is possible that Goldwater could win. And they are even more concerned about the fact that even a strong support for Goldwater, while not carrying him to the Presidency, would see the election of a much more conservative and anti-Communist Con-

DINNER IS ON  
SEPTEMBER 18.**

**Make YOUR Booking TODAY**

gress. This would be a big step forward for the conservative anti-Communist forces in the U.S.A. The feverish attack upon Goldwater, the hysteria about "extremism," is designed not only to try to defeat Goldwater, but to defeat all conservative candidates for the House of Representatives and the Senate.

Matured observers and students of the revolutionary forces in the U.S.A. have warned that having realised the great strength of the movement supporting Goldwater, the revolutionaries are going to resort to new and more ruthless tactics. It is felt that no effort will be spared to prevent any halting of the revolutionary movement in the U.S.A. The most immediate danger is that the Goldwater movement will be infiltrated, and that bad advice will be given at critical times. Already there is alarm

## FABIAN SOCIALIST JOURNAL SMEARS D. J. KILLEN. M.P.

Mr. Georgi Dimitrov, the famous Communist leader, is credited with the statement: "Let our friends do the work for us." Dimitrov would be delighted with the efforts of the Fabian Socialists, and others, to smear one of the most competent and most courageous anti-Communist Members of the Federal Parliament, Mr. D. J. Killen, Liberal Member for Moreton, Queensland.

No person can step into the front line against the Communist conspiracy today without being systematically smeared. In his great book *Witness*, the late Whittaker Chambers, the former top Communist who exposed Alger Hiss, influential American State Department official and first Secretary-General of UNO, revealed how the smear technique is set in motion, and how innocent dupes are used to spread it. This enables the Communists to remain in the background while non-Communists, and even people who sincerely believe they are anti-Communists, more effectively carry the smear throughout the community.

### A Classic Case Of Smear Technique

Although most Communist-inspired smears are difficult to deal with, the attempted smear of Mr. Killen by the Fabian Socialists makes it possible to provide a classic case of the smear technique in action. And it also provides further evidence of how the Fabian Socialists of today, in the tradition of the Webbs, Shaw and other Fabian pioneers, use an outwardly respectable front, carefully plastered over with a veneer of what looks like objective scholarship, to mask the truth that they are even prepared to tell deliberate lies to help achieve their objectives. This charge can easily be sustained by a thorough examination of an article, Mr. Killen, M.H.R., in the winter, 1964 issue of *Dissent*, p. 37.

*Dissent* is the typical Fabian-type journal, produced and written in the style, which appeals most to those who like to think of themselves as true intellectuals. Perhaps it is not surprising, therefore, that some who should know much better, have accepted the smear article on Mr. Killen at its face value. They are the same type of innocent dupes who back in the thirties accepted the "objective report" on Soviet Russia, *Soviet Communism — A New Civilization*, by Sidney and Beatrice Webb, as a great piece of Fabian work: well-documented, liberally sprinkled with statistics and footnotes. But as Mr. Eric Butler has demonstrated in his book, *The Fabian Socialist Contribution To The Communist Advance*, most of the material used by the Webbs was prepared for them by the Soviet Foreign Office. The Webbs deliberately misled large numbers of people in all parts of the world. Their followers of today use the same dishonest tactics.

### Guilt-Through-Association

*The Fabian Socialist Contribution To The Communist Advance* is an expansion of the Paper of the same title given by Mr. Eric Butler at the League of Rights, Annual 1963 Seminar. Prominent Victorian Fabian Socialist, Mr. Race Mathews, and listed in *Dissent* as having been Business Manager for this journal, personally attended the League's Seminar and heard Mr. Butler expose the close historical relationship between the Fabian Socialists and the Communist conspiracy. Mr. Mathews neither

questioned Mr. Butler nor did he challenge anything that had been said. He obviously realised that he was listening to someone whose documentation was both thorough and factual, and who did not need to use the smear technique to expose the Fabian Socialist Movement's vital contribution to the Communist conspiracy.

One of the main charges levelled against the late Senator Joseph McCarthy was that this man unscrupulously practised character assassination with the aid of the guilt-through-association technique. This is the very technique used in the *Dissent* smear-article on Mr. Killen. His main "crime" is "his close and persistent ties with Australia's leading anti-Semitic organisation, Eric D. Butler's Australian League of Rights." The term "anti-Semitic" is used today along with terms such as "Fascist," "hate-monger," and "right-wing extremist," not to convey an accurate picture of reality, but to serve as an instrument of political abuse. One may agree or disagree with the clearly stated Objectives of the League of Rights, and representatives of the League are prepared at any time to discuss these Objectives with anyone sufficiently interested, but to charge the League with being "Australia's leading anti-Semitic organisation" is a blatant smear for the express purpose of then trying to smear Mr. Killen.

### The "Anti-Semitic" Smear

The author of the *Dissent* article is not, of course, concerned about truth, as will be demonstrated. Faced with the difficulty of showing how the League's Objectives, Loyalty to the Crown, support for free, competitive enterprise, the rule of law, limited constitutional government, and the decentralisation of power, can have any possible relationship to "anti-Semitism," he suggests that these Objectives are "packets" being used "to merchandise its product, anti-Semitism." Surely the normal mind must boggle at the suggestion that support for the Crown and other League Objectives are really support for "anti-Semitism!" But apparently the writer of this article was confident that his audience would accept uncritically this type of rubbish. Perhaps he understands the mentality of

### A SUGGESTION ABOUT THE ANNUAL DINNER

Geography is the main reason why the great majority of our readers cannot attend the highlight of our year's activities, the Annual Dinner. Many often express the wish that they could attend. But they could assist others to attend. One of the main features of the work associated with this journal is the growing number of young people, many of them students, who are becoming interested. The donation for the Dinner is beyond the means of some of these young people, but supporters unable to attend themselves might care to make a small contribution towards a fund specifically to help these young people — at least to help partly subsidise their Dinner donation. This will be an investment paying rich dividends in the future.

Fabian Socialists! So far from advocating or supporting "anti-Semitism" - whatever this means - - the League has warned that "anti-Semitism" has been used as a Communist instrument right around the world. For example, Mr. Pat Walsh, former undercover agent for the Royal Canadian Mounted Police, has revealed how when working with the Communists, Jewish Communist Fred Rose deliberately used an "anti-Semitic" campaign both 'to get into the Canadian Parliament and to stay there. But while Rose was warning about the non-existent menace of the Nazis in Canada, he was in fact using his position in Parliament to advance the Communist conspiracy in Canada. Rose was one of those convicted in the Canadian Spy trials just after the war.

### **Eric Butler's Friends**

It is true, of course, that Mr. Butler is a friend of Mr. Killen. But then Mr. Butler enjoys the friendship and the support of large numbers of prominent Australians - politicians, Churchmen, business and professional men, members of the judiciary, and others. He is also highly respected by responsible people in many other countries. Friendship and association is possible without some smearers suggesting that everyone who knows Mr. Butler is a disguised "fascist." or completely agrees with all his views. The late Mr. Athol Townley, for example, knew Mr. Butler long before he became a Federal Cabinet Minister, and subscribed to the League's journal, *The Intelligence Survey*. No doubt the Fabian Socialists and their philosophical brothers, the Communists, find it disturbing that responsible people in all walks of life subscribe to the League's journal and to the League's work. But this is one of the facts of current political life they will just have to face, unpalatable though they find it. Attempted smearing of Mr. Killen will not help them. *But it does enable the League to point out to the Australian people what lengths the Fabian Socialists are prepared to go to in an attempt to destroy a courageous anti-Communist.*

Apart from the general smearing technique of the *Dissent* article, there are a number of blatant lies. Anyone doubting this allegation can easily test it for himself. The smearers claims that Mr. Killen "does not seem to mind" extracts from his speeches "followed by some of the most nauseating racialist journalism ever penned in Australia." And he then continues: "Thus, his speech in the April, 1962, issue of *Intelligence Survey* immediately preceded the statement that the figure of six million Jews exterminated in World War II 'has been deliberately invented to further the plans of World Jewry'." *No such statement, or similar statement, appeared in the Intelligence Survey of April 1962. Nor has it appeared in any other issue of Intelligence Survey.* So much for the "scholarship" of the smearer. It might also be observed in passing that it is astonishing to see the suggestion that Members of Parliament can prevent their Parliamentary addresses from being re-printed. But this was included merely as part of the smear technique.

### **A Blatant Falsehood**

In case it should be thought that perhaps the smearer was guilty of only one mistake - - an unfortunate slip

as it were in his "objective" researches - it is necessary to observe how careless he is with the truth when he also tries to turn Mr. Killen into an "anti-Semite." He refers to Mr. Killen's address on the Middle East at Canberra on August 6, 1958, and then states that "on the following day he went further and said Israel was to blame for 'the whole of the trouble in the Middle East'." Anyone sufficiently interested may look up the *Hansard* reports of the debate on the Middle East, and he will find that the words attributed to Mr. Killen were in fact uttered by Mr. Clyde Cameron (p. 210).

If Mr. Killen's address was "anti-Semitic," there must have been other "anti-Semites" in the Parliament supporting him. A number of fellow Members congratulated Mr. Killen on his address. *Amongst these was the Leader of the Opposition, Dr. H. V. Evatt!* As Dr. Evatt had no particular liking for Mr. Killen's brand of politics, particularly his strong anti-Communism, his views on Mr. Killen's speech may be regarded as of some interest. In commenting on what Mr. Killen on August 6 (vide *Hansard*, p. 115) had said, Dr. Evatt said while "there will be no alteration of boundaries introduced into the problem. I was very impressed with the honorable member's speech". *Perhaps this also makes Dr. Evatt "anti-Semitic"!*

## **WHEN MAKING YOUR DINNER BOOKING**

Please state whether you require a fish Dinner. And if you have friends with whom you wish to sit.

According to the *Dissent* contributor, the Mission-to-Britain campaign by Mr. Butler and Mr. Killen against Britain's proposed entry into the European Common Market, "lasted just over four months . . ." It in fact lasted just over four weeks. Just another unfortunate slip, someone says. But those who set out to pretend that their researches have been conducted with great thoroughness should not make such elementary mistakes of fact. However, little real research was done because the writer of the article repeats like a parrot an allegation about Mr. Butler, which first appeared in the scurrilous and Communist-inspired article, "The Secret Life of Mr. Eric Butler," produced first in 1959. He states that Mr. Butler sees fluoridation as part of the "Jewish-Bolshevik plot." Mr. Butler has never expressed any such views. But that does not matter to the smearer, who then tries to create the impression that because Mr. Butler has certainly been opposed to fluoridation -- although this issue has never taken more than a small fraction of his time and energies - and Mr. Killen has also opposed fluoridation of public water supplies, therefore Mr. Killen shares views Mr. Butler has never expressed about a "Jewish-Bolshevik plot."

In his anxiety to link Mr. Killen with Mr. Butler, the *Dissent* contributor then quotes Labor M.H.R., Les Johnson, as suggesting in Parliament that Mr. Killen's brief

"had been prepared by 'his mentor, the notorious Eric Butler'." Some people regard Mr. Butler as extremely energetic, but not even his greatest admirer would admit that he could have been thousands of miles away overseas engaged in a heavy lecturing campaign, and at the same time preparing briefs for Mr. Killen or anyone else at Canberra. The fact that this type of nonsense can be presented seriously in a journal trying to pretend that it is objective, merely provides further evidence of the real methods of the Fabian Socialists.

### **Who Is "Robin Acton"?**

Although the purpose of the *Dissent* smear is clear, the identity of the author remains obscure. The article was allegedly written by a Robin Acton. It is not without significance that no issue of *Dissent* since its inception mentions Robin Acton. And of even greater significance, that in the issue of *Dissent* containing the anti-Killen smear, the background of every contributor is given -with the exception of Robin Acton.

A request by Mr. Butler to be put in touch with Robin Acton has been ignored by *Dissent*. Why this hush-hush attitude concerning the author of the smear against Mr. Killen? Who in fact is "Robin Acton"? The manner in which his identity has been carefully protected, the technique he used in his smear article, are all in keeping with the Fabian policy of Sovietism by stealth. *How right Dimitrov was when he said that the Communists should let their friends do the work for them.*

## **WELCOMING MR. SOLLY SACHS**

A Mr. Solly Sachs is scheduled to arrive in Australia on September 24. He hopes to raise £25,000 towards the Fund to assist a group of Communist criminals in the S.A., generally described as "political prisoners." The visit by Mr. Sachs has been hailed by the Australian Communist press, which is, however, careful not to call Sachs a Communist. He is a "Progressive." The Jewish press is also welcoming Sachs, but makes no mention of his long pro-Communist record. *The Australian Jewish News* of August 28 describes him as a "veteran humanist"!

The Anglican Primate of Australia, Dr. Gough, Archbishop of Sydney, has unfortunately allowed himself to be used to further the Communist-inspired Fund to help victims of "political oppression," particularly the Communists found guilty in the Rivonia trial, while the Archbishop of Melbourne, Dr. Frank Woods, has joined with the Rev. Alan Walker of Sydney in sponsoring the tour by Mr. Sachs. No doubt there is great satisfaction amongst the Communist conspirators as they look forward to innocent Australians contributing thousands of pounds to help their strategy along.

Action is being taken to acquaint the two Anglican Archbishops of the cause they are innocently serving. We will wait with some interest to see how many letters exposing Sachs appears in the Australian Jewish press. Here is a chance for that excitable gentleman, Mr. I. Liebler, for whom Archbishop Woods clearly has such respect, to advise his Grace that he is being used to advance a subversive cause and to warn his fellow

Jews about Sachs. But perhaps it is "anti-Semitic" to expose Mr. Solly Sachs?

## **FEES FOR LEAGUE OF RIGHTS SEMINAR**

As there is every indication that there will be a large, probably record, attendance at this year's League of Rights Annual Seminar, the League has decided to adjust the attendance fees already announced. The charging of a fee is designed, not to make a profit, but to establish the important principle that every effort should be made to ensure that those attending bear an equitable share of the basic costs of organising and conducting the Seminar. All donations then given at Seminar can be used for expanding League activities.

The adjusted fees are: 7/6 per person for complete Seminar, including afternoon tea. 12/6 for married couple attending complete Seminar. Students and those not earning, 5/- for complete Seminar. There will be an adjustment for those attending only one or two sessions of the Seminar, and for family groups.

The Papers presented by Mr. Karl Moeller, Mr. Eric D. Butler, and Mr. D. J. Killen, M.P., will contain some of the most stimulating material ever presented at a League Seminar.

---

Continued from page 1  
that Senator Goldwater, in an attempt to get unity in the Republican Party, has made statements concerning Eisenhower's foreign policies which are a contradiction of Goldwater's own clearly expressed views, and his actions. Observers warn that if he is persuaded through bad advice to indulge in too much expediency, Goldwater is going to dull the fervour of many of his present supporters.

### **Possible Action By Revolutionaries**

There is one school of thought in the U.S.A. which believes that the international revolutionaries will probably make a desperate bid to save Johnson by liquidating Castro in Cuba, replacing him with a more reliable agent of International Communism, but one more immediately acceptable to the American people. The present Administration will be able to turn such a dramatic development to their own advantage. It is felt that this stratagem may be attempted in October. There has been talk of it being considered during the Kennedy Administration. The third possible tactic is that Goldwater could be assassinated in such a way to make detection very difficult. The revolutionaries will stop at nothing, as they have demonstrated over many years, to achieve their purposes. Adequate finance will be available for whatever is felt necessary.

Just as the McCarthy challenge forced into the open the frightful nature of the problem confronting Civilization, so has the grass-roots movement under Goldwater provides further evidence of how deeply entrenched the revolutionaries are. And it can no longer be disputed that International Finance is a major revolutionary force. The battle lines are being more clearly drawn, with the result that an increasing number of people find it easier to grasp the truth that they are threatened by an international conspiracy. There may be just time to destroy the conspirators before they destroy what remains of Civilization.
