The price of Freedom is eternal vigilance—

Registered By Australia Post—Publication No. VBH 0999

Vol. 24 No. 45

November 25th., 1988

Thought for the Week: ".... It must be repeated that the money power uses liberal sentiment to disguise its real purposes. The call for post-war independence of the English, Dutch, French, Spanish, Portuguese and Belgian colonies was designed to replace stability with unrest, harmony with hatred, progress with anarchy, and security with terror. Once the quality of life deteriorates, a country is ripe for the taking. A Black state is more easily controlled from outside than a white. The cries of liberty, human rights, democracy, one-man-one-vote, majority rule, freedom, racial prejudice et al., are merely a smoke-screen behind which the take-overs of mineral rights and political power are made in secret. The current agitation over South West Africa (Namibia) has allegedly been occasioned by the discovery of vast deposits of uranium oxide that the bankers naturally wish to control....."

- Dr. Michael Hurry, in Who Hold The Balance? (1983).

MEDIA MANIPULATION IN CANADA: (Eric Butler reports from Canada):

"I have just listened to a remarkable tape, of a Canadian Broadcasting Corporation radio programme; 'Media File', which was broadcast prior to the second Zundel trial, which started early last year. The central theme of the programme was how to deny Zundel the massive publicity he had obtained during the first trial. The truth is that Zundel's brilliant barrister, Mr. Doug Christie, was able to expose the nonsense concerning the alleged systematic gassing of 6 million Jews, most of these allegedly in Poland during the Second World War. What some of the witnesses for the defence had to say was highly newsworthy. Although the jury, under direction from the presiding judge, found Zundel guilty of circulating false news, millions of people heard for the first time that there were good reasons for at least doubting the story about the Six Million.

"The producers of the C.B.C. programme, mentioned above, blatantly recommended that the media handle the second Zundel trial in such a way that there was a minimum of publicity. It was suggested that one of the big mistakes during the first trial was that the judge had not

made a judicial ruling at the beginning that the mass gassing of millions of Jews was a fact.

"The presiding judge at the second trial did, in fact, make such a ruling, whilst most of the media did adopt a strategy of giving most of the trial the silent treatment. The result was that the most devastating evidence against the gas chambers story was effectively boycotted by the media in what must be one of the most outrageous examples of media censorship in history.

"First-hand examinations of the alleged gas chambers by a number of people confirmed what common-sense indicated; that it was impossible for what passed as gas chambers to have been used for mass gassing. But the issue was resolved beyond all argument by a scientific report prepared by probably the greatest expert in the U.S.A. on the subject of building gas chambers for the purpose of capital punishment.

"Fred Leuchter is a consultant who specialises in the design and fabrication of execution hardware in U.S. prisons. Before accepting the assignment to go to Poland to make an assessment of the much-publicised 'killing chambers', Leuchter had made it clear that he accepted the general view of the mass extermination of Jews.

"But the Leuchter report, based on a thorough examination of the alleged gas chambers, demonstrated that no such gassings could have taken place. The scientific evidence is all there. It was this evidence which forced British historian, David Irving, who previously had not been prepared to go beyond saying that he knew of no documentary evidence supporting the view that Hitler has ordered the mass liquidation of Jews, to come out publicly at the second Zundel trial and say that the mass gassings could never have taken place. This is probably the most historic document of modern times. It can be said that the Leuchter report has put an end to all argument about the alleged mass gassing of Jews. But this historic document is ignored by the media..."

LEAGUE ASSISTANT NATIONAL DIRECTOR WRITES TO ALAN GRIFFITHS, M.H.R.

(Mr. Griffiths is Chairman of The House of Representatives Standing Committee on Legal and Constitutional Affairs. His electorate is Maribyrnong, Vic., which covers mainly the Western suburbs of Melbourne):

"Dear Mr. Griffiths:

Mr. Eric Butler, National Director of the Australian League of Rights, who is at present overseas, has requested I write to you as the Chairman of the all-party committee to investigate the League, saying that Mr. Butler is desirous of appearing before your committee at the earliest opportunity to make a statement and to answer any questions members wish to ask.

"Mr. Butler now has had the opportunity to examine comments by politicians and feels that many of the allegations about the League are

so incredibly absurd that they can only further reduce the already low perception of politicians, generally, by the public.

Mr. Butler stresses that his offer to appear before your committee is subject only to the condition that the inquiry takes place in public.

I would appreciate a reply to this letter at your earliest convenience.

A copy of this letter is being released to the media.

Yours faithfully,

ROBERT NIXON,

Assistant National Director

AUSTRALIAN LEAGUE OF RIGHTS."

HUMAN RIGHTS & EQUAL OPPORTUNITIES COMMISSION STILL A THREAT: "The Opposition human rights policy was attacked yesterday by the Chairman of the Human Rights & Equal Opportunities Commission."

- The Sun (Melbourne), November 21st.

Justice Marcus Einfeld thinks that the H.R.O.E.C. is a terrific set-up. Of course he does: he heads it.

We don't think so; it is a menace as long as it's there. Why? It is the governmental instrument to enforce all the Mickey Mouse "social" legislation which has come, and is coming on top of Australians via the United Nations Declarations and Conventions. Racial Discrimination/Status of Women/Affirmative Action/Heritage .. all this stuff has come from the United Nations, and legalised on top of the States via Australian High Court validation (soon to be even more politicised with a Fabian Socialist Government appointment of a judge to replace the retiring Sir Ronald Wilson, who voted for the States on the Koowarta (Racial Discrimination) and Franklin Dam (World Heritage listings) rulings.

We cannot agree with Mr. Justice Einfeld that the H.R.E.O.C. is a "unique, independent, body."

Its role is to implement United Nations "social" legislation, most of which, we assert, is freedom-eroding. It is imposed, forcibly, on the States by a legal trick.

There are United Nations Conventions down the track to curb what is termed "religious discrimination" (one religion is as good as another!); missionary work could be "unlawful". Again, "Rights of the Child" (children to be "freed" from oppressive parental control, etc.). All this is Satanic stuff; its obvious purpose to fragment our social structures in preparation for their remaking into a One-World Straight-jacket State.

The H.R.E.O.C. will be needed by the Enemy (the real Enemy) to force this poison down our necks.

JOHN HOWARD DOES A "TORVILL & DEAN": The Opposition Leader, Mr. Howard, has tried to take the heat out of his hard-line immigration stance, claiming it is neither anti-Asian nor a vote-grabbing ploy."

- The Sun (Melbourne), November 21.

We viewed John Howard's "performance" on immigration on weekend T.V. His interviewer was pressing him hard, and John Howard was skating all over the rink.

His interviewer was palpably not impressed; neither were we.

We warned at the time of Mr. Howard's "One Australia" launch a couple of months back, that his "immigration offensive" would only work if he could silence/eject his liberal wimps. Otherwise, we insisted, they would torpedo him. They did!

So, he's NOT a leader. A leader would have had their heads off. If John Howard ever becomes Prime Minister it will be accidental, or by default. Yes, these could happen. A severe world recession, well on the cards in our view, would send the HawKeating Fabians flying at the next federal elections. That means John Howard as Prime Minister, as there is no-one else who can do any better for the Liberals; and John Howard knows it. What a pathetic state of affairs!

A true, conservative, Opposition leader could have silenced his interviewers, as they pressed home their advantage as they smelled blood, by announcing a national referendum on Asian Immigration on the return of his Party to government. Finito!

Let the howling apes of the media confront the people's will. The Fabians KNOW that a national referendum on Asian Immigration would reject same by at least 80%, most probably, more. They'll never allow such a referendum. The Liberals know it also, but haven't the courage to seize the issue. The Liberal wimps are against it, ideologically. We recall that Mr. Macphee, when Minister of Immigration in the Fraser Government, stated that "it is my job to change public opinion", Is it, indeed? He may yet learn. The Citizens Initiated Referenda are just what these types of politicians need, before their extinction.

BASIC FUND: We are indebted to our vocal critics for an acceptable surge in financial support to the Basic Fund. If this keeps up we could see the Basic Fund filled by Christmas!

Since the last progress report on the Fund, supporters have donated \$5,392, thus taking the progressive total to \$41,453. A filled Basic Fund, and soon, is the correct answer to give to our critics at this time. They think they are driving people away from us (this is what they want to do!) The very reverse is what is happening; as usual.
