The Great Liberal/Left Death Wish By James Reed	1
The Angry Mexican By Charles Taylor	2
The Engineered Collapse of Venezuela By Chris Knight	3
The Drug of Sugar By Mrs Vera West	4

THOUGHT OF THE WEEK: “A nation can survive its fools, and even the ambitious. But it cannot survive treason from within. An enemy at the gates is less formidable, for he is known and carries his banner openly. But the traitor moves amongst those within the gate freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. For the traitor appears not a traitor; he speaks in accents familiar to his victims, and he wears their face and their arguments, he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation, he works secretly and unknown in the night to undermine the pillars of the city, he infects the body politic so that it can no longer resist. A murderer is less to fear.”

Marcus Tullius Cicero

THE GREAT LIBERAL/LEFT DEATH WISH By James Reed

A classic essay that should be re-read, from time to time, is ‘*The Great Liberal Death Wish*,’ by Christian journalist Malcolm Muggeridge (1903-1990). Muggeridge took a stand against the idolisation of the Soviet Union when the USSR was high on the pop charts of the decadent Left, and he lost his job for it. But he did not back down. Here is a typical hard hitting statement from him:

“So the final conclusion would surely be that whereas other civilizations have been brought down by attacks of barbarians from without, ours had the unique distinction of training its own destroyers at its own educational institutions, and then providing them with facilities for propagating their destructive ideology far and wide, all at the public expense. Thus did Western Man decide to abolish himself, creating his own boredom out of his own affluence, his own vulnerability out of his own strength, his own impotence out of his own erotomania, himself blowing the trumpet that brought the walls of his own city tumbling down, and having convinced himself that he was too numerous, labored with pill and scalpel and syringe to make himself fewer. Until at last, having educated himself into imbecility, and polluted and drugged himself into stupefaction, he keeled over--a weary, battered old brontosaurus--and became extinct.”

<http://www.orthodoxytoday.org/articles/MuggeridgeLiberal.php>

The situation has become much grimmer since Muggeridge wrote, so that Mike Adams is now predicting that if the Left win, or rather, keep on winning, then civilisation itself will be destroyed:

“The ideas of Leftists are rooted in such dangerous insanity that if liberals got what they are currently demanding, they would destroy human civilization. All of their key ideas are horrible failures. That’s because they’re rooted in delusional thinking rather than rationality and logic. The very fabric of modern human civilization would be torn apart if Leftists got the world they’re demanding. Sadly, they’re all too indoctrinated or insane to understand the consequences of their own demands, and that’s exactly why they must be defeated and stripped of power over the rest of us. Among their insane demands, you’ll find the following priorities:

- Abolish all border security, unleash an invasion wave of illegals to occupy and overthrow America.
- End the free market and seize all private businesses, creating a centrally-planned economy run entirely by the (incompetent) government.
- Close down all prisons, set all prisoners free across America, including violent murderers, rapists, child traffickers and more.
- Terminate all police, shut down police departments and let lawless chaos rule the streets of America, all in the name of “social justice.”

(continued on next page)

(continued from previous page) These ideas are, of course, utterly and completely insane. But, they now represent the dominant thinking of the Democrat party in America today, which no longer pretends to love America at all. In the latest episode of Counterthink, broadcast each Sunday at 6pm at InfoWars.com, I reveal a long list of details about why liberals are actually waging a war against human civilization. Voting against Democrats is no longer merely an exercise in politics; it's necessary to save our world

from the very kind of destruction that deranged Leftists have already unleashed in Venezuela, San Francisco, Chicago, Cuba, North Korea and the former Soviet Union, among other examples.”

The fall of the West will lead to China and other aggressors, moving in a mop up operation to invade and colonise what resources remain in the West, especially Australia. I doubt that any useful idiot Leftoids will be alive to see it, unless Hell has CVTV coverage of life after doomsday. ***

THE ANGRY MEXICAN By Charles Taylor

The following came in an email, unfortunately with no URL, but it is good, showing the great double standard that hot 'n' spicy Third World countries have regarding immigration, when the sandal is on the other foot:

“The State of Sonora is angry at the influx of Mexicans into Mexico ! The state legislators from the Mexican State of Sonora traveled to Tucson to complain about Arizona’s new employer crackdown on illegals from Mexico. It seems that many Mexican illegals are returning to their hometowns and the officials in the Sonora state government are ticked off. A delegation of nine state legislators from Sonora was in Tucson on Tuesday to state that Arizona ‘s new ‘Employer Sanctions Law’ will have a devastating effect on the Mexican state. At a news conference, the legislators said that Sonora, - Arizona’s southern neighbor - made up of mostly small towns - cannot handle the demand (for housing, jobs and schools) that it will face as Mexican workers return to their hometowns from the USA without jobs or money.

The Arizona law, which took effect Jan. 1st, punishes Arizona employers who knowingly hire individuals without valid legal documents to work in the United States. Penalties include suspension of, or loss of, their business license. The Mexican legislators are angry because their own citizens are returning to their hometowns, placing a burden on THEIR state government instead of ours.

‘How can Arizona pass a law like this?’ asked Mexican Rep Leticia Amparano-Gamez, who represents Nogales. ‘There is not one person living in Sonora who does not have a friend or relative working in Arizona ,’ she said, speaking in Spanish. ‘Mexico is not prepared for this, for the tremendous problems it will face as more and more Mexicans working in Arizona and who were sending money to their families, return to their hometowns in Sonora without jobs,’ she said ‘We are one family, socially and economically,’ she said of the people of Sonora and Arizona. Wrong! The United States is a sovereign nation, not a subsidiary of Mexico.

New Immigration Laws

(Be sure to read to the bottom or you will miss the message...)

1. There will be no special bilingual programs in the schools.
2. All ballots will be in this nation’s language.
3. All government business will be conducted in our language.
4. Non-residents will NOT have the right to vote no matter how long they are here.
5. Non-citizens will NEVER be able to hold political office.
6. Foreigners will not be a burden to the taxpayers. No welfare, no food stamps, no health care, or any other government assistance programs. Any who are a burden will be deported.
7. Foreigners can invest in this country, but it must be an amount at least equal to 40,000 times the daily minimum wage.
8. If foreigners come here and buy land, their options will be restricted. Certain parcels including waterfront property are reserved for citizens naturally born into this country.
9. Foreigners may have NO protests; NO demonstrations, NO waving of a foreign flag, no political organizing, NO bad-mouthing our president or his policies. These will lead to deportation.
10. If you do come to this country illegally, you will be actively hunted and, when caught, sent to jail until your deportation can be arranged. All assets will be taken from you.

Too strict.? The above laws are the current immigration laws of MEXICO.! If it’s good for American’s to obey Mexican laws, then it’s good vice versa.!!!”

The article is informative because it sets out the double standard, not only of these countries, but also of the crazed, fanatical immigration lobby within the West, who openly ignore all evidence contrary to their mass immigration. ***

Ed - an internet seacrh has found a similar article from 2010 here:

<http://www.renewamerica.com/columns/hale/101112>

THE ENGINEERED COLLAPSE OF VENEZUELA By Chris Knight

We have been covering the economic and social collapse of Venezuela, from socialist economics, which has led to events such as children fighting each other with machetes for the better garbage. Inflation is so bad that all one can buy for \$ 4 million, is a small block of land with a burnt down house on it. The inflation rate in Venezuela is set to reach one million percent, as the socialist government prints money as if there is no tomorrow, because there is not.

The big question is why would a once prosperous country elect officials who set out to commit economic suicide? We have a parallel problem in the West with

mass immigration, but that explanation does not cut any ice for the brown Venezuela. (Even entering Mexico may be difficult now –Ed)

This article does not explicitly answer this question, but it does say that the collapse is part of a planned social control mechanism. It is alleged that some of the worst prisoners have been let out of gaol by bribed officials, and are now preying upon locals, leading predatory gangs. However, the destruction of the Venezuelan oil industry will need to feature in any political economy explanation of the destruction of Venezuela. Who benefits from this? Should we play three guesses? ***

WATER ON THE MOON; NOW TELL US THAT THE MOON IS MADE OF CHEESE! By Brian Simpson

So, NASA is telling us now that water has been discovered on the moon. What has taken them so long to work this out? Such pools of ice water are relatively large in extent and surely should have been detected long before 2018. If I can find water in my fridge, then why can't NASA in all its magic have worked this out sooner?

There is a fascinating area of conspiracy concerning the 1969 alleged moon landing, and how this could have been faked. Personally I don't think so, as there, is, surprisingly enough (for usually the establishment ignores conspiracy theories, giving them even more edge), rebuttals of this. What I really like are physics bits about the uniqueness of the moon, even in the universe:

“New simulations show that Earth's moon is not only unique in the solar system, but may also be rare throughout the universe. Research reveals that less than 10 percent of terrestrial planets may have a satellite large enough to provide the stability life

needs to develop. Earth spins around its orbital axis, changing its angle toward the sun — its obliquity — by a little more than a degree over the course of thousands of years. These small differences are significant enough to cause the ebb and flow of ice ages.”

The science geeks are still fighting over hypotheses about how the moon formed. On the fringe of sanity is the notion that the moon is hollow and really is a space ship for aliens. The moon is supposed to ring like a bell when struck. What? Ring in the vacuum of space? What have the underground aliens have to say about this?

The (un)reality of science is poetically disappointing because since childhood I liked the romantic foody idea moon is made of green cheese.

But, does that imply that there will one day be giant cosmic rats coming to eat the moon? Oh, I forget, they are already here on Earth, eating away at society. ***

THE MANIA OF GLOBAL WARMING By James Reed

If readers need a concrete example of the way global warming has become a new cult among the chattering/singing class, simply consider the comments by singer Steve Wonder that global warming was responsible for the cancer that killed singer Aretha Franklin!

<https://www.breitbart.com/big-hollywood/2018/08/20/>

[stevie-wonder-blames-global-warming-for-aretha-franklins-cancer/](#)

“I just feel that all these various diseases that we have and all these things that are happening in the world in part is because there are those who don't believe in global warming, don't believe that what we do affects the world. What we eat affects the world.” Wonder said. “I just hope that people will grow up out of the foolishness and know that we all, by how we think, how we view, how we treat others, we will never unlock the key until we truly let go of the hatred, the

bigotry, the evilness, the selfishness. We do that and we can unlock some of those things that keep us in this place. If you read it closely, though, what Wonder said is even dumber than blaming disease on Global Warming. The truth is that he blamed the spread of cancer on those who don't believe in Global Warming. “I just feel that all these various diseases that we have and all that is happening in the world in part is because there are those who don't believe in global warming,” Stevie Wonder said. So the pro-science Wonder is telling the world that a lack of belief in Global Warming is what killed Aretha Franklin, is what gave her cancer.”

Thus, in the end, it is lack of faith in global warming, which is producing diseases. That is not science, nor religion, but basically magic. ***

THE DRUG OF SUGAR By Mrs Vera West

I have come to believe that sugar is a drug, something that alters human behaviour, perhaps as dangerous as alcohol, if you are listening James Reed. The evidence for this continues to grow:

<https://www.naturalnews.com/2018-08-18-devastating-effects-of-sugar-our-brains-rewards-center.html>

“Researchers unveil another alarming negative effect of eating too many foods high in fats and carbohydrates. In a study published in the journal *Cell Metabolism*, it was revealed that the reward center of the brain started to value and want more foods that contain high amounts of fat and carbohydrates, such as processed foods, than foods containing fat or carbs alone. This study supports the idea that such foods

take over the body’s innate signals in regulating food consumption. A team of researchers from Germany, Switzerland, and Canada observed that foods that contain both fats and carbohydrates appear to signal their potential caloric loads to the brain through distinct mechanisms. The study participants accurately estimated calories from fat but were very poor at estimating calories from carbohydrates.”

In other words, sugar creates the need for even more sugar and fat in a self-reinforcing feedback loop. Consequently, one needs to break the loop and move to healthy food, with healthy carbohydrates such as fruits, in moderation, and nutrient rich vegetables. In short, beware of all highly refined foods. ***

PRAISE GOD FOR “TOXIC MASCULINITY” By Mrs Vera West

The left, especially the feminist wing, enjoys demonising masculinity. For many academics in the Arts, it is their career, enabling them to get tax payer funded grants, and to write papers vilifying men, again on tax payers’ money, especially the men they vilify. This is known as digging one’s own grave.

<https://www.youtube.com/watch?v=U-kxdyJs6y8>

The above video by a pretty young lass puts the case that “toxic masculinity” is not solved by eliminating masculinity, but by producing better masculinity. Aggression and competition cannot be eradicated from men, without destroying them, and the quest for egalitarianism has led to numerous social problems, such as the flight of the father from homes, with children ultimately facing increased risks of depression and unemployment. The take home message is one dear to us, that we need more and better masculinity, not less. ***

LETTER TO THE EDITOR

To *The Australian* It is a step in the right direction for our five former and current Aboriginal and Torres Strait Islander social justice commissioners to have admitted that a national indigenous representative voice could be established without any change to the Constitution (“MPs told to get the job done on recognition”, 22/8). Perhaps such a voice should also be self-funded rather than propped up by all the rest of us through government grants. Advocacy of “some form of recognition of the special place” of our indigenous peoples must distinguish clearly between affirmation of their past culture and history, on the one hand, and, on the other hand, definition of the status of their presently living members who must first be loyal Australians, honouring Queen and flag, and not would-be separatists misusing “land rights”, ceremonial greetings at public occasions and an unnecessary and spurious flag.

Nigel Jackson, Belgrave, Vic ***

LETTER TO THE EDITOR

Pauline Hanson has called for Australians to be given a vote on our immigration intake. With good reason according to this story from the *Daily Mail* in the UK.

“Muslim Imam Shaikh Mohammad Tawhidi has warned that an independent state within Australia is the agenda of radicals, according to an upcoming interview on *Today Tonight*. The Muslim leader, who has openly spoken out against ISIS and extremists, is interviewed on Seven’s *Today Tonight* and claimed radicals would ‘create a country within your country’. The agenda is to create a country within your country, ‘Imam Tawhidi told *Today Tonight*.”

Perhaps the realities of living with a Moslem State within Australia might wake a few sleepy Aussies sufficiently to support her lone brave voice.

David Smith, Inverell, NSW ***
