Christianity is for 'The Now' By Arnis Luks	1
The Covid Con Game and End Game G. Edward Griffin :: extract	2
The Responsible Vote	3
Target	4

Thought For The Week: Matthew 7:13 Enter ye in at the narrow gate: for wide is the gate, and broad is the way that leadeth to destruction, and many there are who go in thereat. How narrow is the gate, and strait is the way that leadeth to life: and few there are that find it! Beware of false prophets, who come to you in the clothing of sheep, but inwardly they are ravening wolves. By their fruits you shall know them. Do men gather grapes of thorns, or figs of thistles? Even so every good tree bringeth forth good fruit, and the evil tree bringeth forth evil fruit. A good tree cannot bring forth evil fruit, neither can an evil tree bring forth good fruit. Every tree that bringeth not forth good fruit, shall be cut down, and shall be cast into the fire. Wherefore by their fruits you shall know them.

Not every one that saith to me, Lord, Lord, shall enter into the kingdom of heaven: but he that doth the will of my Father who is in heaven, he shall enter into the kingdom of heaven. Many will say to me in that day: Lord, Lord, have not we prophesied in thy name, and cast out devils in thy name, and done many miracles in thy name? And then will I profess unto them, I never knew you: depart from me, you that work iniquity.

Every one therefore that heareth these my words, and doth them, shall be likened to a wise man that built his house upon a rock, And the rain fell, and the floods came, and the winds blew, and they beat upon that house, and it fell not, for it was founded on a rock.

And every one that heareth these my words, and doth them not, shall be like a foolish man that built his house upon the sand, And the rain fell, and the floods came, and the winds blew, and they beat upon that house, and it fell, and great was the fall thereof.

CHRISTIANITY IS FOR 'THE NOW' By Arnis Luks

The greatest disservice anyone can do against Christianity is to insist this philosophy is for another time. As we move further and further away from things that actually work, we see the folly, the consequences of going in the wrong direction. "Christianity is for The Now", is an enormously practical declaration. We live (now) in a time of material abundance and yet psychologically and philosophically we are (now) in poverty, with the promise of a utopia in a future socialist state – always after a never ending dictatorship. The claim that "life is a vale of tears" is a denial of the abundance of The Now. The mainstream media (the fourth branch of government) is presenting false-christian views as Christian in order to confuse the public and those who may actually choose to do something about their living faith. The second coming of Jesus (not the Christ) is a most dangerous sect against Christianity, which places a pseudo-faith that relies on the man Jesus to do what is actually their own job - on earth as in heaven. "It is finished" means exactly what it says. The task required of the Christ has been completed by the Christ. It is now up to us to do the tasks set before us, to bring about God's kingdom on earth as in heaven. Christianity is not about any insurance policy for the future, or dispensationalism - the chosen people racket. 'Many are called but few are chosen', 'Few will find the narrow gate' are dire warnings against sitting on our laurels during The Now. If Christianity is anything at all, it is about doing, incarnating our faith by works - today, in The Now. We cannot be judged by what we might have done in the future, only what we have done in The Now.

Know them by their fruits

In 2015, our conservative liberal Prime Minister Tony Abbott in conjunction with the Social Services Minister Scott Morrison announced financial penalties against families with the 'No Jab no pay, No jab no play' policy against our young mums protecting their young charges against medical experiments.

The reduction and limiting of support-payments was further extended in 2017 and further again in 2018.

By their 'fruits' they are of the very devil. This demonstration of 'conditional benefits' is proof positive, that government and the bureaucracy cannot be trusted with too much power. ***What authority has God ordained for them to administer chemicals into the body of infants or anyone else?***

Today we see the same claim and photo-opp of some type of 'faith' from our politicians, and yet 'their fruit' is an attempt to bring about a communist world slave state.

After Son Takes His Own Life, Father Warns Against Extended Pandemic Lockdowns

https://www.theepochtimes.com/after-son-takes-his-own-life-father-warns-against-extended-pandemic-lockdowns-2_3781907.html

Many issues of *On Target* have referred to the 'Canon' - the divine law - that 'all' are subject to "including governments". Historically the church has given dire warnings towards the over-reaching of government as going against this Divine Law. As was then, so it is now, governments are overreaching their "terms of reference" within our Constitution. Public service means exactly what the words say, "service"; not tyranny. Medical choices are exactly that - choices.

Every person makes many choices every day, of which the ramifications can have adverse effects. It is from a basis of the intrinsic and unique value of every individual, that government, bureaucracy and every other institution achieves legitimacy. The local sports club justifies itself on serving the betterment of every member. Each participant in the club maintains the right to atrophy the club if it loses its legitimacy. So it must be with government and bureaucracy. We must find another mechanism to limit the power of government and hold those who institute bad policy accountable, who now see fit to represent only the financial interests of the pharmaceutical cartel above their own people.

A policy rooted in reality would remove this power from government which imposes these conditions over

child payments. The Douglas Social Credit proposal of the unconditional National Dividend would be apart from government, based on an abundant inheritance, freely given from providence - equally distributed to all.

The Covid Con Game and End Game G. E. Griffin

extract: Dr. Lee Merritt, an Orthopedic Surgeon in Onawa, Iowa, is interviewed by Jeff Dornik and delivers an amazingly comprehensive overview of the motives behind the Covid-pandemic theatre. First, she shows that there is no real pandemic and that the public-health practices being mandated are scientifically absurd. Then she reasons that, if obscene profits were the only motive for this crime, it would not be necessary to put so many exotic and toxic components into the vaccines. A simpler product could be sold at the same price with a greater profit margin. Therefore, there must be some additional purpose for the vaccines. She makes a compelling case that the end game is nothing less than human enslavement and massive depopulation – both of which are long-held ideals of those who direct the pharmaceutical cartel. *(end extract)*

The fourth branch of government - mainstream media, consistently presents and endorses the case for world government - the view of their money masters. Last year Victoria maintained extended COVID19 lockdowns on the pretext of rising case numbers, and yet the National Cabinet plans to re-open flights to and from India on May 15th, two weeks after a massive propaganda campaign depicting absolute carnage - bodies in the streets, mass burning of bodies (*normal practice in India*), statistics, statistics, statistics. The inconsistency is deliberate to confuse the public - 75,000 allowed at the MCG (partly enclosed environment) with only 5,000 (fully open environment) allowed at the ANZAC march.

Government intrusion into the medical sphere had its roots with sodium-fluoride addition to the water supply. Mass medication with a developmental-neurotoxin, with equal dosage to all – sickly infants and adults alike. A policy rooted in freedom would place the onus of medical treatment choices firmly at the foot of each individual to make their own, including none at all.

High risk patients under threat from COVID or anything else, could be isolated while everyone went about their normal business. Sweden did exactly that last year and had no significant change to morbidity rates – another glaring inconsistency to confuse the public. The Douglas Social Credit proposal is one of freedom of choice - to choose or refuse one thing at a time, including medical choices and freedom of movement.

MSM Censorship

Economic comment about the massive explosion of irredeemable-debt hardly achieves a mention from the guardians of mis-information the MSM.

There is no questioning of the creation of credit from

thin air, nor the hugely contracting taxation base by the closure of all principal industries within Australia decimating the wages earned. The silence on these issues is deafening.

The *locus standi* (the right or capacity to bring an action or to appear in a court) through investigative journalism and pursuit and representation of the truth has been surrendered. All alternatives to the woke propaganda and censorship by the MSM must be initiated and maintained. The internet and ongoing re-education are realistic and viable alternatives. The Douglas Social Credit proposals for self-education are available in different formats for the willing student on our website alor.org. Expert and qualified tutors are at your service awaiting expressions of interest. We are a part of the expanding alternative sources of news-dissemination and information.

The Responsible Vote

The Canadian taxpayer, unwillingly now sponsors the main stream media, as we do with our public broadcaster. The Australian taxpayer, unwillingly sponsors political parties by 'voter payments' – (introduced in 1984 @ 61c, is now 282.9c per vote).

The Political Parties have also opened up an entirely new trough of payments referred to as “Election Funding” directed to the administration of each Political Party. A never-ending supply of funds from the gravy-train-taxpayer - *Electoral Legislation Amendment (Electoral Funding and Disclosure Reform) Act 2018*, which came into effect on 1 January 2019. This payment further disenfranchises independents and minor parties.

The Australian Council of Trades Unions and the union movement have historically directed some union funds towards the Australian Labor Party. Reports are surfacing that less than 50% of active union members support the Australian Labor Party with their primary vote. The garnishing of funds, from unwilling participants reinforces the need to review our current constitutional and political arrangements.

The Douglas Social Credit proposal is for a Responsible Vote. The identified voter must clearly indicate their selections of political programmes. The Political Party must place their 'fully costed programme' before the electorate prior to the vote. The voter who endorses a program is more liable to supply the source of funds required to execute the policy. The secret vote would be done away with, no longer obscuring those voters from their personal responsibility, nor political parties from achieving their electoral programmes.

Education

Education, as part of our cultural history, has moved from a desirable platform of personal development, to institutions of indoctrination, filtering down from universities to now primary and pre-schools. After reading Sir Henry Parkes oration to the 1893 Corowa Conference for Federation, I find the justification for sending our progeny to the current education

institutions wanting. My three boys were removed from public school and home educated for eight years. Upon returning to the public education system prior to university entrance I found all were several years in front of their chronological peers. Reading about parents removing students from Tertiary institutions to pursue a trade shows good sense. Trades by their very nature are not abstract but based on the real world - that which works best. My ongoing education with bees is based on observable fact and also those things which work best. Interestingly, amongst Apiarists (bee-keepers) there are as many methods as there are practitioners. I work closely with my brother and we have different ways of managing our own bees. Both equally valid. Under a communist planned society, this variability would not be tolerated and yet in our still somewhat free society works just fine. Managing the bees is a pleasure. Self-education for me occurs every day and never ends.

The Douglas Social Credit proposal for education could be for each family to be allocated a voucher for every school age child, from which they may endorse or atrophy a particular school with its proposed curriculum. The education funds would be allocated equally with each voucher, for the direction by that family, including home-schooling. The *locus standi* for any educational facility is to pursue excellence, not indoctrination. [The Corowa Conference](#) was a political meeting held in the New South Wales border town of Corowa in 1893 to develop a plan for the proposed federation of the Australian colonies. Sir Henry Parkes address to this conference is available here:

https://alor.org/Storage/Library/PDF/Parkes_H-Corowa_Appendix_A.pdf

Sir Henry Parkes' Corowa oration would find him, even as the Premier of New South Wales and a founding father of the nation, standing before the 'commicars' of woke. Human Rights tribunals would be in hyperdrive pulling his rudimentary words (about our founding Christian faith, our real history of colonising, establishment under Constitutionalism and Common Law, early hardship, hunger and struggle, and the development of our unique Australian culture), back across the line of political correctness. This tyranny of woke is occurring under conservative liberal governments. Don't be mistaken by believing they value the same things that you value.

We are being led to communism by the 'high road of the few' under our conservative liberal leadership, and by the low road of the many (masses) by cultural Marxism – liberal and labor with the elites and bureaucracy are all aligned towards communism.

The Douglas Social Credit proposal is a Voter's Veto. A political mechanism whereby unacceptable legislation and outcomes can be forced to referenda to be annulled by an informed and active electorate.

Freedom with Responsibility can only ever exist in a Moral environment.

Proposed hate laws 'attack on freedom'

<https://www.theaustralian.com.au/nation/proposed-hate-laws-attack-on-freedom/news-story/b931204abd779bf46b745602ab6200cd>

Critics of proposed changes to Victoria's anti-vilification laws have warned they could give the state government unfettered powers to censor free speech and risk radicalising schools, police and courts with "extreme anti-Australian ideology".

The Douglas Social Credit proposal to counter 'attacks against freedom of speech' could be Citizen's Initiative, Referenda and Recall. Politicians and bureaucrats alike, seeking further to expand their already considerable power base could be recalled, over-ruled and expunged from the parliament or bureaucracy. This correctly places political power at the feet of each and every individual, to be exercised when and as necessary.

China's Digital Yuan Will Not Topple the Dollar, Securities and Exchange Commission Official Says

...The world's biggest central banks, including the People's Bank of China and U.S. Federal Reserve, are stepping up work on issuing digital cash, eyeing improvements to payment systems and looking to preempt the rise of cryptocurrencies. The People's Bank Of China's work on a digital yuan—part of a push to internationalize the currency—is far ahead of similar initiatives in other major economies...

https://www.theepochtimes.com/chinas-digital-yuan-will-not-topple-the-dollar-sec-official-says_3796408.html

<https://www.weforum.org/agenda/2020/07/to-build-back-better-we-must-reinvent-capitalism-heres-how/>

The purpose and function of the proposed digital currency is for monitoring, being directly linked to each individual and their spending habits based on a carbon currency, with an expiry date - use it or lose it. The communist Chinese, in collaboration with big technology from the west, have developed the surveillance state, with digital currency to monitor and assess everyone on the planet. A system of rewards and punishment could be equally labelled Puritanism or Communism.

The Douglas Social Credit proposal of the National Dividend and Consumer Price Discount are an inheritance from providence – the cultural wealth from the past and the natural abundance from the earth. How and when it is used is entirely up to each individual. The state in this area (as a 'mechanism of oppression') is to be

disassembled and atrophied.

The National Credit Authority issuing the National Dividend would create the funds 'debt free', thus eliminating private banker's considerable hold over our government. These Douglas Social Credit proposals have been discussed and refined over the past 100+ years, and are a very good platform for any aspiring independent political candidate. A springboard towards freedom.

TARGET

Resigning MP George Christensen has called to scrutinise the '99 year lease' of the Port of Darwin, with a website 'petition'. He appears to be a lone voice crying from the wilderness, while his political party colleagues tear our nation apart. His newsletters and petition are available here: <https://www.georgechristensen.com.au/nation-first>
You may wish to send a congratulatory note to George.

Views expressed by George appear to be in stark contrast to the results (fruits) of his political party. Current news items depict a 're-consideration' of the Port of Darwin lease by the conservative liberals "if they are voted back in". Political blackmail no less during the preliminary jostling for the next federal election.

Bipartisan policy was to colonise Australia through our university-migration and family-reunion programs, further endorsed and supported by the lucrative housing industry. With such conflicting considerations it is impossible to make a valued judgement in favour of any political party. Pauline Hanson looks like being 'targeted' for the final senate seat in Queensland.

As we move closer to the federal election, at best you must assess the worth and character of every single candidate, or we will end up communised by their party machine.

Treachery is not limited to one brand of politics, but is prevalent across the whole body politic including the upper levels of our bureaucracy and learning institutions.

I believe there is zero chance of redemption through political parties and will continue to advocate, if you have confidence in any particular political candidate, is to encourage them to resign from their political party and run as an independent in order to effectively represent (the custodians of every political seat), the electorate.
