Calls For A National Unity Cabinet (Government)	3
Where Is The Education Curriculum Taking Us? By Ken Grundy	4

**Thought For The Week:** *The treasurer Josh Frydenberg had just walked away from a press conference in Melbourne (where he triumphantly crowed unemployment had just fallen to a 10-year low) when he looked down at a text message on his phone from PM Scott Morrison. Frydenberg exclaimed in shock to his advisers:*

**“Message from Scott. He’s spoken to Dan (Andrews). Lockdown confirmed.”**

<https://www.theaustralian.com.au/business/media/annastacia-palaszczuk-wins-gold-medal-for-dodging-media-scrutiny/news-story/90060c3050ac7492c14b38de5ae71885>

## THEY DENY WITH THEIR MOUTHS WHAT THEY ARE DOING WITH THEIR HANDS By Arnis Luks

The secret virus surveys by Daniel Andrews’ spin doctor John Armitage

<https://www.theaustralian.com.au/nation/the-secret-virus-surveys-by-daniel-andrews-spin-doctor-john-armitage/news-story/688fd26fc89f113353cfabf6027dd488>

Unlike Victorian Premier Daniel Andrews, who uses only one dominant PR firm to psychologically shape most of his messages for public consumption, our Prime Minister now has six press secretaries. Josh Frydenberg has four. Communications Minister Paul Fletcher has three media advisers. Foreign affairs Minister Marise Payne has two, while in-demand Health Minister Greg Hunt has a team of three. The spin is now flowing at warp speed. I sense a degree of panic in the political-air as the totalitarian ‘surveillance state’ is further rolled out.

### Cognitive Dissonance

A young mum happened to be across the table yesterday afternoon discussing homework. She had a question in regard to phonics. We utilised ‘*Spalding Phonics – The Writing Road To Reading*’, through 7 years of home schooling to ensure a consistent approach of hearing, reading, writing and speaking; all these senses utilised simultaneously to reinforce the learning process of our children. This mum’s young twin charges are in grade one. The homework sent for the mum to supervise was in a fashion that was not only obscure, but deliberately confusing. The historical method of training any young children is to gradually introduce concepts into their thinking, one small step at a time, and build up from a solid foundation. In this instance of homework, I noted the extracurricular activities for home were in a fashion that was both unnecessary and confusing even for the adult.

The English language is generally phonetically consistent. Specialist phonic learning centres like ‘*Spalding Education*’ <https://www.spaldingeducation.org/> can readily bridge the gap of skills needed for a parent who may find themselves in a home teaching environment. The homework presented for this young mum had some phonetically consistent examples to learn, and then, injected amongst these were phonetically inconsistent examples. For a five-year-old to even begin to fathom what was being done to them is impossible. But for an alert adult there is a clear pattern of cognitive dissonance to disrupt the child's learning process.

The principal sounds for the letter ‘a’ being - apple, bake, bath. Using these three phonetic sounds of the letter ‘a’ in an environment of consistency causes cognitive resonance within the young mind. Little building blocks of thinking and consistent examples to reinforce those thoughts. Subtle vagaries of the three ‘a’ sounds can be introduced at a later stage of intellectual development. To introduce the word ‘says’ as an example for the letter ‘a’, is to inject dissonance into the mix of learning process. The sound is an ‘e’ sound, which very few words in English utilise for the letter ‘a’. ‘Look say’ for this word ‘says’ may be a better approach when the child is ready. To reinforce phonetic learning there are also rules to introduce in baby steps, - surprisingly few by the way.

This homework curricula is specifically designed to confuse both the parent and child, because the inconsistency is something that needs to be considered in future years after a solid grounding in the phonic approach to learning the English language - hearing, writing, reading and speaking. I consider this dissonant method of indoctrination a deliberate abuse of our children, and unnecessary churn for a busy parent trying to juggle marriage, family, work and careful instruction of her twin young charges.

## Cognitive Dissonance in the Community

This illustration of dissonance is repeated again and again through every avenue of intellectual influence, not only upon children, but the young and adults alike. The Covid lockdown as a supposed method to contain the mystery virus was consistent for almost all the world, except Sweden as the example for dissonance. This caused unnecessary churn in all those countries which were psychologically manipulated to take the lockdown path - dissonance. mRNA injections, and Ivermectin and hydroxychloroquine as alternative treatments for Covid, are other examples of these opposing points of view causing dissonance. The public are deliberately left confused and also deliberately polarised.

## Dissonance in Politics

The most apparent example is in the political realm, of which I have said many times that: the so-called conservative Liberals / Nationals are delivering centralist legislation - the agenda being at home with the left side of politics, even pro-communist. They are the ones who initiate unpopular legislation that would be readily accepted by the left side of politics. This causes the right side of politics to fragment into polarised groups, split in two, with those rusted-on supporters, and then others who see the changed policy direction and are prepared to counter this. This divide and conquer technique has been perfected across millennia. Remember the magi who came to worship the newborn Christ. They were the early custodians of this psychological tool - magic.

A couple more examples readily spring to mind. The appointment of Ita Buttrose to the ABC board could have reorientated the political bias of this Billion-dollar factory of propaganda, but it did not under Morrison's watch. And now the appointment of the CEO of the Australian Energy Market Operator who is clearly aligned with the green left - AEMO board being 60% government controlled. This will further exacerbate the precarious standing of our east-Australian energy resources at the same time as our supply chains are being 'compromised' by activist left-orientated unions.

The conflicting message coming from the conservatives is further muddled by Barnaby Joyce's comments about 'net zero emissions' at the time of the appointment of the CEO to AEMO, who is hired by this government and immediately declares 'net zero emissions' as 'his' target.

Chances of supporting net zero are net zero :

<https://www.afr.com/politics/federal/chances-of-supporting-net-zero-are-net-zero-barnaby-joyce-20210716-p58a9r>

The conservatives are actually doing everything they can to collapse our economy – ***‘they deny with their mouths what they are doing with their hands’***.

**A thought injection here:** the Transport Workers Union is preparing for industrial action at the same time as the eastern seaboard is in the middle of a hard lockdown. Supply chains are also being threatened with collapse - ransom-ware as 'intimated' by the World Economic

Forum, also the chair of the Federal Reserve of US and the BIS Bank of International Settlements only last week.

What scares Powell most is not inflation or China  
<https://www.afr.com/policy/economy/what-scares-powell-most-is-not-inflation-or-china-20210716-p58a90>

*Asked on Thursday (Friday AEST) by Democrat senator Jon Ossoff at Mr Powell's semi-annual testimony before Congress what he thought was the "most significant systemic threat to financial stability in the US or globally", (chairman of the Federal Reserve System of the United States) Mr Powell's answer was immediate. "I'd have to say that the thing that worries me the most is really cyber risk," Mr Powell said. "We haven't had to face a significant cyber event from a financial stability standpoint, and I hope we don't, but that's the thing I worry the most about.*

## Cognitive Dissonance From Both Sides of Politics

The political left-aligned opposition is just as readily identifiable in this realm of cognitive dissonance. The *Lima Declaration* was never opposed or resisted even though most of the jobs within Australian heavy industry were progressively transferred to overseas robots and third world nations. Australian jobs of any real depth have been exported for the past 45+ years and yet the unions have remained disturbingly silent during this entire period. Privatisation of public assets, Labor-rationalisation and Enterprise Bargaining Laws (Prices and Incomes Accord in 1991) which eroded "award conditions", were all introduced by the political left under Hawke and Keating, to be exploited by the monopolists. Keating also introduced the National Superannuation Levy, in spite of the fact that the Federational Labor Government of 1901 campaigned on the 'old age pension' and introduced Federal Income Taxation as a war measure 1915. Both Bob Hawke and Paul Keating did the heavy lifting for the monopolists rather than their base - workers. Kevin Rudd and Julia Gillard introduced the NBN with smart meters to ensure the surveillance state had all the necessary infrastructure in place to monitor inside your homes day or night.

[https://en.wikipedia.org/wiki/Hawke%E2%80%93Keating\\_Government](https://en.wikipedia.org/wiki/Hawke%E2%80%93Keating_Government)

### ***Hawke%E2%80%93Keating\_Government***

Labor-left is full of lawyers and 'nary a' traditional blue-collar worker to be seen. By labor-left introducing unpopular laws to advance the monopolist, the right of politics are in ready agreement being neo-liberal, so the political left flounders; divided between those rusted-on and those who can see through the humbug to where political policy is really being taken.

Any clear path out of this chaos is deliberately withheld by all sources of supposedly-reliable information – the MSM, natural leadership and organised religion. Any discussion about possible solutions is always for 'more' government interference and intrusion into the lives of everyone. Never any discussion about less government or restoration of our ancient rights and freedoms.

This psychological tool of cognitive dissonance is readily utilised to ensure people are left confused; the revolution then having fertile ground in which to take hold. These many spin doctors employed by our governments, experts in this spin-craft of cognitive dissonance, are constantly polling and adjusting the different 'thought injections' to nudge the crowds towards their objectives.

National cabinet 'a dog's breakfast': Abbott  
<https://www.theaustralian.com.au/nation/politics/national-cabinet-adogs-breakfast-abbott/news-story/8f778ac026559321eebf428a550c66de>

### **Calls For A National Unity Cabinet (Government)**

Former PM Tony Abbott and Opposition leader Anthony Albanese are both building on from Peta Credlin's recent call for greater government interference.

In a critique of the unaccountability of the unconstitutional National Cabinet, there is now the call for the opposition leaders to also be present within this 'National Cabinet'. This 'national unity arrangement' outside of our parliaments does away with any sense of differing political points of view and is similar to the Soviet Communist Politburo structure. Our Parliaments are being done away with, no historical Hansard record of proceedings, meetings essentially in private, and only 'inconsistent' promulgations from these unified-totalitarians to be released for the masses consumption.

800 years of constitutional development with our ancient rights and freedoms; all done away with in 18 months of Covid hysteria by these people who commit treachery against the nation of Australia. Are we really in such a dire-emergency, or is this unified (from all sides of politics) Covid propaganda simply to bring about the world communist slave state? – *“they deny with their mouths what they are doing with their hands”*.

### **Closer To The Truth**

In the flurry of this manipulated confusion we need to take a step away and back from the political abyss of totalitarianism to ponder what our ancients did before us.

King John was pulled back into line by the Barons at Runnymede. Do we have those Barons today? I think not, but do not despair. Our tools are made in heaven and will not fail. Truth will set you free. All 'they' do is lie.

This ship of totalitarianism leaks like a sieve. While we still have time the social media platform algorithms of artificial intelligence do not function as does the human spirit humbly relying on the blessings of Almighty God.

Every day the alignment of all major political parties becomes more apparent for which none can be trusted one iota. The platitudes coming from politicians (based on the latest polling) can't fool all of the people all of the time. We need to recognise that they cannot be relied on to help us. They actively conspire together against us.

*“Message from Scott. He’s spoken to Dan (Andrews). Lockdown confirmed.”*

Small groups of no more than 6 people can inject 'true but disruptive' thoughts into the body politic about our

'hard fought for' ancient rights and freedoms being done away with under this Covid cloud of propaganda and lies. That message alone is most important to start with.

The lockdown, masks, QR codes, testing and injection acceptance are all to develop an obedient and compliant population. The counter to this is to use your 'individual initiative' to disrupt and break the spell of compliance. To inject 'true thoughts' into the non-stop psychological manipulation by the spin doctors. To show the truth of every statement at each turn of 'their' lying worm.

26,000 less Australians died last year under Covid medical-martial-law than the year before. Just living normal lives perhaps causes 26,000 more Australians to die every year. **Life is a risk worth living for ...**

### **Disruption to Supply Chains**

The planned disruption and collapse of our supply chains needs to be advertised as coming sooner rather than later. The evidence of conspiracy and collusion from the IMF down to the concerned worker's unions needs to be shown as part of 'their' strategy. Equally important is the need to stock up for the long haul - a year's supply is not ridiculous in these rapidly emerging circumstances.

### **Unions Calling For Covid Injections For All Members**

National Secretaries of the Nursing & Midwifery Federation and also the Transport Workers Union, are both calling for vaccination compliance amongst their members. No question of freedom of Medical Choice, nor informed consent prior to an experimental procedure.

Both union secretaries are doing away with their member's ancient rights and freedoms, and exasperate the compounding psychological narrative as espoused by the politically aligned MSM, education and entertainment. They, as representative organisations, are both doing their part skilfully to further bring about the communist world slave state - the Great Reset under centralised direction by the IMF, WEF and Bank of International Settlements.

### Concerns Surround IMF Plan to Flood World With Liquidity

[https://www.theepochtimes.com/concerns-surround-imf-plan-to-flood-world-with-liquidity\\_3899453.html](https://www.theepochtimes.com/concerns-surround-imf-plan-to-flood-world-with-liquidity_3899453.html)

*...Ostensibly aimed at making the world more “green” and “sustainable,” the shift would require a much larger role for the public sector at the national and international level while moving the world away from what remains of the free-market system. Widespread proliferation of new technologies associated with the “Fourth Industrial Revolution” are a critical component of the effort, too. A restructuring of the international monetary system led by the IMF on the way to the globalization of currency—with the looming SDR (special drawing rights) issuance as a major step—is likely to play a key role in the global reset...*

## Ceding World Financial Powers to Communist China

<https://www.thegatewaypundit.com/2021/06/breaking-exclusive-opportunists-us-cede-china-crypto-currency-like-biowarfare-technology/>

Piecing together various articles in regard to the development of CBDC (central bank digital currency) as the proposed world government's virtual carbon-currency the important point to note is the ceding of administration for this method of payment over to China as part of the world totalitarian surveillance state. The current USA administration is deliberately promoting this outcome.

Their dialectic is a ruse of monumental proportions, even to the point of a possible World War III to usher in the 'Great Reset' to a spiritually exhausted world that has lost its guiding faith. At this level of, not only biological, but also the potential of nuclear holocaust, we need to take a step back and away from this abyss for a moment of deep reflection. Are these the only possibilities on the table - World government or nuclear holocaust? Or, are we to look for that guiding star that lead the shepherds and the magi to that wonder of the manger in Bethlehem? *"Again the devil took him up into a very high mountain, and shewed him all the kingdoms of the world, and the glory of them. And said to him: All these will I give thee, if falling down thou wilt adore me. Then Jesus saith to him: Begone, Satan: for it is written, The Lord thy God shalt thou adore, and him only shalt thou serve."*

### WHERE IS THE EDUCATION CURRICULUM TAKING US?

*"The philosophy of the school room in one generation will be the philosophy of the government in the next."*

Abraham Lincoln could not have put it in a better way! The National Curriculum has been prepared by the "Australian Curriculum Assessment report Authority" (ACARA) and is intended to form the basis of what and how education is delivered from 2022.

Three main ideologically driven areas to cleverly penetrate most subjects are: 'Aboriginal and Torres Strait culture'; 'Sustainability' and 'Asia and Australia's engagement in Asia'. Traces of these topics will appear in English, Mathematics, Science, Technology, Human Society and its Environment. The problem is not so much the subject titles but rather the spin applied.

Dr Bella d' Abrera is among critics of the proposal and has written in the *Daily Telegraph* on several occasions. On (May 6 2021) she wrote that the proposed curriculum would deliver a dumbing down of Mathematics and the whole of the English language. She claimed there is no shred of evidence to suggest the new proposal was superior. No remedial plans are evident to correct the lack of knowledge regarding civics and citizenship. The agenda is driven from the 'left'.

On another occasion, she wrote, "Unfortunately we shouldn't be surprised that in one stroke of the pen the authors of the National Curriculum have wiped out Australia's Christian heritage .... as if it never existed.

Sustainability is an encouraging title which could

hardly be an undesirable aim for anyone. That is until the detail is provided. Places of learning and most of the mainstream media favour the left wing aspect of 'sustainability'.

Climate change is a classic case in hand. Of course the climate is changing. It has done so since the beginning of time but most educational information blames human activity for the change. Professor Ian Plimer has challenged any science to confirm where human activity can be blamed. His challenge remains unanswered. Considering climate changes occurred well before industrialisation and the burning of fossil fuel, it is difficult to blame humans but this escapes the curriculum as does the benefits of carbon.

### TIME FOR ACTION

Actionists are urged to use this article, or if more information is required, the best source would be from Dr Bella d' Abrera <https://ipa.org.au> Contact your MP's including Senators. In particular the Minister for Education and Youth, The Hon Alan Tudge at Parliament House, Canberra. ACT 2600 needs to receive your call or letter. It is reported that his committee is likely to respond favourably to submissions. **Get others involved:** Parents and grandparents with a connection to private schools are recommended to contact Principals to encourage their resistance to these proposals. They are more likely to take up the matter than public schools.

Education is really a State matter but here is an example where the Federal has influential power. Any school not obeying the National Curriculum will not receive federal funding.

The quote from Abraham Lincoln is so appropriate; it should be mentioned in your correspondence.

As an aside, while we are considering the curriculum for the future government (and society) to which Lincoln refers; we could consider why we have a proposed National Curriculum prepared in such a style. Perhaps the answer is found in the curriculum operating 25 years ago and its influence on those in administration today. Now is the time for actionists to grab the steering wheel and head in the right direction. -- *Nat Dir*
