Thought For The Week: A 'Problem' correctly stated is already half solved - CH Douglas

• A full Constitutional Review through a series of open public conventions attended by popularly elected representatives. Originating at the local government level, then the state and working through to conclusion at the federal level. - *'The Keys to Unlocking Democracy'*

To Petition—or to Demand ? In answer to a question about a Petition to the King, Major Douglas said:—

I think the question may be put thus: Is the petition method—if a petition is so framed as to ask for the reference to the High Court of Justice of whether or not the present financial system is in the interests of the nation, and if it gets 10,000,000 signatures to it—is that an effective way of getting the financial system changed? The questioner interpolated that the second form of the Petition to the King had been drafted by lawyers in such a way that the duty was laid on the High Court of Justice to determine for the guidance of the Government whether or not certain things were in accordance with public policy. There are two things involved.

We will let go the idea for the moment that there does exist in this country machinery by which the people can exercise their will, that this is the machinery which should be employed, and that to use other machinery is obviously to bring upon yourself the suggestion that you do not believe the constitutional machinery for the purpose of exercising your will can be made to work. If that is so, then the first thing to do is completely to abolish Parliament.

I want to get this clear. Your ancestors and mine fought a series of bloody battles in various parts of this island for the purpose of obtaining political democracy. They set in operation a mechanism. Now, I am perfectly confident that the working of that mechanism at the present time is perverted, but I am also perfectly confident that it is not necessarily ineffective for our purpose, and it seems to me that to abandon without endeavouring to rectify the working of the mechanism which has been obtained by us amid blood and tears, is a very dangerous thing to do. I am also perfectly certain, incidentally, that it is the set purpose of the financial powers to discredit Parliamentary Government in order that they may say, “See what comes of the interference of Governments in business,” and so on. That is the first comment I want to make on the situation.

Let us come to the next proposition. It is said that it is impossible to win a case against an Urban District Council. I do not know whether this is true or not, but it is commonly said so. Now a petition to examine and rectify the financial system asks, first of all, that somebody shall prepare a case to go before the High Court of Justice, and then that the judges who try that case should make the most stupendous pronouncement on their own responsibility against the most stupendous power that the world has ever known. (I am assuming it to be a fact that if you have 10,000,000 signatures you can get your petition to the High Court of Justice.)

At this point I will express my own opinion that, first of all, the case would not get to the High Court of Justice in its original form, or, if it did, it would be thrown out on some technicality. If, however, it did arrive there, the matter would be involved in interminably long legal processes in which its sponsors would have the source of all money against them (and therefore questions of cost would not come in at all), and that the whole matter would either be buried or transformed. As a method of getting a basis for action I am confident a petition would be absolutely futile. In brief I do not believe that the High Court of Justice is the right place to get a statement on a question of this sort, and even if it were, the question would never get to it, or be decided in any form which would lead to a radical modification of the monetary system.

Approach to Reality By CH Douglas <https://alor.org/Storage/Library/PDF/Douglas%20CH%20-%20Approach%20to%20Reality.pdf>

FALSE HOPE FROM A FALSE NARRATIVE By Arnis Luks

This morning the Hong Kong-listed China Evergrande (3 years ago the most valuable real estate group in the world) failed to make payment and has requested a 30-day extension. China Evergrande is the world's most indebted property developer, owing more than \$US300 billion (AU\$403 billion). China holds vacant accommodation sufficient to house 90 Million people.

Like the Chinese Wuhan virus that infected the whole world, this indebted real estate behemoth may be the catalyst for a repeat performance of the 2008 Global Financial Crisis similar to the toxic loans guaranteed by major USA banks. Under Obama those institutions were 'too big to fail' and so their debts were transferred across to the taxpaying public or forgiven entirely. Private individual debt was not forgiven, so millions went into insolvency and bankruptcy. Foreclosure property was picked up for next to nothing.

The next financial collapse will be directed towards 'doing away with all national currencies' while simultaneously 'ushering in' Central Bank Digital Currency CBDC as Special Drawing Rights issued from the central bank of central banks: Bank of International Settlements (IMF/World Bank). This strategy, (an entirely man-controlled phenomena), to financially cripple the world to usher in this central bank currency, would financially and politically control the entire world. CH Douglas foresaw the 'end run' for power over the whole world (by those who manipulate and control the financial system), warning some 100 years ago.

Covid lockdowns across the eastern states is accelerating Australia's own economic collapse. News items referring to some type of economic recovery for Australia are misleading if not outright mis-information. More and more businesses are closing down with increasing shops shuttered. The housing bubble in China collapsing could be the follow-on consequence of the shutdown/lockup of the West under covid tyranny.

As a snapshot of our home spending habits, only basic necessities have been purchased for the previous nearly two years. More energy has been directed towards the garden and other fundamental food-security necessities. Confidence amongst us in the existing financial/economic system to maintain momentum is receding daily. MSM informs that any chance of an economic return to 'previous normal' is conditional on mRNA injection compliance rates – medical / economic blackmail. Our household and those in our immediate contact are not at all confident of any *bona fide* over this claim.

This week's Fair Work Commission's 'majority' findings against a New South Wales aged care 'receptionist' have thrown 900 years of ancient freedoms and rights into the political dustbin. Our Constitution has also been driven over by this commiCzar bus. Magna Carta 1215 compelled the highest political

authority in the land to respect and observe the individual's ancient rights and freedoms. These ancient rights were previously recorded within the Coronation Charter 1100AD.

A similar argument is held in the NSW Supreme Court : [Mandatory mRNA injection rules breach rights to bodily freedom, work, court hears](#)

<https://www.smh.com.au/national/nsw/expert-asked-about-vitamin-c-zinc-during-court-challenge-to-covid-19-vaccine-mandate-20210930-p58w09.html>

Bodily autonomy is the most fundamental human right a person can hold. Once lost, prostitution can just as readily become a state mandate as anything else. Freedom to think, speak, travel, live and work wherever you choose; is no longer the case after this Fair Work Commission's finding. Every person's physical body now belongs to the state to do as they see fit. In fact, what the state now mandates regardless of science (truth) or physical, mental and personal predispositions, can and will be conditionally directed over your body, or you shall not be 'permitted' (issued a permit) to work.

Any consideration in regard to a 'vaccine mandate' from an employer, the state government or the federal government, is in regard to the autonomy of your own body. I have heard reports of those who have accepted the mRNA injection based on a desire to continue travel. Others have based their injection choice on fear of covid. Considered logically towards travel, they have given up their freedom of choice (of the autonomy of their own body) over the desire, and I might add a delusional desire, to move freely about the community. This is a false hope by deceitful and manipulative mis-information - gaslighting if you like, saying one thing but doing exactly the opposite.

I've received a video in regard to the NSW Liberal politician deciphering the Fair Work Commission findings from earlier this week. Obfuscation was the intention of this broadcast. Even one worker in one industry being required from their employer by ministerial mandate to be injected with an experimental drug, is a clear violation of their ancient rights and freedoms. That one worker represents us all. Who gave that authority to their employer or the minister when our Federal Constitution specifically rejects any authority towards medical / civil conscription.

https://www.aph.gov.au/Parliamentary_Business/Committees/Senate/Legal_and_Constitutional_Affairs/Dying_with_Dignity/Report/c03

The medical services power

3.6 Subsection 51(xxiiiA) of the Australian Constitution provides as follows:

The Parliament shall, subject to this Constitution, have power to make laws for the peace, order, and good government of the Commonwealth with respect to:

(xxiiiA) the provision of maternity allowances, widows' pensions, child endowment, unemployment, pharmaceutical, sickness and hospital benefits, medical and dental services (but not so as to authorize any form of civil conscription), benefits to students and family allowances.

Going to the courts for final adjudication has given commiCzars and Judges more power than warrant their calling. Bodily autonomy is a gift of freedom from God.

Recall Mechanism

It was the High Court of Australia 4:3 majority that found within the two words 'external affairs' this same type of Constitutional undoing by the Gordon-below-Franklin Dam and later on Mabo decisions. Activist courts have deconstructed our Constitution and repeatedly demonstrated the need for a 'recall mechanism' considered within any Constitutional review - that activist judges, like anyone else on the public payroll, can be called to account to the taxpaying public (who are responsible for paying their wages). They must be held responsible just as the Voter must also be held to account - responsible. This demonstrates again the validity of the Trinitarian model: Free, but also Responsible, and in a Moral environment. All three values held in balance - none afore nor above the others.

Natural Law

The 'nature' of how things are and how they work best can be described as 'natural law'. We would alleviate this current chaos by understanding and seeking to obey these natural laws. The custodian of these truths - the church - has gone astray from its greatest calling by its silence.

The Natural Law Courts were traditionally held by Lords Spiritual - House of Lords Britain. These Law-Lords would hold Natural Law Courts and then move directly into the Common Law Courts to adjudicate. Our Common Law was built around this relationship of Natural Law / Common Law association. Shakespeare's *Merchant of Venice* illustrates this relationship - Portia describes the insistence of Shylock for the payment (of Antonio's 'pound of flesh'), a central point of the play.

Man, as a spiritual being requires more than just dictated arbitrary law. Man needs to be guided by greater than himself - God the Creator of All.

Evolution of Thinking - The Secret Vote must now give way to the Responsible Vote / Responsible Voter

Political correctness has deconstructed our Rights to think and speak honestly and openly. We are compelled to reinforce lies promulgated from and through state authorities. Scientific rigour has been thrown out the door. Natural immunity as a demonstrable scientific and medical fact is openly censored. We are immersed in a dark age of (false-truth) within a medical tyranny.

This totalitarian government, aided and abetted by totalitarian unions and totalitarian media, make finding a reliable source of information obscure and unintelligible.

That one worker represents us all. Our courts are now as much part of the problem as our parliaments. Totalitarianism is around every corner.

Our universities fail to provide the necessary scientific rigour over the actual history of disease management by improved sanitation, healthy food and clean water. These infrastructure projects were the basis of disease reduction to today's levels around the 1950s across the developed world; prior to the introduction of vaccines. Universities, by their silence on these historical facts, are complicit in this subterfuge. They do the work of their benefactors. It is that straight forward, falsity is everywhere.

Voting As Mechanism For Fraud - Software Anomalies MP Ms Fiona Simpson (LNP Maroochydore Qld) reported to Peta Credlin Sky News in December 2020 : <https://youtu.be/UikeZPhUtk4> and on her website here: <https://www.fionasimpson.com.au/queensland-electoral-system-at-risk/> on significant security issues with the use of Chinese based coders for the Electoral Commission of Queensland's voting software.

Mail in Ballots as Fraud

ABC election broadcast found here:

<https://www.facebook.com/abcinbrisbane/videos/queensland-election-2020/737208480203485/>

During the broadcast of the real-time Queensland election 2020 James Ashby (PHON spokesperson) reports of 30+% of disallowed postal votes due to only one signature on the outside envelope. Similar situations of singular signature postal ballots occurred in USA to the tune of hundreds of thousands being accepted by election officials for some of the most important Presidential Election swing states. Building on of postal vote anomalies, at 3:07:00 National Sen. Susan McDonald adds that 50% of postal votes arrived late or not at all, blaming Australia Post. This comment can go either way if you think about it... The *modus operandi* of postal vote fraud is there if you take the time to look and compare these systemic election anomalies across different Nations and State elections.

Electronic Tabulating As Fraud

Several times during the ABC broadcast Antony Green mentions anomalies in the digital feed coming not only into his studio, but across the system. At 3:22:48 of the broadcast you are able to hear Antony Green's comments, especially 'as then' unseen preference flows. Am I suggesting a rigged election for Queensland? The algorithm-adjusting the 'ratio of fraudulent counting' can be adjusted in real time. This is reinforced in light of the Sidney Powell original allegations and recent investigative 'findings' towards the systemic electronic and mail-in fraud of the USA Presidential Election across key swing-states. Sydney Powell argues collusion, not just between Democrats and Republicans, but between the CIA and the Communist Party of China.

Preferential Voting as Fraud

Preferential voting was originally introduced as

a means for a voter to indicate whether there was more than one of the listed candidates whom he or she would opt for. For the principle to work it HAS to be voluntary. To compel voters to list preferences they DON'T LIKE is a violent attack on freedom of choice. To make the hundreds of thousands of voters looking for a way to express their disapproval of the major parties ultimately vote for the object of their disapproval is a cynical attack on the democratic process. (*Queensland has full preferential voting - ed*) 1988 House of Representatives Joint Standing Committee on Electoral Matters Report here: https://www.aph.gov.au/Parliamentary_Business/Committees/House_of_Representatives_Committees?url=/em/elect98/wholereport.pdf

Confessions of an Economic Hit Man - John Perkins

Preface: *Economic hit men (EHM) are highly paid professionals who cheat countries around the globe out of trillions of dollars. They funnel money from the World Bank, the U.S. Agency for International Development (USAID), and other foreign "aid" organisations into the coffers of huge corporations and the pockets of a few wealthy families who control the planet's natural resources. Their tools include fraudulent financial reports, rigged elections, pay-offs, extortion, sex, and murder. They play a game as old as empire, but one that has taken on new and terrifying dimensions during this time of globalisation. I should know; I was an Economic Hit Man. - end*

https://alor.org/Storage/Library/PDF/Perkins%20J%20The_Confessions.pdf

Within any Constitutional review and to build on effective representation further - Regional Electorates and the Hare Clarke voting method should be considered. This method with Regions for the Lower House would achieve a higher representative ratio being a step change against the major-parties mutual-benefit-manipulation of the Electoral Act and towards representative government reflecting the will of the people. Upper House Regional Electorates, (Victoria and WA), use this to thwart efforts by smaller parties to find expression within their Upper House. There appears no consistency between the application of Regional Electorates for upper or lower house until you consider the benefit towards the major parties working together over all others.

Conspiracy you say - Yes, Conspiracy by all the majors!

Social Media as a Monitoring System

Polling, as a source of reliable feedback is readily understood and accepted amongst the public. However, social media is not so readily understood as being another reliable source of state surveillance, not just the community, but every individual. I did an internet search on myself and found a database of information that went back many, many years from when I first used the internet until now. Nothing to see here you say. I think that my search enquiries identify things of

interest and importance unique to myself - profiling if you like. Building on that is the system of reward points - spending habits which demonstrate in real time the effectiveness of advertising over my thought processes. Still nothing you say. Remember that it is through the control of finance having power over all our governments and industry alike, that the entire world is being enslaved under the 'great reset'.

Through social media, I may decide that I have had enough of some issue and respond through an online petition - name and address supplied. This is a two edged sword in that the numbers reflect building community angst, while in real time identifying those who may cause the surveillance state problems in the future. Should sufficient numbers of discontent build, then this real-time information provides a trigger for a propaganda campaign to calm the public down. Online polling can feed the actual monster that wishes to enslave us all.

These psychological tools are within the toolbox of every advertising agency. As reported in previous issues of OnTarget, most lead politicians now have several spin experts that 'manage' everything that is uttered to the public. Dan Andrews is not at all a loner on this front.

Censorship by (MSM) Omission

Natural Immunity builds up through exposure to air, sunlight, bugs and germs, genetics, and environmental input on our immune system. Estimates of the microbes within each person are between 2Kg and 25% of body mass, placing the microbial world as an integral consideration towards your general vitality. I personally take high dose 'B' Complex in the form of yeast and sugar extract (molasses) deliberately to feed the bugs within my digestive tract to feed my brain. Other sources of energising these 'microbiome' are fermented foods, curds, cheese, mushrooms and other fungi which all contribute towards a balanced healthy diet. While fact checkers and sceptics poo-hoo these historic and proven methods of health management, it is important to note - cui bono who benefits from their mis-information.

The historical methods for exercising 'our will' over our governmental institutions no longer work. They have all been subverted. A new and novel approach is required to rebuild this almost lost civilisation, or we collapse. ***
