- Anti-Monopoly Laws, especially all forms of media ownership and inordinate cartel influence over our media
- Rehabilitation of the People's Bank to all levels of government, and the repatriation of all personal and private debt as a legitimate function of national security - *Keys to Unlocking Democracy*

**THIS AGE OF WHIG PURITANISM By Arnis Luks**

This week I was called to a book titled '*The Two Nations - a financial study of English history*' by Christopher Hollis. [https://alor.org/Storage/Library/PDF/Hollis\\_C-The\\_Two\\_Nations\\_1937\\_Financial%20History%20England.pdf](https://alor.org/Storage/Library/PDF/Hollis_C-The_Two_Nations_1937_Financial%20History%20England.pdf) The two nations within England where the rich and the poor. Hollis has gathered numerous other historian's findings to summarise their works with his own within the title. His thesis being: that from early childhood - middle and upper-class children were never taught within their educational system the truth of why the poor are poor, and so grew up unawares and indifferent to their plight. Not only did their poverty seem necessary, but a permanently inevitable stumbling block. Education, especially for elite schools, has always been corrupted.

Nowadays, in spite of selective educational and media propaganda, the fact is that nearly all English Monarchs were frugal and doing what they could to manage a manipulated financial/economic system. The moneyed-class were at perpetual war with the Monarch over power to rule the nation. The craft of usury had been optimised over millennia, deliberately kept obscure, difficult to understand and never taught about correctly. Hollis' book is essential reading for any who wish to set their historical record straight, not as accumulated dates and events, but stringing together the 'actual financial/economic policy' pursued across centuries that permeated those societies.

As we witness the daily pursuit of more power by our own Whig (and now more obviously Puritan) ruling class, we can be assured that the real story will not surface through education, the official record, nor the MSM. It will take honest historians and small players such as ALOR to set the historical record straight.

Several minor articles appearing within the MSM highlight a 60% increase since last year in the number of individual recipients of government support due to suffering businesses. The first article surfaced then just as quickly disappeared. I found another in an overseas publication stating: 420,000 Australians lost their jobs across the six weeks June-July 2021, I describe as "asset stripping of the poor with breathtaking rapidity". Coupled with the phenomena of 40%pa rise of house values, any fall will quickly king hit recent borrowers into insolvency.

**Lockdowns Devastate Small Business and Leaves Economy Dominated by Large Corporations**

[https://www.theepochtimes.com/lockdowns-devastate-small-business-and-leaves-economy-dominated-by-large-corporations\\_3965774.html](https://www.theepochtimes.com/lockdowns-devastate-small-business-and-leaves-economy-dominated-by-large-corporations_3965774.html)

Christopher Hollis and others walk you through similar finance/economic policies as today of asset stripping over hundreds of years from this historical study of English Financial History. Nothing occurring today is new.

**"Six Centuries of Work and Wages: The History of English Labour" By Thorold Rogers**

[https://alor.org/Storage/Library/PDF/Rogers\\_T-Six\\_Centuries\\_of\\_English\\_Wages.pdf](https://alor.org/Storage/Library/PDF/Rogers_T-Six_Centuries_of_English_Wages.pdf)

In 1495 a peasant who was linked directly to the land was able to earn sufficient income to feed his family of four from working only 15 weeks of the year. Through a change of financial policy and erosion of the value of the currency, the now landless peasantry (1679 Statute of Frauds) was working 47 weeks of the year and achieving insufficient income to even keep enough food on the table. Food production per head of population had increased across that same period in order of magnitude - deflation : increased production with a significant reduction in 'income relativity to staples such as bread'. The domination by the Whig moneyed class stripping the assets and income from the poor, culminated with the establishment of the Bank of England in 1694 and left the poor, middle and upper classes all destitute. Old (landed) money was replaced by new (financial) money. Oliver Cromwell and William of Orange had served their purpose for their Whig Puritan masters, the moneyed class.

Middle class socialists and libertarians alike (cultural Marxists) today expect they will avoid a similar fate of having their assets stripped but are misguided. This same fate awaits us all if we allow this policy to conclusion. The only time in history where the moneyed class were overcome was when the barons (middle-upper class), the church in England (Archbishop Steven Langton) and the common man unified at Runnymede to compel the King to place his seal of agreement upon the Magna Carta. Further reading:

*Social Economy* By Thorold Rogers

[https://alor.org/Storage/Library/PDF/Rogers\\_T-Social\\_Economy.pdf](https://alor.org/Storage/Library/PDF/Rogers_T-Social_Economy.pdf)

*Story of the Nations - Holland* By Thorold Rogers

[https://alor.org/Storage/Library/PDF/Rogers\\_T-Story\\_of\\_the\\_Nations-Holland.pdf](https://alor.org/Storage/Library/PDF/Rogers_T-Story_of_the_Nations-Holland.pdf)

I noted the escalation of propaganda against any free-thinking individuals. Obviously, the controllers of MSM are feeling the mounting pressure against totalitarianism and responding accordingly. Cognitive dissonance can be recognised in that those 'fully injected' can expect a return to normal life. Non-injected will continue being locked down as in a prison. Either the injections work and provide immunity, or they don't. Most are losing the ability to think rationally. This war for the mind is against all free people by the moneyed class - central banks and their minions. The root of this (covid) policy stems from them as was for 400 years past.

*A 'Problem' correctly stated is already half solved - CH Douglas*

In regard to the lockdown and mandating of the experimental injection trial, it was encouraging to read of a Sydney law firm's legal attempt to push back through the courts, for all our governments to uphold the Federal Constitution. If they are to be successful, the man in the street also needs to see the real value of that 'agreement between the people and their government' by supporting their endeavours. We all must insist by whatever means at our disposal that our Federal Constitution be upheld.

Sydney Law Firm Files Lawsuit to Overturn

Australian State's Public Health Orders

[https://www.theepochtimes.com/sydney-law-firm-files-lawsuit-to-overturn-australian-states-public-health-orders\\_3979680.html](https://www.theepochtimes.com/sydney-law-firm-files-lawsuit-to-overturn-australian-states-public-health-orders_3979680.html)

## **Ezekiel Declaration**

I note more religious leaders are also taking a firm stand against the vaccine passport as does the '**Ezekiel Declaration**', progressively working through the 'anti-nature' of the current policy personally guided by our Prime Minister Scott Morrison. The importance of upholding our ancient freedoms cannot be laid to waste with fear-mongering by the mainstream media MSM. Ancient freedoms must be upheld and fought for by successive generations. It is now up to us to do just that. We have been complacent for far too long.

Ezekiel Declaration

<https://caldronpool.com/wp-content/uploads/2021/08/EzekielDeclaration.pdf>

While everyone (who can) is manoeuvring to minimise the asset stripping initiated by central banks using this covid policy, it is vital to get to the root cause of this chicanery that has been repeated across millennia.

ON TARGET

Flavius Josephus in "*Antiquities of the Jews*" records that Cain not only killed his brother Abel, was the author of measures and weights (finance/economics), but changed the nature of men...*who lived in simplicity, innocently and generously while they knew nothing of such arts as cunning craftiness. Cain aimed to procure everything that was for his own bodily pleasure, though it obliged him to be injurious to his neighbours. He augmented his household substance with much wealth, by rapine and violence: he excited his acquaintance to procure pleasure and spoils by robbery: and became a great leader of men into wicked courses...*

The Antiquities of The Jews By Flavius Josephus

<https://www.gutenberg.org/files/2848/2848-h/2848-h.htm>

This Archetypal story of Cane and Abel is repeated whereby Rabbi Hillel introduced the Pharisaic Law – the Talmud around 500BC in contradistinction to the Mosaic Law held for millennia which included 'debt forgiveness' every 7 years in the tradition of the 'year of jubilee'. Am I my Brother's keeper asked Cain? Yes, Yes and Yes. '*Whatsoever you do to the least of these...you do to me*', and also: '*Forgive us our debts as we forgive others*' and *Only do unto him what you would have him do unto you.*

Home loan borrowers rush for better deals

If we are to restore the natural order (natural law) to minimise this same (financial/economic) chicanery of asset stripping as has repeatedly occurred across millennia, we must review the financial/economic system – the tool repeatedly used to impoverish the people. All people in society equally hold a personal interest in achieving the correct end outcome of this review.

Introducing Douglas Social Credit

[https://alor.org/Storage/Library/PDF/Social\\_Credit\\_Intro\\_Lectures/Social\\_Credit\\_Intro\\_1.pdf](https://alor.org/Storage/Library/PDF/Social_Credit_Intro_Lectures/Social_Credit_Intro_1.pdf)

*"I have come that you might have life and that you might have it more abundantly"* : John 10:10

It is over (100) years since C.H. Douglas advised his readers they must bring into their consciousness the type of world they want and to realise that they alone can obtain it, not in detail, but in objective.

First of all he suggested that security in what we have is required: freedom of action, thought and speech, and a more abundant life for all is wanted.

Second is the need to face up to the encroachments of bureaucracy. The business of bureaucracy is to get us what we want, not to annoy and hinder us by taking from us by taxation and irritating restrictions those facilities that we should otherwise have.

Thirdly, he insisted, and most importantly, we have to obtain control of the forces of the Crown by genuine political democracy. The battle to regain the ground lost and insist on changes to the mechanisms of society, at present being used to encroach more and more on our freedoms, is before us. (*The Tragedy of Human Effort*)

The great Russian writer, Alexander Solzhenitsyn, a prophet for these times, has wisely counselled his own people that the path they need to follow, if they want

to find their own way back from the oppression and desolation of the last (100-ed) years, begins from within. It begins with a regeneration of their own spiritual energies and their relationships one with another.

*"The strength or weakness of a society depends more on the level of its spiritual life than on its level of industrialisation. Neither a market economy nor even general abundance constitutes the crowning achievement of human life. The purity of social relations is a more fundamental value than the level of abundance."*

Solzhenitsyn went on to list the order of priorities for the Russian people - the same order of priorities would apply to the West. The regeneration begins from within. Natural growth and expansion begins from within and so does the regeneration of a nation's soul.

*"If a nation's spiritual energies have been exhausted, it will not be saved from collapse by the most perfect government structure or by any industrial development: a tree with a rotten core cannot stand. And that is why the destruction of our souls over (this past-ed) century is the most terrifying thing of all."*

Next comes the regeneration of families and communities and nations - again from within. *"What is clear is that the process should start at the local level with grass-roots issues... We must patiently and persistently expand the rights of local communities ..."* (Rebuilding Russia).

**Actionist Corner** <https://alor.org/Storage/navigation/Library3.htm>  
**Debt as a Weapon**

In our online library are several books on the real history of the establishment and independence of our Commonwealth Bank of Australia under the governorship of (Sir) Dennison Miller. While King O'Malley MHR was foundational in convincing the (Federal Labor) Parliament to finally accept his proposal, it was the governor (Sir) Dennison Miller who was instrumental to the proper functioning of the People's Bank. What was physically possible became financially possible. The perpetrators (sic) of the emasculation of the People's Bank being the Bruce-Page Conservative government some 12 years later acted on behalf of big-moneyed interests – privately owned & managed central banks - the Federal Reserve System in USA 1913 and Bank of England 1694 - forerunners of central banking. HSBC (Hongkong and Shanghai Banking Corporation), JPMorgan Chase and Citibank dominate Australian industry share portfolios especially our big four banks.

The Creature From Jekyll Island By G. Edward Griffin

[https://alor.org/Storage/Library/PDF/Griffin\\_GE-The\\_Creature\\_From\\_Jekyll\\_Island.pdf](https://alor.org/Storage/Library/PDF/Griffin_GE-The_Creature_From_Jekyll_Island.pdf)

The Story of the Commonwealth Bank By D. J. Amos

<https://alor.org/Storage/Library/PDF/Amos%20DJ%20-%20Commonwealth%20Bank.pdf>

*The Commonwealth Bank of Australia - CC Faulkner's 1912-1924 record, was commissioned by the CBA and completed shortly after (Sir) Dennison Miller's physical demise 1923. This work is the real historical record of the outworking policy of the then CBA governor - of what a People's Bank can actually achieve.*

ON TARGET

What we are considering in this article has been successfully achieved before with determined, loyal and patriotic Representatives and a loyal CBA governor.

The Commonwealth Bank of Australia

[https://alor.org/Storage/Library/PDF/Faulkner\\_CC-Commonwealth\\_Bank\\_of\\_Australia.pdf](https://alor.org/Storage/Library/PDF/Faulkner_CC-Commonwealth_Bank_of_Australia.pdf)

## Debt Forgiveness

Debt is a tool of leverage by the creditor over the debtor. This is why credit creation and finance/economic manipulation be considered towards our national security. *A 'Problem' correctly stated is already half solved - CH Douglas*

To minimise external political leverage against Australia and its peoples, the CBA or similar must be reinstated under its original charter conditions, all shares repatriated to Commonwealth control, and the directorship placed under loyal Australian management. The governor must be his own man, fiercely loyal to Australia as a sovereign and independent nation, our Westminster institutions of representative parliamentary democracy, limiting Constitutional Monarchy, and loyalty to freedom loving Australians as his own people.

<https://www.legislation.gov.au/Details/C1911A00018>

CBA policy must be: that the available spending power in the hands of the community at any given time be balanced sufficiently to liquidate prices without incurring further personal or public debt. This can be achieved, as commended by CH Douglas as the rightful cultural inheritance, fruit of the industrial arts of modern mass-production, in the form of a National Dividend paid equally to all, and complimented with the 'Compensated Price' at the point of sale to arrest any fluctuations in the price level. Provided the spending power in the hands of the community is balanced, 'prices' (at the point of sale being fully liquidated) would naturally fall as emerging industrial technologies optimised production still further. Debt as a weapon against Australia and its peoples would be emasculated. Australia would be a sovereign, self-reliant and independent nation under a balanced financial/economic policy.

## What is physically possible be made financially possible

PM slammed over national cabinet secrecy - Teens plunging into mental health abyss - 390 firms collapse as Covid wears business down - RBA to test central bank digital currencies CBDCs - Taking carbon offsets out of the shadows and on to the trading floor

These headlines, while reflecting some of the major issues and consequences of the repetitive lock downs, show the objective of the covid policy regardless of the consequences being "central bank controlled and issued 'digital currencies' with 'carbon offsets'". Privately owned and managed institutions such as the Bank of International Settlements, IMF and World Bank, being the root and originators of the covid policy across all governments and all nations, are attempting to bring : "all these kingdoms unto themselves (if you would bow down and worship me)".

These scriptural references of spiritual significance reinforce the abstract nature of modern financial credit. While printed notes and coins exist, this form is limited to as little as < 2% of all financial credit. The bulk of financial credit exists simply as computer keyboard entries. We accept this system and method simply by “faith alone”. Providing the medium of payment is accepted, it can be in any form. Our state governments could issue tax-offset certificates (to the value of...) as payment for services. How creative can we be with this? The facilities provided by the local post office could easily perform the function of a 'local development bank' providing it is legislated as such. WWI was financed and processed by our own Commonwealth Bank of Australia with the war completed and Australia exiting from the conflict debt free – the costs were paid in full by the efforts of our Nation in materials and blood, sweat and tears of its peoples. The administration of this Common-“Wealth” Bank of Australia was performed around the world using pen and ink entries and the telegraph wire.

The Commonwealth Bank of Australia

[https://alor.org/Storage/Library/PDF/Faulkner\\_CC-Commonwealth\\_Bank\\_of\\_Australia.pdf](https://alor.org/Storage/Library/PDF/Faulkner_CC-Commonwealth_Bank_of_Australia.pdf)

***Faith, Hope & Love - the Greatest of These is Love***

The real economy is what occurs physically (raw materials), technologically (machines, labour and know how) and spiritually (belief that the objectives can be achieved) within every community and should be reflected within a balanced financial/economic system, not based on 'limiting' any keyboard entries. The monetary system should be a reflection of this same community ‘faith’ credit. Financial credit can be created by a stroke of the keyboard, and provided the production is required and resourced, can occur to their benefit.

***Port Augusta in South Australia has in proximity ample supplies of coal, iron ore, knowledge and labour. With a release of sufficient community credit (faith reflected in action) and financial credit (keyboard entries), the electrical power could be generated, the steel smelters operated, and ships built as was done in the past.***

**The Policy of Freedom - Douglas Social Credit**

The existing financial racket has run its race. It cannot hide as a fraud any longer and needs to be brought to order, re-aligned within the observable world of material abundance. Machines already do the lion’s share of necessary work and with a minor contingent of able bodies to close out any supervision and maintenance required of these machines, industry can produce enough for all with minimal labour - (15 weeks per year n 1495).

Labour requirements for agriculture have progressively reduced from 85% of the available working population to as little as 5% across the industrial revolution period. Man does not need to work to be fed. China, Korea and Japan are already doing the lion’s share of production for virtually the whole world. Primary industry could just as readily be repatriated back to our

own shores, giving our young a much-needed leg up towards home ownership and real personal security. Where are you ACTU? Why do you remain silent on this vital issue that would alleviate the need for your existence in the first place?

This policy of the philosophy of freedom overcomes the historically false class antagonism between the factory owner (capital) and his workforce (labour), all would hold a direct and vested interest in success of the enterprise. All would be mini-capitalists and actively involved in directly achieving a social policy : the purpose of production is (to be consumed) consumption.

Not monopoly capitalism, but genuine free and competitive enterprise, and not collective socialism, but a genuine social policy; both held in tension by a balancing (moral) financial/economic system, with the National Dividend and Compensated Price (at the point of sale) to fully liquidate prices. Debt would be a thing of the past. New enterprises would be financed by the people's bank as was done between 1912 and 1924, with loans written off across the life-cycle of the enterprise.

This article is a reflection of the study and application of The Policy of Freedom - Douglas Social Credit. Progressional courses are available through our online libraries, video/podcast channels and directly from our staff at Head Office. Details below. \*\*\*
