### The Toast to the New Times

Mr Chairman, ladies and gentlemen. It is my pleasure to propose the toast to the "New Times" on this day, Saturday ninth of October 2021. Obviously it is a very difficult task to write just a few words to toast the "New Times" considering all those who went before, but it will be even more difficult to live through the new times ahead, considering what Australia is going through now.

The enemy may think it is on a roll at the moment, but it is not, for we have as in Pandora's box, a treasure called "hope" through "Christ". It is through belief in Christ and searching for a deeper knowledge of his word as expressed through the practical writings of C.H. Douglas, Eric Butler, Jeremy Lee and many others together with those before them and those that came after, that we may move forward. The list of people who saw a glimpse of reality is endless which includes those who are here now.

If you believe the tragically corrupted media, then there is no hope, but when I walk outside into the garden, then hope is restored. When I gaze on the apple blossom, the bees, and the cherries forming, then I know God's creation is not static. Discovering "Douglas Social Credit" teaching and message is another "Pearl of great value", that will restate the correct relationship between peoples of all levels.

The manipulation of people's minds is very intense at the moment and it can be difficult to show people there is another way forward in the current dilemma. It will not be done by "good men doing nothing". It will take study of "Douglas Social Credit" teaching, meditation of the eternal truths, learning to reapply honest action of the past in whatever way, with truth and integrity and together with others working towards a new civilisation.

Anarchy will not produce a good end, for anarchists tend to be riding on a merry-go-round that stops on the same spot. The political party system has only produced division in the community and the men and women involved have become liars and deceivers, as demonstrated by their strange silence over lockdowns and so on. This New Age or New Times or Renewed Civilisation will only start with individuals agreeing to act together freely on issues that they agree on.

Look at India now, where the forced corporatisation of their farmlands there is a protest march to the capital being led by farmers who are in their 90s and even 100s, who remember the atrocities committed by the private corporation, the East India Company who occupied India for 200 years. The farmer protest numbers is in the hundreds of millions. Considering what is happening in Australia we may have to start our own action and insist on a change of direction for Australia even at our age with walking sticks and wheelchairs.

Our own walk may start with being realists, correctly stating the problem, then applying a policy with a knowledge of the past and present for the future. We are not going to cure the problems with wishful thinking. In the words quoted of Aleksandr Solzhenitsyn "Men have forgotten God; that's why all this has happened!" Quote continued: "Our life consists not in the pursuit of material success but in the quest for worthy spiritual growth. Our entire earthly existence is but a transitional stage in the movement towards something higher, and we must not stumble and fall, nor must we linger fruitlessly on one rung of the ladder. Material laws alone do not explain our life or give it direction. The laws of physics and physiology will never reveal the indisputable manner in which the Creator constantly, day in and day out, participates in the life of each of us, unfailingly granting us the energy of existence. When this assistance leaves us we die, and in the life of our entire planet the Divine spirit surely moves with no less force; this we must grasp..." End quote.

The situation is not insurmountable, (if-ed) we act through faith.

An observation of the humorous nature; years ago when Eric Butler spoke about the enemy at large wanting to know our plans of action. He did not consider this to be a problem, because we did not know ourselves.

"Thank you for this time to contribute my small offering" -- John Luks

# AUSTRALIAN GOVERNMENT OBEDIENCE OF GLOBAL GOVERNMENT DIRECTIVES By Arnis Luks

Having celebrated the New Times Dinner after attending the successful ALOR National Weekend Seminar, it was encouraging to witness the young taking up their own Cross of Personal Responsibility.

Dr Judy Wilyman PhD delivered three outstanding papers across the afternoon. Australia is indeed fortunate to have in our midst a researcher of such outstanding and unique capability. Dr Wilyman's videos from the Seminar are available on our main website and also two of our three video channels. YouTube has come down more heavily with their Orwellian censorship. Discussing scientific and medical matters is unacceptable and actively censored by them. Interestingly, last week's OnTarget highlighted the utter corruption of our political class utilising Chinese software coders to develop Queensland election software, and this week the Chinese software giant (for our webinar) failed to be activated in a timely manner. Efforts to suppress our National Weekend Seminar were averted and the Seminar proceeded and was distributed on schedule.

Dr Judy Wilyman PhD thesis "*A critical analysis of the Australian government's rationale for its vaccination policy*" is available for viewing from the University of Wollongong website here: <https://ro.uow.edu.au/cgi/viewcontent.cgi?article=5550&context=theses>

Dr Wilyman presents the case that the Australian Government is (obediently-ed) administering World Government Policy directed from that private/public partnership of the WHO World Health Organisation - for profit. The WHO objective is not a health outcome, but rather to provide 'medical services' to the healthy population of the entire world. This is in the form of a chemical injection labelled a 'vaccine' (which it is definitely not by their own WHO Standards). The mRNA injection is untested on humans and has proved fatal when tested on animals, in that those creatures that received the injection resulted in an 'amplification of symptoms' of subsequent bouts of illness. The choice towards the mRNA injection is a personal life threatening decision which needs to be carefully considered from many valid medical and scientific points of view, of which little or no airtime is given through captured medical publications, universities and of course the compliant Main Stream Media - rostrum, pulpit and platform. Make the effort to view Dr Wilyman's videos as part of your self-education program for healthier outcomes, for yourself and those closest who may listen.

United Australia Party advocating Ivermectin as an alternative treatment for symptoms, are only one step in front of where we are. In that, when the 'amplified' symptoms arrive there will be a ready market prepared for Ivermectin. No mention of upholding our Limiting Constitution, nor our ancient rights and freedoms.

Not one politician nor political candidate that I am  
ON TARGET

aware has proposed upholding our Limiting Constitution. Not one. You can investigate those you think are worthy of voting for in this next and probably last election. Don't be confused, I say it again, none of them have demanded to uphold our Constitution. Not one that I have heard.

## Hard Lockdown for the UnVaccinated

Below is a series of tweets from Gluboco Lietuva from Lithuania. He shares his experience as an outcast who refuses to take the COVID jab.

Europe's first strict, society-wide Covid Pass regime:

1/ My wife and I have been suspended without pay for 4 weeks. We can't return to our jobs.

Not sure our employers would let us back.

Even if they did, our colleagues despise us, wish on social media for our death. Nothing we can do will ever erase that. We can't work there.

2/ We can't find new jobs in our professions.

My wife and I have very different jobs in very different fields. But all jobs in both our fields now require the Covid Pass. No Pass, no Job.

3/ We're not allowed to buy food in the local supermarket. We may only shop in small stores with street-facing entrances which mainly sell food, pharma, glasses/contacts, or farming/pet supplies.

In our area, that effectively limits us to one small, expensive convenience store.

4/ The Pass has wreaked havoc with the free market. Supermarkets which require the Pass report shopper traffic is down 25% in the month since the Pass was imposed.

But in the small stores where the Pass isn't required, it's up only 0.7%. So where have the shoppers gone?

5/ We now buy food in old Soviet-style markets: outdoors, in parking lots, products sold on street, tiny tables, or from back of cars. Produce, eggs, cheese, meat, fish. Cash only. No Pass required. Not as convenient as a supermarket. But it works for now. Life finds a way.

6/ I need to make some home repairs. But without a Pass, I can't enter the hardware store to buy supplies.

I can't call for a repair worker because repairs are banned for non-Pass holders. And I have no income now to pay for outside help anyway. So our home stays unrepaired.

7/ We went to the dentist we've attended for years for an appointment for one of my children, but had to leave because I don't have a Covid Pass. No other dentist in our area will see us. We've heard of dentists who treat people with no Pass, but they're far. So no dental care.

8/ We tried to buy art supplies for our kids from a craft store. No purchase allowed without a Pass.

We tried to buy educational toys in a toy store. We were barred from entering.

Can't buy kitchen supplies. Banal, but frustrating.

9/ We tried to print some papers in a copy shop. The staff refused us service without a Pass. We can't enter

the library to browse books with our kids. That used to be one of our family's greatest pleasures. But we're not allowed any more because we don't have a Covid Pass.

10/ Our two kids outgrew/destroyed last winter's clothes. We tried to buy new ones. But with no Pass, many stores rejected us. Finally, my pregnant wife begging, tears in her eyes; a manager at a second-hand store relented: "Just this once, OK? Can't let you people in here again."

11/ This pressure to submit is everywhere. And it's overwhelming. Our ability to survive has been destroyed. But no matter the suffering imposed and the hardships we must endure, we will never accept the descent into the authoritarianism which the Covid Pass represents.

12/ QR code to enter stores? Covid Pass needed to work? Government approval needed to buy food, toys, clothes? No. No. No.

The Covid Pass regime of government segregation and control – punishing undesired behavior with banishment from society – is the path to authoritarianism.

13/ When Covid vaccinations were released, the original policy was education, trust, and informed consent to vaccinate targeted groups. But policy changed in 2021: choice and trust was replaced by coercion and punishment. You've shredded trust in public health for generations.

14/ Government approval to exist in society. Banishment based on arbitrary rules. Recording of all people's movements. That's not health; it's control and power. This new authoritarian control will only grow to ban ever more behavior as bureaucrats push to expand their power.

15/ Like many cases in history, our slide towards authoritarian control in 2021 – in Europe and throughout the world – has fueled, and been fueled by, hatred and (loathing-ed) which is encouraged by government and stoked by the media. And it's ripping our society apart.

16/ Segregation. Blame for disease. Accusation of wartime betrayal. Incitement. Persecution. This is not a history textbook. This is the reality of life for my family in 2021. Our humanity has been erased. This is wrong. So deeply, deeply wrong.

17/ Our winter is long, cold, dark. My wife and I don't have savings to last til (sic) spring. But despite hardship, we decided resistance is our moral path. We want our kids some day to feel pride towards us, not disgust. Freedom is fragile, and we must defend it. If not us, then who?

18/ You have inflicted so much suffering on us already. You plan to hurt us even more this winter. But know this: We will never accept your Covid Pass regime. We will never accept the control, segregation, and hate. We will never accept this descent into authoritarianism.

19/ We do not stop you earning a living, though you stop us. We do not ban you from buying food and clothing, though you ban us. We do not hate you, though you hate us. We do not banish you, though you banish us.

We do not wish death upon you, though you wish death upon us.

20/ And when the time comes, as it inevitably will, when you too are banished by the ever-increasing, arbitrary rules of the new authoritarianism, we will fight for your rights just as we fight now for ours. Because we are all equal. And we all have equal right to exist in society. \*\*\*

### **Building Up from the Individual, Not Down From The State By Arnis Luks**

With World Government directives being implemented by all our Australian governments, politicians and bureaucrats alike; a major consideration must be towards such a poor performance of each representative.

In USA, Sheriffs have been at the forefront of demanding the constitution be upheld, refusing to enforce arbitrary pronouncements from higher level governments by protecting the public against government over reach:

<https://cspoa.org/>.

Within Australia we have our state police officers that are closest to their local communities. This same opportunity is there for each of them, to individually uphold our Constitution as the supreme law of our land and those ancient common law rights and freedoms, by their personal support of those individuals "who refuse" the job. What can one person do? Enough, if their unique brave beating heart holds firm against the tyranny of 'mass medication', without any consideration towards the unique medical and physical pre-dispositions and personal needs of every single individual.

All Governments must perform the people's will which is reflected in our Constitution as the supreme limiting document of federated states: *We the people...do agree*. Not Klaus Schwab, Rockefeller, Gates or Fauci's 'will', but the individuals within the various states of Australia. Some Constitutional authorities appear to be misdirecting our focus towards this world government, by highlighting U.N. Human Rights Courts as the final arbiter for appeal, when it is not. Our ancient rights and freedoms come from God alone and are not subject to administration nor adjudication from men's corrupt, sly and fickle opinion.

### **A Demand For Restoration of our Ancient Rights**

The structured church is heavily corrupted, as was then in 1215 and again now, allowing the 'administrative few' to renounce its greatest calling by failing to uphold God's Laws being superior to man's laws: '*Thy Kingdom come, Thy will be done on earth as in heaven...*'.

Unique Individuals are called upon to do the heavy lifting, as was when Archbishop Stephen Langton and the Barons upheld those ancient rights and freedoms by demanding Magna Carta be upheld from their king. This is a multi-generational demand, as much within as without the church, for the restoration of our ancient rights and freedoms 'given from God alone' being upheld within our 'Limiting Constitutional Government'.

Men have forgotten God; that's why all this has happened!

## **'TOAST' to The New Times! From Louis Cook**

Greetings from 'glorious locked down, Danistan'! I am so disappointed I cannot join you on this wonderful occasion BUT I am with you in Spirit! What a great time to be alive as we see how events are unfolding. Only twenty years ago, to forecast events, as they see today, would have you labelled a nut, or follower of Eric Butler! Ha Ha Ha!

I well remember my first New Times Dinner, what a wonderful event that was in my life; hard for me to believe, it was 50 years ago. How I enjoyed THAT weekend!

It took me a while to realise, that when we are toasting "THE NEW TIMES" each year, it is a pledge to a new era in world history that we were moving toward—YES that is our direction!

YES again, the 'one worlders, the anti-Christ, whatever you like to name them, cannot rest in their satanic quest while we meet to reaffirm our Faith in the future under the Love of Lord Jesus. As long as there is ONE of us, we are a threat to their plans. This is the Pledge of The New Times!

Our eyes have been opened by Clifford Douglas to the reality, the abundance bestowed on us by our Benevolent Creator. It is truly 'mind boggling'-- well I think so! Have you read Bryan W. Monahan's wonderful treatise '*on all things--'Mystery, magic, music, and metaphysics'*'?

That is all you need to rinse the rubbish of 'global warming' and much else from a brain waterlogged by the nonsense being peddled by the notable institutions of 'higher learning'.

We had Peter Ridd address us a year or so about the miss-information peddled about the Great Barrier Reef. In addition, before that, Bernard Gaynor, a man who had served his country as required by the Government, being every equal to the new Premier of New South Wales in his religious beliefs, pilloried for their view which does not accord with the perceived wisdom of the established media. We must test the new Premier of New South Wales and see if he will stand up for a fellow 'Man of the Faith' ... now THAT would be something! Please draw his attention to Bernard Gaynor.

What a pack of illegitimates is this despicable media! 'Baying wolves is an understatement, they have no shame ... to see reporters walking down the street shoving a microphone in 'somebody of interests' face is maddening ... they call it 'freedom of the press' but they want it without responsibility or redress for the unfortunate individual caught up in their web, yeah, they are much worse than creepy spiders could ever be! I feel sorry for Gladys, caught up in intrigue manufactured by her own people.

The Government enacts Legislation then puts a 'zealot' in charge—WOW—the zealot then has to justify their *ON TARGET*

position. Whatever the situation it costs a lot of money to defend yourself against allegations which may prove baseless,

The Laws are 'weaponised' and used against anybody who is different to the perceived 'norm' and God help you if you are a person of interest to them.

This is the situation of the aforementioned gentlemen, Gaynor and Ridd.

To stand your ground takes a lot of courage and impacts on your family; these people are out to crush you!

Yes, I am angry, we are forced to vote for somebody at each election but I will not submit to their pressure! WE MUST stand up to the tyrants; civil disobedience has a lot going for it!

If 'the bully' keeps pushing then there comes a time when you must say 'enough is enough'.

You must fight or submit! What is it to be?

The saying "Eternal Vigilance is the Price of Freedom" is not enough, it also includes "A Willingness to Fight"! Churchill added, "If you will not fight for right when you can easily win without bloodshed;

if you will not fight when your victory is sure and not too costly; you may come to the moment when you will have to fight with all the odds against you and only a precarious chance of survival. There may even be a worse case. You may have to fight when there is no hope of victory, because it is better to perish than to live as slaves."

Ken, Ladies and Gentlemen, The time has come to stand fast!

It is easy for me to say those things when I have a warm bed each night and the love of my family—we need those things, but if we are going to keep them, then we must go on the offensive and support the 'warriors', and there many, who are holding the line for us and waiting for us to join the battle to save our civilisation.

Enjoy this special weekend, enjoy the camaraderie that comes within the Social Credit movement, and reinvigorate yourselves for the days ahead!

"Onward Christian Soldiers!"

WITH THE GRACE OF GOD AND THE LORD JESUS AS OUR GUIDE, VICTORY IS OURS!
