National Weekend Seminar Report By Arnis Luks	1
The Politically Correct Narrative is Collapsing	2
Brief History of ALOR	3
The League's Track Record	4

**Thought For The Week:** “We, the British People have a right to govern ourselves. That right has been subjugated as a consequence of acts of treason having been committed by the collective political establishment, aided and abetted by corrupt segments of the judiciary, the police, the church and the civil service.... Britain is being destroyed by globalist interests as well as the insidious “Common Purpose” organization which has infiltrated every level of British society. *The British Constitution Group (BCG)*

This country is not going to be saved from the top because that is where all the rot is. It is too deep. It is going to be saved from the grass roots. *ED Butler*

Don't welcome me to my own country!

## NATIONAL WEEKEND SEMINAR REPORT By Arnis Luks

The Australian League of Rights National Weekend Seminar was held in Adelaide across the weekend 8th and 9th of October 2022. The Saturday Seminar and Sunday's Divine Service and Actionist Workshop were streamed live across the Internet world. The three principal speakers delivered timely papers on subjects vital to the interests of the free world and Australia in particular. The papers will be in print through our *NewTimes Survey* journal in the near future. The video'd lectures have already been placed onto the front page of our website and video channels.

Folk from around Australia and New Zealand had travelled, some for three days, to partake the opportunity of fellowship and renewal. The annual New Times Dinner, incorporating the Frank Bawden Memorial Dinner, was another time of fellowship. League folk are perhaps more unique than most, each accepting their calling to do the good, the just and the right.

The expansion of the League services because of the weekend, has already been initiated. Intelligence is overcoming censorship by the mainstream and elites. Disseminating this vital intelligence information, to decentralise opportunities for people on the ground are already opening up. Reports of successful penetration through the enemy's lines were welcomed. You never know how close your enemy is to capitulation and defeat. We must continue to pursue Truth.

Several impromptu training sessions occurred where the existing resources within our main website were explained and demonstrated, being our principal method of information-distribution across the world. You are only ever a phone call away from training via Head Office.

The vast array of PDF documents, podcasts and videos available through our websites are all tools for self-education. All our forum-broadcasts are simultaneously converted into Podcasts which can be downloaded and listened to whilst driving or any other moment of time. The same for the National Seminar speakers, Divine Service and Actionist Workshop. The information from ALOR is the counter to the mainstream narrative, as the vital salt to substantiate the political situation being revealed. Everyone who has sufficient political understanding knows something is wrong but finding resolution has not been so easy – until now.

### Desktop Search as a Research Tool

On our website, just below the navigation bar on the left is a download link of the entire website in a digitally-compressed-form. This facility, once placed onto your desktop computer and decompressed can be enhanced within desktop-search-software to provide a powerful research environment comparable with the best out there – with or without internet access.

God has provided us with the necessary tools in an environment of Truth and Love to overcome the enemies of freedom. Censorship by the media and our elites is being exposed by one person taking the initiative at a time. I would recommend everyone who didn't attend the streaming event to avail themselves of these vital messages

presented to the world. This time of regeneration and renewal, with the catching up of old and dear friends, was balm for the soul.

Paths are opening for the bureaucracy to be held to account. Putting our faith into works by calling this power to order will forge a unique path for our own independent and self-reliant nation, one step at a time. Magna Carta must be re-won one small victory at a time.

Every person is a unique creation, as is every nation, and holds particular qualities unique to themselves. Be encouraged to put those specific skills and qualities to good works in the days, weeks, and months ahead. It is this uniqueness put to good works that causes the whole lump to rise. You are the salt, the leaven that cause the whole loaf to rise. Be that catalyst to bring about lasting change for the good within society.

The traditional Anglo-Catholic Divine Service conducted on the Sunday morning by Father Peter Coote, was sorely missed since the last traditional Anglo-Catholic dioceses in Australia capitulated to the liberal left, controlled by moneyed forces within that structured organisation. The recent schism may result in restoration to health within this vital service of eternal spiritual values and guidance. Preachers hold such a vital role to encourage and guide the laity onto Truth. The people are hungry for that Truth, even without knowing it, on to restoration of our common Christian heritage.

***The harvest is ripe and bountiful,  
Pray for workers for the harvest.***

Each person who participated in this year's seminar has come away regenerated, as a potential catalyst for renewal and restoration. The tools and the knowledge base are there to equip everyone in the days ahead. ALOR is committed to providing the necessary resources and/or guidance for actionists. Knowing what to do in each situation, based upon sound principles of association and our cultural inheritance are the very tools that will rebuild society. Pastoral care is also integral to supporting those in dire need, however, the causes of this distress must also be called back to order.

Each individual is called upon to pursue freedom, to restore Limited Constitutional Government, to uphold this agreement the people have 'as to how we shall be governed'. The Constitution is the supreme law of our land and the procession of past governments and bureaucratic elites have ignored their constitutional limitations and obligations.

Standing to account, being responsible is for us all. It is as equally vital as any other natural law. It is up to the people to circumvent this pursuit of tyranny, just as the Baron's compelled King John to place his seal (agreement) onto the *Magna Carta* as the reflection of those ancient rights, traditions, and freedoms. The resources are there. The flesh must be willing.

Only the people are the possessors of the necessary energy and willpower to overcome these marionettes and

pretenders who would usurp our cultural inheritance.

Social legislation does provide some support for those who are in distress. The South Australian Government website: <https://www.housing.sa.gov.au/about-us/policies/emergency-accommodation-policy> can offer emergency housing relief. There would be equivalents within your own state.

The substantive South Australian Public Housing application procedure is found here: <https://www.sa.gov.au/topics/housing/public-and-community-housing/register-for-housing> There appear to be many options.

While the process may take some time and require relocation, long term public solutions are available. Individuals in a bureaucratic position must be encouraged to perform their civic duty and personal responsibility. So must each person in the community or the electorate. This is a two-way street that needs to become a well-worn path.

This program of political, bureaucratic and civic responsibility begins with the individuals within each family, towards their local community, and progresses steadily and ultimately towards restoration and upholding of our limiting Constitution, to overcome the planned destruction of our culture and our Nation-State. Bureaucrats which include the judiciary must be compelled to uphold this agreement of the people as to how we shall be governed. The Great Seal of Magna Carta must again be placed onto the document of our age, our Limited Constitutional Monarchy - Representative Government - Public Service. We the people are the ultimate custodians and upholders of this agreement.

Mesmerising brainwashing has caused many diversions away from Truth. We the people must insist and figuratively pulled up until they become sufficiently compelled to comply with this agreement. This is the solution, the resolution against the tyranny of this day.

**The Politically Correct Narrative is Collapsing**

The mainstream and social media collaborate to produce a brainwashing narrative which feeds directly into differing communities by tailoring the message. Each electorate is targeted by this unique approach, programmed differently to achieve a certain result that then feeds back into the conducted-surveys towards the political-party-machines. These injections of carefully scripted narratives hold the public and the political class mesmerised as in a trance.

Each person must achieve a physical separation from these insidious means of brainwashing. The smart phone must be redirected to the land-line and switched off. The TVs and radios must be relocated over the edge of balconies.

The surveys must be abandoned by the political class, thereby consulting directly with the issues the people of their electorate wish to be picked up.

While this may appear excessive against the TV as the alcoholic considers that one necessary drink, the

bottle must be smashed and the decision held fast.

The only answer, as is the same for everyone, is to crush every temptation until no longer tempted. Better the contents be wasted than the individual remain mesmerised and incapable of defending themselves, and also the political-class doing their representative-duty towards the people of their electorate, protecting against those most insidious and pervasive mind manipulators.

### **Education as Tyranny**

An educational holocaust is being imposed over our children, being programmed through various education methods developed in communist regimes. Parents must use all available means to atrophy these Education systems of cultural perversion. Some have not returned their children back into this quagmire of indoctrination. Our children are the future and must be protected from this most insidious evil.

Physical mutilation and massive psychological harm is occurring as a consequence of gender studies under the banner of safe schools. Our children are being destroyed and the bureaucratic class are not being held to account for these acts of intellectual and physical violence. They also must be figuratively pulled up until such time as educational standards of literacy and numeracy are restored to the point whereby children can think for themselves. Classical education of the Trivium standard, grammar, logic and rhetoric, must again be inculcated within every educational discipline.

### **Medicine as Tyranny**

A medical holocaust is and has been inflicted upon our nation. The mRNA jabs are causing untold physical harm and death to many. Big Pharma and our medical profession elites are not pursuing the personal health interests of each person. They have failed to adhere to their *Hippocratic Oath* of doing no harm. Our doctors are each under personal threat of losing their licence should they speak up against this callous approach to public health. Doctors must stand up in defence of their patients. The best interests of the patients must again become their primary concern. As with the clergy, they also must risk all in the pursuit of truth. We all must.

The federal government has no right nor legitimate authority to indemnify this barbaric and murderous approach to health.

### **Science as Tyranny**

An economic holocaust is inflicted upon our Nation. 38 global circulation models (GCMs) were scientifically scrutinised, and each demonstrated deep mathematical flaws by looking backwards to see if the model and calculations were valid. Each model-algorithm has demonstrated unreliability, or worse still a fabrication of results. <https://link.springer.com/article/10.1007/s00382-022-06493-w> This vitally important paper was poohoo'd quickly by NASA, but the force of revealed Truth shows the fallacy of global warming and climate change. Our scientific institutions are in disrepute. Our

elite universities have failed to uphold True scholarship.

As with the doctors and priests, those educational and scientific elites who know the truth of this statement must risk all in the pursuit of truth. We all must. The relocation of our primary industry to Third World labour forces for the benefit of the multinational who indenture towards servitude every person within our nation-state through progressive taxation compounded by inflation, and escalating personal, private and public debt. Those who are doing this know exactly what they're doing to bring this economic holocaust into fruition. The bureaucracy driving this policy must be identified and called to order.

### **Election Fraud as Tyranny**

The 2020 USA presidential election software was found to have allowed access to the Chinese Communist Party through back door software anomalies. This is a similar phenomenon to what occurred in the last Queensland state election. Our political class has handed security and integrity of our electoral processes over to a foreign power. We cannot trust the election process. Our political class has directed their allegiance to a foreign ideology and power. They must be called to order and personally held accountable for this treachery. The political class holds no standing towards the people of Australia, having destroyed all credibility and trust. Each community must regain their own unique voice into the parliaments across this land.

### ***High treason must be called out for what it really is*** **Brief History of ALOR**

The first League of Rights was formed in South Australia in 1946. It developed from the 'Vote NO' campaign conducted against Dr. Evatt's continuing bid through all state governments to change the Constitution in order to centralise more power in Canberra. This was resisted only by the Upper House in Tasmania which forced the issue to National Referendum. Evatt tried again and failed at the 1944 wartime '14 Powers' Referendum.

### **The League's Freedom Campaign**

The League is a Christian-based service movement, that unreservedly accepts the Christian Law of Love. It does not seek political power, but is a type of political watchdog, equipped to warn the individual about threats to rights and freedoms, irrespective of the label.

No political movement can exist in a moral vacuum, and Australians have traditionally accepted that it is the Christian Faith that generated our heritage of representative government.

While the League maintains a small full-time staff primarily motivated by Christian service, it is the extensive network of volunteers from all walks of life who form the backbone of the Movement.

The League of Rights seeks to help create a body of dedicated men and women who serve, not for their own material gain, but as custodians of those truths and values which must form the basis of all successful efforts to defeat the enemies of human dignity and freedom.

The League encourages and equips individuals to independently exercise their own initiative in the service of freedom.

### **The League's Track Record**

*"By their fruits ye shall know them."*

The track record of The League of Rights is clear for all to see. When the League was formed at the end of World War II, there was widespread optimism about the future. The League stressed that the real winner of the war was international communism, that the future of the once-great British Empire was at risk, and that the drive towards the World State through the United Nations would prove a trap for the free world.

For over 100 years International Communism exerted influence on every continent, and approximately one-third of the world's population lived under Communist governments. Although the League warned that Communism required capitalist financial support, and could not feed its captive peoples, the West was caught by surprise when the Berlin Wall crumbled. Now the United Nations is emerging as the foundation structure for a proposed World State, complete with global "peace-keeping" forces.

### **Such Warnings Proved To Be Prophetic**

The League has constantly warned of the erosion of the Constitutional Monarchy as a barrier to centralised power. In the 1980's, the League again warned of the use of UN Treaties to undermine the Constitution and strip away State powers. It also directed attention to the long-term Fabian Socialist Programme of amalgamating local government into regions before abolishing the States and the Senate. This programme is now well advanced.

### **The League's Predictions Were Correct**

From its inception the League warned that high progressive taxation, and consequent social controls were inevitable under financial policies which generated increasing debt. It predicted that irrespective of the label of government, no constructive solution to high taxes and inflation was available under debt finance. The social consequences of the debt system include the depopulation of rural Australia, as farmers and small businesses are eliminated.

In 1975 the League warned that the establishment of a New International Economic Order would have a dramatic impact on Australia's industries. Following the deregulation of the banking industry, the drive toward the "global market" has meant the "restructuring" out of existence of many Australian industries, companies and employment opportunities.

### **Events Have Proved The League To Be Right**

After the dismissal of Whitlam in 1975, the League predicted that the Fraser Government had no answer to Labor's Fabian Socialist revolution, because ALP policies were not being reversed under the Liberals.

Apart from the League, few other groups dared to warn that an open-door immigration policy would fragment

a homogeneous population, jeopardising a common culture and heritage. Unfortunately, where adopted, multiculturalism has usually resulted in increased racial and cultural friction.

### **Again, The League's Warnings Were Justified**

The League has provided accurate forward intelligence because of its vast bank of information, extensive network of international contacts and an understanding of the application of policy. You are invited to make use of our services through our **OnTarget** and **NewTimes Survey** journals and websites. Our knowledge base and information reserves cover vast areas that may include just what your doctor ordered for your local situations. Drinking trough and water. \*\*

### **Douglas Social Credit Training**

Douglas Social Credit is the disciplined science of social engineering measured in terms of human satisfaction.

**DSC** looks for the Truth which governs human associations. **DSC** is found predominantly in the areas of philosophy, politics, constitutionalism, society, economics and finance. **DSC** is concerned in any other discipline which considers the satisfaction of human beings an important factor.

**DSC** Training is available in four semester workpacks, steadily developing the individual's understanding of the **Science of the Social Credit** measured in terms of human satisfaction. Our online training initiatives include:

1. **Social Dynamics Videos and Booklets** available on our alor.org/ website front page.
2. **Introducing Social Credit by Betty Luks** is built around five modules, as well as Video and Podcast discussions around the Science of the Social Credit.
3. **Intermediate Social Credit by ED Butler** includes eight written assignments, Video and Podcast discussions around the Science of the Social Credit.
4. **Advanced Social Credit** is conducted with the assistance of international experts in this science, included are the historical '*Elements of Social Credit*' by Tudor Jones, (originally produced by the *Social Credit Secretariat*), two courses including texts, Video and Podcast discussions and other reading material understanding the Science of Social Credit measured in terms of human satisfaction.
