## The (system of the) Sabbath was made for man(kind), not man(kind) made for the (system of the) Sabbath - By Arnis Luks

### Central Bank Digital Currency CBDC

*"Permit me to issue and control the money of a nation and I care not who makes its laws."*

This telling statement, whether it was or not uttered by Mayer Amschel Rothschild, illustrates the power exercised by control of the financial system for their own purposes. There is only one policy being pursued – the money policy. Was there ever a time when it was not so? Yes. We shall get to it, eventually. But not this week  
**War Cycles, Peace Cycles** by Richard Kelly Hoskins :

[https://ia802205.us.archive.org/32/items/war-cycles-peace-cycles\\_202203/War%20Cycles%20-%20Peace%20Cycles.pdf](https://ia802205.us.archive.org/32/items/war-cycles-peace-cycles_202203/War%20Cycles%20-%20Peace%20Cycles.pdf) begins with the history of usury going back millennia – interest charged for the use of money that eventually subverts (secures for the banker/money-lender's purposes) the power of the King over the entire nation.

The second chapter deals with progressive taxation (to service usury) and the many elaborate schemes utilised across differing nations and empires. Even slaves were set free, and immigrants sought, for all to enter the borrowing-at-interest milieu to pay taxes to service interest charges. There is nothing new under the sun. The financial system was built up and exploited to serve the banker, not serve the nation, nor serve the people of the nation.

'Progressive to Excessive Taxation – then **Returning to the Gold Standard** to 'repay' debt, but only from their own limited and controlled commodity (gold). This is what 'returning to the gold standard' really means. This proposed policy is being advocated for the benefit of the Banksters'. The individual or the nation count for nothing, placing all into financial slavery, with rapidly emerging steps towards world government.

Having watched 'The New Atlas' host Brian Berletic (aka Tony Cartalucci) available on YouTube, <https://www.youtube.com/watch?v=iO75E139NbY> further reading was needed. Brian Berletic, even though I describe his 'analysis' being from a 'pink perspective', was assessing the Ukraine conflict, in particular the massive loss of Ukrainian forces because of the tactics utilised and the NATO policy of 'extending an already lost war' being inflicted upon that hapless nation.

The strategy and tactics of the Ukraine forces is one of manoeuvre and counter manoeuvre of troops, a recurring 'wave upon wave' of predominantly entrenched-human-resources rather than various deployments of differing military equipment to minimise human losses. The methodology chosen, along with the protracted extension of hostilities (of 'not being permitted' to surrender), will unnecessarily cause the annihilation of the Ukrainian forces. This is the policy, as hideous as it sounds.

*...Ukraine is falling apart and can't win this war...US and European tanks are false hope and a false flag...  
Putin is stronger than he has ever been...*

This thesis of creative-destruction is reinforced by Jens Stoltenberg, current Secretary General of NATO, stating that the war against Russia started in 2014 : Ukraine's Maidan Revolution Was Not a 'Coup'.

## On War

'**The Complete Art of War**' is a compilation of four theoreticians/philosophers of war, one of whom, Carl von Clausewitz in particular I sought out. '**On War**' by Clausewitz' comes in 3 Volumes for download here:

<https://cdn.fulltextarchive.com/wp-content/uploads/wp-advanced-pdf/1/On-War.pdf>

<https://archive.org/details/in.ernet.dli.2015.279119>

<https://archive.org/details/onwar00maudgoog>

The tactic of over-extension and unnecessary protraction of hostilities is at the expense of massive personnel losses incurred within the Ukraine military services. This is the policy - the annihilation of the Ukraine forces and the destruction of their infrastructure – to build anew. The West's false promises of material resupply are forever insufficient and ring hollow to an under-supplied military. The real 'policy' is to extend the war to ensure maximum carnage of the hapless Ukrainian people. Ethnic cleansing by another name. A similar strategy/tactic was imposed upon 1944/5 Germany and Japan, as The New Atlas host Brian Berletic reported this week : <https://www.youtube.com/watch?v=iO75E139NbY>

'**Crimes and Mercies**' by James Bacque :

[https://alor.org/Storage/Library/PDF/Bacque\\_J-Crimes\\_and\\_Mercies.pdf](https://alor.org/Storage/Library/PDF/Bacque_J-Crimes_and_Mercies.pdf)

More than nine million Germans died as a result of Allied starvation and expulsion policies in the first five years after the Second World War - a total far in excess of the figures actually reported.

The Russian war machine has responded to the 'special military operation' in the Donbass by increasing production of its war-industry to ensure continuity of supply for its forces. An army marches on its stomach.

What is the West really doing with this false claim of running out of weapons? Are they re-arming for a possible World War III against Russia while Ukraine is allowed to be cleansed of its population? And if so, WHY the ethnic cleansing?

Eric Butler, in his work '**World Government Plot Exposed**' states that any serious student of history must study these two subjects in depth to gain a clearer understanding of the real-politics of history at work. These subjects being 'the Money Power' and 'the Jewish Question'.

[https://alor.org/Storage/Library/PDF/Butler%20ED%20-%20World\\_Government\\_Plot\\_Exposed.pdf](https://alor.org/Storage/Library/PDF/Butler%20ED%20-%20World_Government_Plot_Exposed.pdf)

A personal assessment of the validity or not of '**The Protocols**' can be clarified by comparing the

current 'policy' push towards world government with this 'policy' written hundreds of years ago:

<https://alor.org/Storage/Library/PDF/protocols.pdf>

The next round of books for this week was firstly by Rabbi Yehuda Halevi - '**The Kuzari**'.

<https://www.etzion.org.il/en/philosophy/great-thinkers/rihal-kuzari-rabbi-yehuda-halevi-and-kuzari>

and also '**The Thirteenth Tribe**' by Arthur Koelster  
[https://ia802801.us.archive.org/18/items/arthurkoelstherthirteenthtribe/ARTHUR%20KOESTLER%20The%20thirteenth%20tribe\\_text.pdf](https://ia802801.us.archive.org/18/items/arthurkoelstherthirteenthtribe/ARTHUR%20KOESTLER%20The%20thirteenth%20tribe_text.pdf)

The Kazarian nation from the 9th and 10th century were a warlike people who chose to convert to Judaism. Koelster's thesis is that modern USA and Israeli Jews are predominantly from Kazari, and not Sephardic origin. Sephardic Jews, also Sephardim or Hispanic Jews, are a Jewish diaspora (dispersed) population associated with the Iberian Peninsula, - modern Spain. The term, which is derived from the Hebrew Sepharad, can also refer to the Mizrahi Jews of Western Asia and North Africa, who were also influenced by Sephardic law and customs. Many Iberian Jewish exiles also later sought refuge in Mizrahi (middle-east) Jewish communities, resulting in integration with those communities.

[https://en.wikipedia.org/wiki/Sephardic\\_Jews](https://en.wikipedia.org/wiki/Sephardic_Jews)

Anti-semitism as a word is a non-sense utilised to politically and psychologically bludgeon people into silence – for fear of the Jews.

USA refuses to lift the heavy sanctions imposed against Syria, even after the massive earthquake, while USA troops hold nearly 30% of the Syrian land mass (while stripping away the rich agricultural and oil reserves). Israel overnight built on the earthquake devastation by bombing the Syrian people:

War is policy by other means.

This vast subject is dissected here to glean the underlying causes of genocide currently being exercised over both Ukraine and Syria.

Does Zelenskyy want to kill off his own people??

They were a tough warlike people, even up to 1800s. Jordan Peterson has also entered into this discussion with this interview of PM-Elect Benjamin Netanyahu discussing 'Does Israel have the right to exist?' found here: <https://www.youtube.com/watch?v=4OcaMRLTyGI>

'**A child who reads will be an adult who thinks**'

There is a lot to search out and take in in one hit, so taking a roundabout approach may be more readily digestible rather than head on. One book at a time, like building blocks to see the whole. This information is available world-wide for all who care to approach these difficult subjects and the war/genocide being inflicted upon both, the Ukraine and Syrian people.

<https://www.naturalnews.com/2023-02-16-romanian-senator-claims-turkeys-earthquake-caused-by-geological-weapon.html>

This link above to the headline, plus The New Atlas - Brian Berletic 'report', emphasises the US policy of 'siege' imposed on the Syrian people as a brutal approach to exercise empire. Clausewitz reinforces the inhumanity of war from all sides over an enemy. For the US policy makers, everyone is an enemy, even Europe. What do you call the demolition of the Nord Stream Pipelines? The US policy makers do not desire an end to the Ukraine conflict anytime soon, even if this requires the industrial crippling of Europe – an act of war in itself. Balloons or Martians are further theatre for the masses.

Reporter Seymour Hersh on

'How America Took Out the Nord Stream Pipeline'

[https://www.democracynow.org/2023/2/15/nord\\_stream\\_sy\\_hersh](https://www.democracynow.org/2023/2/15/nord_stream_sy_hersh)

Piecing this together for one coherent whole I draw some conclusions from this investigation. One being this is a joint policy of the existing US and Israel empire, while business goes on as usual behind the scenes across those other warring governments over Nuclear Energy as Green policy (as reported last week).

There is only one policy – the money policy.

**I Am Only One – What Can I Do?**

**There is Much of What You Can Do Still To Be Done**

When Eric Butler was a young man he was seen heading off on his push-bike down a country lane. A friend called out 'where are you going?'

Eric replied, 'I am going to SAVE AUSTRALIA'.

We can build onto his life's work with a similar motto 'We are going to SAVE AUSTRALIA'.

At last year's National Seminar Robert Balzola iterated the Renaissance occurred because of education. Yuri Bezmanov also emphasised the need for an entire generation to be re-educated to undo the indoctrination from our MSM, pulpit and educational institutions.

We must pursue true education, not indoctrination, or we are lost. That 'we' generation is you and I, probably closer to the blue-rinse-set than we would care to admit!

The many books I have referenced in this issue of *OnTarget* are all available from the internet for download and research. 'If you request them' from your local library, some may even become available so others could also benefit from this knowledge.

**Temple Grandin – A Visual Perspective**

[https://www.youtube.com/watch?v=fn\\_9f5x0f1Q](https://www.youtube.com/watch?v=fn_9f5x0f1Q)

Autism activist Temple Grandin talks about how her mind works -- sharing her ability to "think in pictures," which helps her solve problems that neurotypical brains

ON TARGET

might miss. She makes the case that the world needs people on the autism spectrum: visual thinkers, pattern thinkers, verbal thinkers, and all kinds of geeky kids.

My mother recommended we watch the video titled '**Temple Grandin**'. We were delighted to see the great value that comes from collaboration from differing perspectives. Every individual is thoroughly unique and able to contribute to this 'great conversation' we call society and civilisation. Temple Grandin is a master visual-thinker (seeing from the animals' perspective to minimise distress) and she re-designed methods and systems to handle cattle through abattoirs and stock yards, which delivered a higher quality end-product and increased returns for the owners.

Dogma of the 'collective' stifles individuality and severely limits opportunities for creative expression. We cut ourselves off from a greater kingdom (whereby society is enriched) when we shut down alternate voices. Every voice counts and should never be limited to just the few. This business of 'those things which cannot be spoken about in case someone is offended' must be put back into its totalitarian box from whence it came. We need more, not less 'open thought and discussion'.

Last week I wrote of the Iain Davis article in regard to the back room discussions across warring governments, in this case about Green Energy – Nuclear, which also includes Nuclear Weapons. Russia, USA and Britain, (and China also I would expect) all work collaboratively towards only one policy – the money policy. Each nation's Central Bank have simultaneously been trialling and are now introducing CBDC – Central Bank Digital Currency - ***Permit me to issue and control the money of a nation and I care not who makes its laws.***

This financial instrument will circumvent all nations from pursuing their own purposes. CBDCs will place dominance by the international central banks into a permanent position of power over all nations, all governments and all institutions, having already gathered (through irredeemable debt) all the assets of the world. This is a great evil inflicted against the whole world. That the organised church is silent but aware of this great evil is an indictment of their own complicity.

This enslavement to irredeemable debt is a denial of the creative spirit within each of us – the mark of the Maker, that every person is unique; differing in an unfathomable multitude of ways from the person next to them. The collective is a denial of this Truth of every individual - the stifling of the creative impulses that can be reflected within each person in a similar unfathomable multitude of expressions. Temple Grandin is but one expression of this uniqueness within us all. We are created in His image and are created to be creative. This is all lost under the cloak of collective totalitarianism.

Science as 'settled' is a lie. True 'science' is forever being challenged and the boundary of current knowledge is ever being pushed further out by every new enquiry.

Creativity comes from as many disciplines as there are stars in the sky. One person placing their own thoughts onto the 'table of ideas' stands or falls as soon as it is shown wanting from another perspective. The 85% 'replication crisis' of all scientific papers is only the tip of the iceberg of knowledge-fraud committed in every discipline. We must go back to first principles of 'knowledge' constantly revue and challenge in an endeavour to understand reality - the Truth or the Canon.

***The replication crisis is an ongoing methodological crisis in which the results of many scientific studies are difficult or impossible to reproduce. Because the reproducibility of empirical results is an essential part of the scientific method, such failures undermine the credibility of theories building on them and potentially call into question substantial parts of scientific knowledge.***

The three disciplines of Grammar, Rhetoric and Logic – the Trivium, were once the foundational approach taught through educational institutions. The use of words must impart a known and agreed meaning, so when 'propaganda words' trigger a psychological response instead of an accurate meaning, language becomes a confusion, an opportunity to stifle discourse and thought. The high ground is that each word conveys a specific thought. Grammar becomes a foundational necessity for every discipline. Rhetoric and Logic purify knowledge.

The '**Publication Manual of the American Psychological Association**' has set the 'publication standard' for all disciplines, although the manual is specific for their own association. It is a resource that has become part of my reference library. Writing and Reports needs a framework. This 'publication manual' sets that framework around every report or document.

#### **The Catechism states:**

I. The life of man – (is-ed) to know and love God. God, infinitely perfect and blessed in himself, in a plan of sheer goodness freely created man to make him share in his own blessed life. For this reason, at every time and in every place, God draws close to man. He calls man to seek him, to know him, to love him with all his strength. He calls together all men, scattered and divided by sin, into the unity of his family, the Church. To accomplish this, when the fullness of time had come, God sent his Son as Redeemer and Saviour. In his Son and through him, he invites men to become, in the Holy Spirit, his adopted children and thus heirs of his blessed life.

The final work for this week's reading is by Capt AHM Ramsay '**The Nameless War**' : [https://alor.org/Storage/Library/PDF/Ramsay%20AHM%20-%20The\\_Nameless\\_War.pdf](https://alor.org/Storage/Library/PDF/Ramsay%20AHM%20-%20The_Nameless_War.pdf)

Ramsay covers an analysis of the British, French and Russian revolutions as a continuance of a common policy. He finds the 'Levellers and Rationalists' of Britain who performed regicide to bring Oliver Cromwell (spelt Cauin) into power, were also present in France

and Russia during their tumult. Today's differing names are Communist and Anarchist, but their purpose and strategies are identical - to sow confusion and cause sufficient chaos that the people are unable to come together to protect themselves and their civic structure.

#### **The Money System 'As Is' Has Already Collapsed**

The covid crisis was also a 'financial crisis' that demanded an injection of massive amounts of further debt/credit in order to continue operating until CBDCs were ready to be put in place. The pretence of covid allowed these massive injections of new debt into nearly every household across the free world to keep the financial system operating and stable for a little longer. The debt levels are irredeemable and most industry became bankrupt overnight. Qantas was not the exception with massive financial injections, but rather the rule. Cutting nations across to the gold standard will only benefit the central banker. They already control the gold market and will ensure debt can never be reconciled.

The money system must be reconciled - re-orientated to serve man, not man to serve the money system. The Christ meant exactly what He said and we discount those words to our own peril and for generations to come.

CBDCs will ensure impoverishment for everyone while placing all our worldly assets into the hands of the money power – beyond reproach from all 'elected' governments – ***you will own nothing and be happy.***

This is a battle to the finish line shown Truly - of freedom of the individual (to pursue those things that may be of interest to that unique person alone), or succumbing to the slave state. This battle ahead is for those not yet born, who may never know of what was at stake at this critical time of history.

Are you up for SAVING AUSTRALIA, and by yours and my actions combined, perhaps showing the way for others to help themselves to save the world. This is the calling for this generation. A war of the mind and spirit rather than a physical battle, but a war none the less.

What say Ye? - I turn to Christ. \*\*\*
