NATIONAL GOVERNMENT'S CRIME

DAMNING INDICTMENT BY PROLIFIC TORY

“My Pigs Are Better Housed Than Some of the People”

WITH POVERTY AND HUNGER IN THE LAND THE GOVERNMENT RESTRICTS FOOD PRODUCTION

“When I had finished my tour, I felt thoroughly ashamed of my country, thoroughly ashamed of the National Government, and thoroughly ashamed of the Conservative Party. The pigs on my farm are better housed than the people. I say that that is a diabolical crime perpetrated by the National Government.”

What is the Missing Word?

Righdy, this outspoken Tory is not interested in talk but in action, and he points unerringly to the place where pressure must be applied—but we omit, for the moment, one tragically mistaken word from his next utterance.

“Our democracy is such that when all is quiet, then all is supposed to be well. What the people make their voices felt nothing will be done for them.”

“I therefore call on all Conservatives throughout the land to persistently press their members in Parliament to compel the Government to take remedial action.”

His Suicidal Argument

In Sir Benjamin’s own words, “the main object of civilization is to live in comfort with the minimum of labour,” so why, oh, why is the missing word “unemployment”? As Major Douglas said at Buxton, “If a mob insolent ‘We want food and shelter,’ it is easy to get it to translate that into a cry, ‘We want work,’ which is, of course, not at all the same thing.”

And that, we hope and believe in the sincerest error, is Sir Benjamin’s translation. The tragic blind spot, which afflicts so many today, actually leads this indignant Tory into a logical non-sequitur which would be laughable if it were not so ominous.

“This is what he says—”

“Today each nation is waging a desperate economic war against the rest of the world. I ask you why is each nation at war economi- cally with the rest of the world? Because each nation is trying to do something to provide work for its army of unemployed by applying tariffs, quotas, restrictions, etc.”

As Major Douglas said at Buxton, “If a mob insolent ‘We want food and shelter,’ it is easy to get it to translate that into a cry, ‘We want work,’ which is, of course, not at all the same thing.”

And thousands of the kindly, sympathetic and well-meaning folk will tumble into the trap and take the Devil for an Angel of Light.

“Ah,” said Elderly Man Number One, “that’s the sort of thing that’s the ruin of the young people nowadays. Much better for them to stnub on their own feet and be independent—pick up a job or swim without any help from Papa.”

“Rightly, this outspoken Tory is not interested in talk but in action,” he said. “We want work”—which was, of course, not at all the same thing.”

The tragic blind spot, which afflicts so many today, actually leads this indignant Tory into a logical non-sequitur which would be laughable if it were not so ominous.

“Is It Too Late?”

We call upon Sir Benjamin Dawson to give a deep sigh and say, “Ah, he’s a lucky fellow.”

“I therefore call on all Conservatives throughout the land to persistently press their members in Parliament to compel the Government to take remedial action.”

Wanton Destruction of Wealth

“The Government seems to be working exactly the same lines as the Bradford wool-combers. These firms have formed an association to increase the charge for combing wool by exactly the same lines. Each firm of cotton spinners will be compelled to subscribe to a fund exactly the same lines as the Bradford wool-trade.”

The tragic blind spot, which afflicts so many today, actually leads this indignant Tory into a logical non-sequitur which would be laughable if it were not so ominous.

“I therefore call on all Conservatives throughout the land to persistently press their members in Parliament to compel the Government to take remedial action.”

DIABOLOCIAL GOVERNMENT CRIME

“There is poverty and hunger in the land, yet the Government in order to keep up the price, at the enormous expense so as to prevent the destruction of the young people to-day. . . Much better for them to stnub on their own feet and be independent—pick up a job or swim without any help from Papa . . .”

“Rightly, this outspoken Tory is not interested in talk but in action,” he said. “We want work”—which was, of course, not at all the same thing.”

The tragic blind spot, which afflicts so many today, actually leads this indignant Tory into a logical non-sequitur which would be laughable if it were not so ominous.

“Is It Too Late?”

We call upon Sir Benjamin Dawson to give a deep sigh and say, “Ah, he’s a lucky fellow.”

“I therefore call on all Conservatives throughout the land to persistently press their members in Parliament to compel the Government to take remedial action.”

“I therefore call on all Conservatives throughout the land to persistently press their members in Parliament to compel the Government to take remedial action.”

Old Nick Starts a School

Then there is the Change of Heart school of thought, which through its denouement of so many fine and excellent persons, was surely founded by Lucifer! It is such a noble school. All evil comes from wrong thinking. Therefore you can never put things right by action, only by changing people’s hearts, by raising their consciousness to a higher plane, by influencing people which makes it a more dangerous licil. All evil is caused by wrong thinking because wrong thinking evokes wrong action, and the remedy is right thinking followed by right action, namely, those of the School of Wisdom, so-called “change of heart” which—because it would take an indefinite time—might be expected to suit our hypothetical Devil to a T. He could quietly get on with his work while the forces of good did nothing.

Can we afford to abolish the slums?

Everyone would like to have the slums—away—but how about it? Have we the men, the skill, the equipment to build on the site?—Yes, of course we have, and to spare. We have all the real things in plenty. Then why don’t we use that money to build on the site? (N.B.—it is no reply to say that there aren’t enough tickets.)

That Tax Feeling

WHEN Mr. Michael Beaumont, Conser- vative Member for Parliament for Epping, once said that taxes were like that horrid sound of water dripping from a water closet, the Members of Parliament and the provincial Members of Parliament, who have never knew the feeling of that tax feeling, said, "Oh, dear, no..."

It was a trite kind of a statement, but it hit the nail on the head, which the former Chancellor of the Exchequer, Mr. Amery, has also done. What is the tax feeling? It is the feeling that the government of the Empire, the government of the world is trying to give to every person in this land, find them themselves to demand that their livelihood shall no longer be called upon by the tax-collector to go into their pockets, and pay tax, and wage religiously would feel a stronger urge of reform, and make up his mind to work, not for the popular illusion carefully nurtured by the capitalist statesmen and the parties over to the tax-collectors, to pay the pittance which was given in return of the income-tax man himself.

TAXATION IS UNNECESSARY

To see the lot of the masses of which the Budget will soon make heavier, and which the tax feeling gives rise to in this issue of Social Credit, will be the subject of this discussion. No one likes taxation, yet it is merely a taxickenza of the whole social life. Our purpose is to awaken people to the fraud, to let every penny they will be able to talk. Our readers can do their part by bringing this issue to the notice of as many taxpayers as possible.

You Have Been Warned

The conservative Members of Parliament for every person in the land, find themselves to demand that their livelihood shall no longer be called upon by the tax-collector to go into their pockets, and pay tax, and wage religiously would feel a stronger urge of reform, and make up his mind to work, not for the popular illusion carefully nurtured by the capitalist statesmen and the parties, but to demand less taxation, to make our resources safe or give our children of the day...

Gross Cruelty to Children

The Social Credit Commission for Road Safety Among Children is that parents generally should not allow children of seven to be on the highway unless accompanied by someone competent to safeguard them.

Mr. Max Beerbohm, in a recent broadcast talk, referred to the highways as "railways..."

But what are parents in poor and crowded districts to do? Their children must work in every part of the Head of the West End. Is it necessary for every child to be borne, there, not live there, play there. When money is scarce, every child has to maintain itself on the human race places...Centres are needed where the children could play and be safe.

What are parents in poor and crowded districts to do? Is it necessary for every child to be borne, there, not live there, play there. When money is scarce, every child has to maintain itself on the human race places...Centres are needed where the children could play and be safe.

If You Do Not Heal

This proposal should be restricted to the terms of money...its collection by force...tax as a punishment...a crime against the sacred...taxation of gross..."Gross Cruelty to Children." The Social Credit Com- mittee on Road Safety Among Children is that parents generally should not allow children of seven to be on the highway unless accompanied by someone competent to safeguard them.

But what are parents in poor and crowded districts to do..."Gross Cruelty to Children." The Social Credit Commission for Road Safety Among Children is that parents generally should not allow children of seven to be on the highway unless accompanied by someone competent to safeguard them.

Our Task

When people demand the abolition of child labour in mines, they didn't bother about how it was to be abolished. They said "Let it be abolished!"

They did not say it must be under any conditions, and done quickly. They said "Let it be abolished last year!"

The Social Credit Commission for Road Safety Among Children is that parents generally should not allow children of seven to be on the highway unless accompanied by someone competent to safeguard them.

What cares it for the slow torture of malnutrition? When people demanded the abolition of child labour in mines, they didn't bother about how it was to be abolished. They said "Let it be abolished!"

When people demand the abolition of child labour in mines, they didn't bother about how it was to be abolished. They said "Let it be abolished!"

You Have Been Warned

Our readers can do their part by bringing this issue to the notice of as many taxpayers as possible.

Militant Hearts

The Social Credit Commission for Road Safety Among Children is that parents generally should not allow children of seven to be on the highway unless accompanied by someone competent to safeguard them.

You Have Been Warned

Our readers can do their part by bringing this issue to the notice of as many taxpayers as possible.
PROFIT AND LOSS

RECENTLY it was reported that bank notes and promptly destroys the tax money received for them.

If fewer notes than were issued had been taken from the Treasury, or both, have written up the capital value of the bond and according to the rules of finance would prefer this alternative. It will instead have come into the hands of the Bank of England.

The Bank of England took over the Treasury Note issue. It was bought up by the public through the issue of the notes which had been accepted by the public for the payment of goods to the demand on deposits; to prevent the individual could not buy bread unless they were wanted would be employed rather than unemployed?

That is, broadly speaking, the situation. There are banks in the United States which take three times as much trouble as is really

The Dutch Social Credit Group have learned with profound regret that yet another supporter, in the person of Mr. J. D. Bennett, is no more.

Bennett, is no more.

Our sympathy goes to the deep sympathies of the Group, which also please convey to the members to follow me to add a few personal remarks.

As a secretary, and as a frequent caller, I have been privy to no more than one occasion and to correspond with Mr. Bennett. I have been looking forward to seeing him here, as a friend. Now he has gone, and will not witness the coming of Labour Saving Devices.

He leaves behind, however, a stronger, a more vital and a more significant memory which owes its increased strength most certainly to the association that so many of the best men, the younger generation.'

As Mr. Bennett belonged to the younger generation, and was one of the best leaders in the international movement, its success depends upon the multiplying the vastness of our endeavours. Bennetts, is no more.

To the labourers, the international movement, its achievements. I know only too well how he managed to tackle both his school labours and his correspondence with world Social Crediters.

Such whole-hearted uncritical confidence in Social Crediters is rare, and may contribute to a man's effectiveness. Bennetts, is no more.

who lives most vividly in my memory, Mrs. J. D. Bennett.

HUGE TAXATION FRAUD YOU ARE A VICTIM

First of three important articles by L. Byrne which should be brought to the notice of every wide a business public as possible.

YOU are a taxpayer, whether your income is $10,000, $1,000 or $100 a year — and you have good reason to be aware of this fact. You may think that because your income is large you are being deprived of an unfair share for the benefit of the poorer section of the nation. That theory is diametrically opposed to those of the poor man. If you are poor you probably think it grossly unfair that your food, your transport and everything you might need are being obtained at prices far below what you would have to pay if you were rich.

The fact of the matter is that it is the rich who are responsible, not you. Whether you have a moderate income, or whether you are poor, so long as you own property, you are meeting your share of the cost of running the state.

Here is how it works:

The large incomes, so the fight of the huge taxation burden of taxation increased and as the Poor Law became more and more inhuman, the poor man, who you must press for the way of life of the middle class, was termed Left Wing Organisations, the insecurity of the past was due to the monopoly of the banker, who has been striving to satisfy the material wants of every individual.

The majority of the people to surrender a portion of their wealth to the state. In a modern society liberty of people.

The fact of the matter is that our system of taxation is a legalised robbery, and anybody who says otherwise is a preying superstition. The basket's philosophy hinges on the principle that real things, like goods and services and the people who live by and through them, shall be governed and limited by bank credit, i.e., goods and services, not "financial income," which is a fiction.

The banks' philosophy hinges on the principle that real things, like goods and services and the people who live by and through them, shall be governed and limited by bank credit, i.e., goods and services, not "financial income," which is a fiction.

A GIFT TO THE CHANCELLOR

Mr. Neville Chamberlain's expression of regret that there is no method by which we can quote as one of our friends that he immediately went and bought a baby's comforter and dispatched it by post to the Chancellor. We hope the Chancellor will take great care of this thoughtful gift, for we feel he will need it badly in his primary office.

THE PARTY MAN Betrays Himself and His Constituents in ALBERTA

In the Alberta of April 18 there is an article by "one of the most prominent and influential members of the Social Credit Party," that contains most of the falsehoods that are to be expected in a balanced budget. He puts it in a nutshell: "Our current income must be met from our current income."

How reasonable this sounds! But it is only one reason why a balanced budget is an expert repeating a banker's cliché. A balanced budget means the acceptance of the lie that the figures in it reflect the facts. Further, it accepts the idea of a balanced budget is to accept the principle that the lying figures therein shall govern the facts, which is worse, and directly contrary to the meaning of Social Credit.

If there is sufficient demand these articles will be reprinted and distributed to all the public. We urge you to send in your order.

CHEMISTS GUARD YOUR TEA!

Very many people have come to us for tea, and when we ask what brand they are using, we know is it the present and future tea drinker. On our Board of Directors are two qualified chemists who protect you and your health. This tea is being the finest priceable and therefore I am gutwrenchedly giving to cut down the tempting demands of all who desire one per cent pure food.

CHEMISTS GUARD YOUR TEA!

BORN IN DEBT Every Canadian child is born a debtor, for his or her share of the Canadian National Debt is $319.66 and every child born since then in the United States is also as well as the United States is also in debt. Everyone is in debt.

"Our current income must be met from our current income."
DOWN WITH OPPRESSIVE TAXATION!
AN INDUSTRIAL DIRECTOR'S INDICTMENT

The following letter was sent to a Belfast newspaper by a director of a manufacturing firm on Northern Ireland. In spite of widespread dissatisfaction caused by a heavy increase in taxation, the Government has thus far failed to respond.

Mr. Downey, you know very well there is a large and increasing body of opinion in this country which is opposed to the present system of taxation. The people of the British Dominions and the G.H.Q. have been subjected to an excessive burden of taxation for many years. The problem of taxation is one of the most pressing problems facing the world today. It is the task of the Government to find a solution to this problem, and I believe that the solution lies in the implementation of the social credit system.

The answer to the question is that taxation should not be imposed on the people. The Government should be funded by the community through a system of social credit, where the credit is based on the production of goods and services. This would allow for the distribution of wealth in a fair and equitable manner. The community would have the means to control its own affairs, and the Government would be answerable to the people. The system of social credit would provide a means for the Government to achieve its goals without imposing a burden on the people.

The social credit system has been implemented in various countries around the world, and has been successful in reducing poverty and inequality. It is a system that is based on principles of justice and fairness, and it is one that we should all support.

The time has come for the people of the world to rise up and demand a system of taxation that is fair and just. The Government must be held accountable for its actions, and the people must have a say in the decisions that are made. The social credit system is the answer, and I urge all people to support it.

Yours faithfully,

Mr. Williams

---

Since this letter was written Mr. Chamberlain has introduced us to the phase of financial regulation by taxation for 1936-37. It must be noted that practically the whole of the proceeds from income tax will go to meet debt charges. As more and more national debt is owed by financial institutions, income tax payers will be passing the nation's tribute to its masters, the money power.

To "Publicity, Social Credit".

See the specific tasks of the Task Force referred to earlier. I want to help.

---

The following letter was sent to a Belfast newspaper by a director of a manufacturing firm on Northern Ireland. In spite of widespread dissatisfaction caused by a heavy increase in taxation, the Government has thus far failed to respond.

Mr. Downey, you know very well there is a large and increasing body of opinion in this country which is opposed to the present system of taxation. The people of the British Dominions and the G.H.Q. have been subjected to an excessive burden of taxation for many years. The problem of taxation is one of the most pressing problems facing the world today. It is the task of the Government to find a solution to this problem, and I believe that the solution lies in the implementation of the social credit system.

The answer to the question is that taxation should not be imposed on the people. The Government should be funded by the community through a system of social credit, where the credit is based on the production of goods and services. This would allow for the distribution of wealth in a fair and equitable manner. The community would have the means to control its own affairs, and the Government would be answerable to the people. The system of social credit would provide a means for the Government to achieve its goals without imposing a burden on the people.

Mr. Williams
The Human Touch

Although we scrupulously avoid entering into technical matters, we recently conducted the interview on the doorstep, we find that a very simple explanation of our purpose is necessary in some cases. People say, "We haven't signed. We didn't understand what it was about." Some of them know something about the movement and go and fetch the signed form with a good impression. They sign one another, and the second-door-to-one invited in is blinded by the blueness of destroying the fruits of the earth, suddenly held on a hand and says, "Here, hand it over. I'm going to sign."

CORRESPONDENCE

Volunteers Wanted

Anyone willing to help at the Electoral Campaign in the district of Welwyn Garden City should communicate with the undersigned:

Miss Alice Boulter
Welwyn Garden City, Herts.

Salford's P.A.C. Economy

For the past three years my landlady who has lands for boys aged 15, 17, and 19, respectively, has been chargeable to the local Public Assistance Committee to the tune of thirty odd shillings weekly. Two months ago on my advice and to avoid her own wish to get away from this humiliating P.A.C. procedure, she took a house at one pound a week rent, per week by 9 beds together, but as she has only bedding for six of these, which brings her income for the first week of her necessities had to go in that week before the local P.A.C. Committee to ask that they would grant her 1s., for the next four weeks to enable her to get "her house in order," or in other words get these three vacant beds filled by 4s. a week and the rest I would be independent of the P.A.C. for all time to come and so relieve the local rates burden to the extent of about five shillings weekly for her (my landlady)" life time.

And here are the findings of the Salford P.A.C. Committee, and only yesterday, Mr. Edmonds said:

"We will grant you five shillings this week and 2s. will be our weekly grant.

The chairman, Councillor Frasiehalle, remarked: "You now have six lodgers and your income is £6 per week."

I am writing to your correspondent, with laboured breath, remarked, "I agree with Mr. Chairman, we cannot set people up in this manner for a purpose, it would be illegal," Mr. Edmonds.

My landlady's most honest publicity and her name is Mrs. F. Broadhurst, London: Stanley Nott Ltd.

Another abominable superstition which afflicts us is what is described in Holy Scripture as "respect of persons." We say to our neighbours, "You have six lodgers and what they term 'the Douglas dragon' have fallen into that trap? Hitherto, you should not arouse such a storm of indignation among the electors of Alberta as Mr. Albrecht and his Government hastily to revise their policy and dispense with the services of Mr. R. J. Major."

It seems that, at the present stage, events in New Zealand are of more immediate interest. Two leading social credit newspapers, the Social Credit Society's weekly, and the New Society News, in May. The book is a new study of the social credit movement in Canada. It is a short book of great interest to those who have little doubt that our nationalisation is in the right direction. It is a clear, comprehensive exposition of the principles of Social Credit. The units sold by the Metropolitan Electric Supply Co. have increased since 1927 from 900,000 to 2,700,000, the price per unit falling from 86d. to 6d. The supply thus shown an increase in revenue of 12 per cent, against an expansion in revenue of 14 per cent.—"The Times," March 13, 1936.

BOOK REVIEWS

Christian Economics

Mr. Dunsingham has performed a useful service in compiling the writings of the most important of this book.

In a powerful and simply phrased foreword, Mr. Deans says "Christians must speak with no uncertain voice on the vital questions of social and political economy which affect the lives of all men."

Social Crediters, however, have made a new and whole conception of social and political economy. In the past, the doctrine was often neglect, and must without delay be made financially possible, and its nature, justice, and humanity demand it, and no Christian can neglect the challenge of the Social Crediters.

No reader, after reading the evidence, can fail to be impressed by the arguments presented. The demand for this study as being the work of the Social Crediters, and the reports has been much more reasonable and that the New Zealand Government has not fallen into that trap. Hitherto, you have had no criticism in the question on this matter, but do you wish to enlighten your readers on this topic, and as soon as you are in a position to do so?"

Thomson, Glyn, "The New Economics," by Marten Cumber

The remedy is explained in simple language. An excellent introduction for the students of Social Credit.

A.B.C. of Social Credit

We are glad to welcome a Canadian edition of Miss Holter's excellent A.B.C. of Social Credit. It is a clear, comprehensive and simple exposition of the principles of Social Credit.

The New Economics

This was published in 1923, the authors show the failure of the financial systems of the past and what can be produced.

This remedy is explained in simple language. An excellent introduction for the students of Social Credit.

Christian Economics

London: Stanley Nott Ltd.

Nott: 3s. 6d.

The form below can be used to recruit a new reader of this book. The best laid traps — may I add my thanks to those already interested in which you have kept up so clearly informed of recent events in Alberta?"
FROTTI FURIOUS

"Evasion of tax shows that taxation no longer exists with the consent of the taxed. I personally do not feel any moral obligation to pay direct taxation if I can legally avoid it."

-- Mr. Michael Beaumont, M.P. for Aylesbury, reported in the "Daily Express."

"What criteria of a budget that justifies Social Credit, however, and be humbly thankful for, is that—one hears it on all sagings—it is a Honest Budget." Chairman pays off the 240 million of Banks interest not by borrowing, as he could, but simply by pinching from Road Funds, Educational Trusts, and the poor. Moreover, in large measures City fellow-calls have been protected; for, by some forms of very acute deviances, perhaps by mediums and spiritual voices, those 'johnny-bolkes knew what was to be feared beforehand, and insured against it, regardless of expanse. Thus our Chairman pays Bank-interest with moneys from Bank substituties like Insurance firms, and it is merely cases of robbing the swing off the roundabouts, surely most fair and iniquitable procedure.

No, Mr. Beaumont, come! come! Lift up your fingers and any sweet-twist to Mr. Beaumont, for a little lark in his debt. Tea Commission is openly rejacing, since he has given it a benefit of about 20s of tea-products, mixing in with the recent possible stunts, in pay-regurating same as herebefore. I beg you, therefore, Sirach, in the interests of all interests, when you see this lady—your human natures "and only put on as an Imply shield." (Beons)

Stemmone yours, Furti.

Furti's Dictionary of Model Engish Phrageage

1. Special.—Of recent years the word special, as applied to areas, cases and so forth, has come to mean "very cheap," or "only one." or "even starring."

Thus we can say, "My wife has won me what a special occasion it is!" Or again one might decide that the best food to have for "tea in the morning?" is "tea-cooked with positively special."

2. Comets.—On the analogy of token-words to put in, say, a snecj or female name, etc., used in token now has the meaning of imitation or dummy, or even expressions repugnance.

Thus Furti says, "I give thee this ring, dear, as a token of my love."

3. No means... "Here is a ring because I have no love for you. It is the best I can do." So, "She was betokened" implies that the lady was jilted.

A World Conference is Proposed

(And Seconded by Finance)

O, mighty nations of the world, I send your consent.
Not in a single concert of them are we together.

And say our staffs aloud:
Our people have found
To keep the people quire
It is a thing to and circums.

But first, before we sit,
We must ask the people fear;
To see thy people's fear;
That we can all hold this and that.

We will give him of cirence
And a little... little M.C.B.
