20,000 Prevent Threatened Rates Increase In Belfast

Rise of 4d. Was 'Inevitable'

By forcing the withdrawal of an announced increase in rates Belfast ratepayers have again shown how irresistible is the force that comes from people acting together to get something that all demand.

In early February, immediately after a general election, the Belfast Corporation Finance Committee announced that the rates would be increased by 10d.

Nearly 75,000 in a combination of ratepayers' associations had united to form a new united committee, to which all local ratepayer associations were invited to send representatives.

The planning they adopted was similar to that used successfully in November when they opposed the proposed expenditure of £500,000 on new offices for the Belfast Water Commissioners.

All ratepayers who opposed this rise in rates were asked to append their signatures to a demand, directed to the councillors, that no increase should be made.

Press Gave Publicity

This information was given to the local press and also to the Northern Ireland edition of the Daily Express and the Daily Mail, all of which gave the campaign publicity.

This was on February 15.

Next day the Finance Committee met, and after considerable cutting and pruning of the various departments' estimates announced that they could reduce the rates increase to 4d., but that was all that was possible.

A full meeting of the Council was to be convened for the following Wednesday, February 23, in order to confirm the new rate of 10n. 4d. The calling of this special meeting was very unusual, as in the ordinary way the Finance Committee's recommendations would have been debated at the following meeting, which would have been March 1.

House-to-house canvass

Demand forms and posters were ready by the evening of Friday, February 18. Members of the ratepayers' association went into the campaign whole-heartedly, and that evening more than 300 volunteer workers, directed by Mr. W. J. Gibson, the Hon. Treasurer of the Association, assisted every true democrat will cheer and to The People's will; and to demand the National to The People's will, and to demand the National

TICKETS, PLEASE

A LIVERPOOL woman who cowered a relative to Lime Street station for one of the Sunday excursions to London found on arrival at the station that all the platform-tickets were sold out. Eventually she discovered a ticket collector who, by a stroke of luck, had retained a used and crumpled ticket, which she gladly purchased.

Answer To Those Who Would Soak The Rich

The annual report of the Inland Revenue Department shows that there are 81 persons with an annual income of more than £100,000, 71 with between £75,000 and £100,000, 178 with between £50,000 and £75,000, and 536 with between £30,000 and £50,000.

Those who believe in docking the rich as the cure for our economic troubles would do well to calculate how much each of the 40,000,000 odd inhabitants of Great Britain would get per year if all these big incomes were pooled and redistributed equally.

It works out at about 30s. On the other side of the picture, out of 91,000,000 odd income of more than £100,000, 71 having an annual income of more than £100,000, 71 with between £75,000 and £100,000, 178 with between £50,000 and £75,000, and 536 with between £30,000 and £50,000.

This shows the immense gulf between potential real wealth and actual financial worth.

NOTICE how the democratic action for which we stand is spreading away. It is less than two years since Major Douglas first spoke about "that hole in the road." Early successes were small, but they rapidly increased in number and intensity.

Then came the Sheffield triumph last autumn, when 30,000 people participated. Last week came Kinsley Wood’s re-valuation postponement, and now, right in its heart, comes the glorious victory at Belfast.

Every success in turn has been won by individuals working in association — by individual brains, individual energy, and donations (sometimes infinitesimally small) from the pockets of individuals.

Behind each new drive stands the Secretariat guiding, inspiring, teaching, quickening. It is a movement upon individuals, their personal abilities and support.

So far as I have been trying to get a shorter working day for two years; they’ve already tried that twice and we are only six and a half years back and we haven’t got what they want yet. Perhaps this fact explains the forming of a new union by some of those who were prominent during the strike and who are dissatisfied with the membership of the new union will be restricted to passenger transport workers.

The New Religion

THE cocoa burnings in West Africa have been carried out, it is reported, with ruthless efficiency.

The usual "bash-hush" procedure of appointing a Commission has been put into effect.

Mr. Ormsby-Gore, Colonial Secretary, has appointed a Commission to "investi- gate the cocoa position in West Africa." One of the Commissioners is the Rt. Hon. Mr. R. O. L. Smith, the present chairman of the Rubber Trade Asso- ciation. The other member is a past chairman of the Rubber Trade Asso- ciation.

The business of whitewashing the restrictive practices at the cocoa plantations is the cause of the present of the new religion of more and more, and everything in the world.

Membership of the new union will be restricted to passenger transport workers.

Who Is The Criminal?

This ex-offender now finds himself stranded without a job, and has been neatly tempted to resume his old profession of crime.

Here are his own words (reported by the Daily Express): "What I want to know is, why trouble to give a crook the best treat- ment science can offer, turn him out a new man, then leave him to crime or the river?"

There must be hundreds of cases similar to the above, where people are driven to crime and desperation because of an idiotic system of rewards and punishments which was built up by the old religion.

MRS. PALMER:

And The Banker Just Laughs

At This Eternal Fight

MIDDLE CLASS

WORKING CLASS

THERE is a struggle between the "have" and "have-nots," which the bankers seem to enjoy so much, broken out with renewed vigour if it leaves your columns of an evening paper the week before last.

This time it was a member of the middle classes who opened fire.

"It has been calculated," he writes, "that us an increase of 970,000 in the black-coated workers'

"Some of them are wrapped in cotton wool from the cradle to the grave. This and begins with maternity benefit and leaves you free through milk and meals, education and dentures and spectacles and doles and old age pensions and other advantages.

"If we heard of a law to compel a mechanic with a wage of 10s. a week to give the unemployed, we should all be indignant. But look at a doctor.

"His fees may reach £100 per annum, but much of this sum is swallowed up in unavailable demands; he is heavily taxed for our social services.

"Formerly our people had a sturdy sense of their dignity and were ashamed to seek the help of the State. But now we are swarming with Oliver Twists everlastingly of their dignity and were ashamed to seek the help of the State. But now we are swarming with Oliver Twists everlastingly.

In passing we pause to ask why, if it is so advantageous to be poor, so many of the "working classes" try to push themselves or their children up into the ranks of the black-coated working class in the breast of everybody. At present it seems almost extinct.

"We must try to recreate the two classes of character. For it is a change of character, and a very serious one at that.

"There are many yeoman farmers, living on their own land, working very hard, perhaps, but enjoying a freedom which is quite unknown today.

"Not for them the burden of income tax, nor Marketing Board regulations, or quotas. They would not have tolerated them for one minute.

"They have been taught to consider themselves of no value at all, except as so far as they can hold down a job, which is in perpetual progress of being taken away from them by further advances in inventions and discoveries.

"They are driven to the cradle and to the grave that all they have any right to expect is State charity, which can only be paid for by sucking the rich, and for which they must be duly grateful.

"Did they say they possessed nothing? Rather are they the heirs to uncollected wages, wrong kept from them by those very bankers who are gleefully watching the fight between the "haves and have-nots."

"For those clever toilers of the past, many of whom have sunk into obscurity, added their own knowledge to the great store. Which became a drug in the market.

"The process is now complete. You have large numbers of working class people today who possess nothing except a few shillings left over from last week's wages, a few shabby clothes, and a few suit of furniture.

They have been taught to consider themselves of no value at all, except so far as they can hold down a job, which is in perpetual progress of being taken away from them by further advances in inventions and discoveries.

"Did they say they possessed nothing? Rather are they the heirs to uncollected wages, wrong kept from them by those very bankers who are gleefully watching the fight between the "haves and have-nots."

"For those clever toilers of the past, many of whom have sunk into obscurity, added their own knowledge to the great store which exists today for all, and from which every one of us should now be drawing a "National Dividend."

But only the bankers and their toadies are interested in the "have-nots."

The following day, in the same paper was published a "blazing attack on the middle classes," written by a man who understands no more about the problem than his opposite.

"Neither of them realise that money is only tickets, that it has no value in itself. Its only use is to allow a proper share of goods to be distributed to every one from the great pool which is owned by all, and that if there aren't enough tickets, the only sensible thing to do is to order the bankers to see that there aren't enough tickets.

"But the Banker stands in the background. He is laughing at the fight that is going on between the "haves" and "have-nots."

"Why not stop for a moment and give your undivided attention to the man who has set you against one another?

"He is your real enemy - and unless you take this pretty soon, it will be too late.

For before long he will have you fighting like two Kilkenny cats tied up by the tails over a clothes line.

"And the end of that will be death to the poor and the rich alike.

VIO MUCH TIN

In view of the fall in the price of tin, the directors of East Pold and Agar, Limited, have decided that the pumps should be withdrawn from the market.

The International Tin Committee has just reduced the quotas for the second quarter of 1930 to 75 to 95 per cent. It is estimated that this will restrict production from 90,000 tons in 1929 to 150,000 tons in 1930.

It is not that tin is not wanted—and all the other things that are occurring restrains the production—but that people have not the money to buy the pumps, and what they want to, and can, produce.

YOUR PLACE IN THE SUN—

Something About Success

Success is the achieving of something you have set out to achieve. It depends upon two things. First, a clear idea of what it is you want. And secondly, the right action to turn that idea into reality.

If you act without knowing what you want, the result of your action cannot be quite satisfied.

Neither could it be called success if, after setting out to become famous as, say, an operatic singer, you eventually arrived a vaudeville star (however famous).

Now since we all want to be free in a more human way. We want to bring healthy privacy. We want to bring healthy privacy. We want to bring healthy privacy. We want to bring healthy privacy.

TOPIC: Are you free in a more human way? Do you want to settle down in comfort and privacy. We want to bring healthy privacy.

IT has been said of an Internationalist that he has no business but his own. Grasping men imagine "the eyes of a fool are on the ends of the earth." Such people form part of the clever knaves whose design it is to divert people's attention elsewhere in order to perpetuate a crime on the spot unobserved. The attention of a potential victim very strangely somewhere else is quite as important to him as a rich pick-pocket.

This sort of philosophy is propagated largely with "foreign affairs." So is the "Opposition!" So is the "free press." People are apt to talk a lot or write a lot or print concerning the alleged awful goings-on in Germany, Italy, Russia, or wherever else they choose to cooperate with the "distressed areas" in our own home.

The easy process of "avoiding the arts of peace, such as feeding fish back into the sea in England while we make it know how to mix up the rags" has been and never will be a way of escape because we haven't got enough men to do; but we do form the bulk of what passes for Christian opinion.

**The same Chief Priest, preaching in the City on the subject "Can We Be Christians?"" **SURREY CONFERENCE: RATES ACTION**

A BOUT thirty Social Creditors from surrounding districts took part in a most successful and stimulating conference at Wembley on February 26.

Mr. John Mitchell, who called the conference to order, said that meetings of this nature were intended to stimulate action, which was the purpose of deciding what action to take in order to give the ratepayer a voice in local government. Mr. Edward Hewlett opened his talk by saying how pleased he was to see so many people present on the job, and then gave a résumé of the theory of Local Government, which he said Dr. Tudor Jones had defined as “People united in association for the purpose of getting results.”

He offered better suggestions as to how L.O.s can be and have been successful, and gave due praise to newspapers that the people of Great Britain and Ireland really are demanding and getting, and that the accounting office in charge and the Press is not just a big leg-pull on his part! He spoke, too, of the Secretariat, defining it as a real public service, and not there, as some people might imagine, to say “Do this” and “Do that.” He concluded his talk by saying “If we really want our Social Credit, NOW IS THE TIME. There is no doubt about it.”

Questions and a short account on L.O.s in the East End of London from Mr. Ken Cartmell concluded the first half.

**Association Move**

After an enjoyable tea, during which Social Crediters talked to Social Creditors and students of L.D.A. New York, and this and the real business of the day was discussed.

The Association is in some difficulty in respect to the rates question, the feeling being that bombardment is a large part of action.

The rectors of the parish and the school masters are backing the people in their demand for a new school.

**Sociable CREDIT, March 4, 1938**

**The Broad Highway to Results**

All of us can agree about results—economic security plus individual freedom. Relatively few of us can agree about methods, nor ever will, so until we methods and unite for results, we cannot hope to achieve either.

The Social Credit Party in Alberta is committed to obtain results. It has an open mind about methods. Why fight about methods? If we obtain the desired results, the methods must be right.

If we fail, the methods must be wrong and they can be changed until the desired results are obtained, provided sufficient, and sustained, pressure is exerted by the people on the government.

This is dictatorship—by the people. The only alternative is dictatorship by the vested interests, who fully understand the principle of demanding results—and thus obtain them.

There is no alternative. If we really desire dictatorship by the vested interests, forget results and demand methods.

Is reality Alberta has the only truly democratic Government in the world, hence the bitter opposition to it.

It is the only way to obtain the results which the people desire, provided they apply sufficient pressure and hire sufficient support. In other words, the people being taught to control the government.

When we learn this lesson the true democracy will begin.

In the provinces, we will be in a position to impose our will on the government.

**SHADOW IMAGE OF ANCIENT EGYPT**

Here in England, the fourth shadow-image of ancient Egypt is dominant, an intense belief that the masses of the people must be presented at all costs to maintain freedom of action, and full individuality.

For nearly two centuries English policy, foreign trade, and the political arrangements, were directed towards the keeping of society divided. The, people as a whole, were not allowed to know, that we are not caring for someone by making a sacrifice or doing something to benefit another.

Our monarchy and our native feudal aristocracy have long been drained of power; they are ornaments, traps and baits for the naive ambitions of the simple rich and the innocent devotion of the simple poor.

War has never been an object of worship in England; Shakespeare's treatment of Horatio and Falstaff, and his picture of the common soldiers in Henry V, are brilliant satires of "war for war's sake."

Britain may indeed be accused of using a weapon which suggests belief in a divine mission to rule the earth; England was, and still is, insular and local in feeling; her best men; and those who do rule are fanatically determined to keep the people demoralised by, and so free from, the influence of the people-democracy—we must forget methods and demand results.

In a majority of Albertans have chosen a broad, straight highway which has been the only one which will enable all possible traffic upon it. It is the Road to Results. There will be no "bottles", or other restrictions.

To travel along this highway we do not need party badges, nor need we worry about the politics of our fellow travellers. All have the right to travel on it and all are headed for the same destination—Results.

If we fail to take this broad highway to Results, we find ourselves in a maze of methods, travelling in all directions, leading nowhere but in circles and ending in confusion and defeat.

Lines of Communication

There can be no real association without communication, and the lines of communication are most important in the task of getting what we want in association.

Our line of communication is our paper, Social Credit, and this should be increased by the use of Cripps' Dynamic Credit. The people will be interested and the cause will be going on.

In other times letter writing was a highly developed art. Today mass propaganda of selected and comparatively unimportant events, broadcast in newspapers and wireless, have taken the place of the pleasant gossip which used to be conveyed by letter.

To be corrected increasingly is more important than ever in English-speaking countries, and so what can we do to strengthen the ties of friendship between the socialists and the followers of Social Credit?

Friends are dropped, people we like are lost sight of, because we have no time to stay in touch. Why put energy and strengthen the bonds of social credit? It costs but one penny more to post a copy of Social Credit than to post a letter. You will even save a penny if you post your own copy after reading it.

Now get out your address book and begin straight away.
THE Squire was Old Jim’s boss, but his servant, too... and though the crooks in the Red Lion tap laughed when he told them that, Jim had the last laugh.

When Joe Praddle, the carter, swaggered into the Red Lion after the close of the poll, and before the last of the drunkards had come to

In a few words of strong French, away from him, Jim, more’s the pity. Tinned milk I see—tinned milk in a glass—tinned milk in a glass—tinned milk in a glass—to come to.

Don’t want strong chaps’ agin the weather, an’ sound boots I y’er feet, Joe.

"Ay, I do—on eighteen shilling’s weekly, " said Joe. "D’ye want a house o’ your own, m’boy? marry the lassie o’ your own on down Blackridge."

"No, I don’t, Joe Praddle," said Joe. "I wants me shavin’ water a bit earlier to the General Election was coming

JUSTICE MINISTER LAPOINTE, in the Dominion Parliament on February 4, defended the Dominion Government in a speech criticizing the opposition of the Alberta Acts and the Supreme Court Reference.

Turning to consideration of The British Empire, Mr. Lapointe is reported to have said: 'A constitution should be open to change, one generation having no right to bind another.'

This serves to remind the people that under the orthodox financial system this generation will be mortgaging (bending to debt enslavement) the unborn for a period of indefinite duration. The Justice Minister must know that the system will eventually defeat itself, so why allow its resultant misery to continue?

Albertans have shown the way, for they know what they want, and they want it now.

OBSOLECT IN ALBERTA'S PATH

M. JOHN BLACKMORE, Social Credit leader in the Dominion Parliament, is in Canadian cities. The Edmonton Journal has reported that the Alberta Government was elected by the people to accomplish a certain object, but every possible obstacle has been placed in its way. It is being aided by misrepresentation and all sorts of dodges.

Dole Army

In The Alberta of February 5: "Unemployment insurance will lead to a new army of assistants to live from the dispensing of the dole. They know what they want, and they want it now. Do you need them to deliver the goods?"

Alberta's Neighbours

I thought that a Provincial Election is practically certain this year in Alberta. Political and provincial context is also expected in Manitoba.

We trust the PEOPLE of both Provinces will realize that DEMOCRACY means THEY ARE THE MASTERS, and it only rents us in that capacity, and their own sentiments WHAT IS WANTED and then to use these funds for the betterment of the PEOPLE'S REQUIREMENTS.

Alberta Food Production

The cheese output last year increased by over 57 per cent. to 18,941,894 lbs. Creamery butter production last year increased by 3.5 per cent to 16,876,954 lbs. Our farmer friends will realize what real wealth must exist in Alberta to make these figures possible.

New Government Whip

Mr. ALFRED J. HOOKE has been appointed Government Whip in reference to Mr. Joseph H. Wuwin, who is under sentence for publishing the alleged defama- tory libel.

Compulsory Voting

In a message from Calgary to The Toronto Star, dated January 11, it is stated: 'I wish to enrol as a Registered Supporter of the Social Credit in the central area of Social Credit. I have not seen an increase in the price of any item since the policy of Social Credit was established.'

M.P. Alleages Bank "Racket"

One of the syndicates who are buying up blocks of small household property and then putting pressure on the tenants is working largely with advances from Banks, according to Mr. W. H. Mac- waring, Socialist Member of Parliament for East Rhodora.—"Daily Express," Feb. 17, 1928.

SOCIAL CREDIT SUPPLEMENT MONTHLY

This well printed house organ is primarily devoted to the affairs of the present Socialist candidate of the Social Credit party, Mr. R. C. G. Selby, who has been elected to the Melbourne Legislative Assembly, and is now a member of the Labour Government.

APPLICATION FORM

I wish to enrol as a Registered Supporter of the Social Credit party. Please send me particulars.
